

The **STRANGE DEATH** of **LIBERAL ENGLAND**

1910-1914

George Dangerfield

With a new introduction by David Marsland

The Strange Death Of Liberal England

Clemens Wendtner

The Strange Death Of Liberal England:

The Strange Death of Liberal England George Dangerfield, 1997 At the beginning of the twentieth century England's empire spanned the globe its economy was strong and its political system seemed immune to the ills that inflicted so many other countries After a resounding electoral triumph in 1906 the Liberals formed the government of the most powerful nation on earth yet within a few years the House of Lords lost its absolute veto over legislation the Home Rule crisis brought Ireland to the brink of civil war and led to an army mutiny the campaign for woman's suffrage created widespread civil disorder and discredited the legal and penal systems and an unprecedented wave of strikes swept the land This is a classic account first published in 1935 of the dramatic upheaval and political change that overwhelmed England in the period 1910-1914 Few books of history retain their relevance and vitality after more than sixty years The Strange Death of Liberal England is one of the most important books of the English past a prime example that history can be abiding literature As a portrait of England enmeshed in the turbulence of new movements which often led to violence against the pieties of Liberal England until it was overwhelmed by the greatest violence of all World War I this extraordinary book has continued to exert a powerful influence on the way historians have observed early twentieth century England

The Strange Death of Liberal England [1910-1914]... George Dangerfield (historien.), 1935 **Symposium, George Dangerfield and "The Strange Death of Liberal England."** Appalachian State University. Department of History, 1986 **The Strange Death of Liberal England**

George Dangerfield, 2017-09-04 This book focuses on the chaos that overtook England on the eve of the First World War Dangerfield weaves together the three wild strands of the Irish Rebellion the rebellion in Ulster the Suffragette Movement and the Labour Movement to produce a vital picture of the state of mind and the most pressing social problems in England at the time The country was preparing even then for its entrance into the twentieth century and total war Dangerfield argues that between the death of Edward VII and the First World War there was a considerable hiatus in English history He states that 1910 was a landmark year in English history In 1910 the English spirit flared up so that by the end of 1913 Liberal England was reduced to ashes From these ashes a new England emerged in which the true prewar Liberalism was supported by free trade a majority in Parliament the Ten Commandments but the illusion of progress vanished That extravagant behavior of the postwar decade Dangerfield notes had begun before the war The war hastened everything in politics in economics in behavior but it started nothing George Dangerfield's wonderfully written 1935 book has been extraordinarily influential Scarcely any important analyst of modern Britain has failed to cite it and to make use of the understanding Dangerfield provides This edition is timely since the year 2010 has seen a definitive resurrection of Liberal power Subsequent to the General Election of July 2010 the government of the United Kingdom has been in the hands of a Conservative Liberal Democrat coalition The Deputy Prime Minister is the leader of the Liberal Democratic Party the direct successor of the old Liberal Party examined by Dangerfield Five Liberal Democrat members of Parliament were appointed to

the Cabinet and there are Liberal Democrat ministers in all governmental departments After decades of absence from government power Liberalism seems to be back with a vengeance The Strange Death of Liberal England, 1910-1914 George Dangerfield, 2017 This book focuses on the chaos that overtook England on the eve of the First World War Dangerfield weaves together the three wild strands of the Irish Rebellion the rebellion in Ulster the Suffragette Movement and the Labour Movement to produce a vital picture of the state of mind and the most pressing social problems in England at the time The country was preparing even then for its entrance into the twentieth century and total war Dangerfield argues that between the death of Edward VII and the First World War there was a considerable hiatus in English history He states that 1910 was a landmark year in English history In 1910 the English spirit flared up so that by the end of 1913 Liberal England was reduced to ashes From these ashes a new England emerged in which the true prewar Liberalism was supported by free trade a majority in Parliament the Ten Commandments but the illusion of progress vanished That extravagant behavior of the postwar decade Dangerfield notes had begun before the war The war hastened everything in politics in economics in behavior but it started nothing George Dangerfield's wonderfully written 1935 book has been extraordinarily influential Scarcely any important analyst of modern Britain has failed to cite it and to make use of the understanding Dangerfield provides This edition is timely since the year 2010 has seen a definitive resurrection of Liberal power Subsequent to the General Election of July 2010 the government of the United Kingdom has been in the hands of a Conservative Liberal Democrat coalition The Deputy Prime Minister is the leader of the Liberal Democratic Party the direct successor of the old Liberal Party examined by Dangerfield Five Liberal Democrat members of Parliament were appointed to the Cabinet and there are Liberal Democrat ministers in all governmental departments After decades of absence from government power Liberalism seems to be back with a vengeance Provided by publisher The Strange Death of Liberal England, 1981 **The Strange Death of Liberal England** George Dangerfield, 1899 At the beginning of the twentieth century England's empire spanned the globe its economy was strong and its political system seemed immune to the ills that inflicted so many other countries After a resounding electoral triumph in 1906 the Liberals formed the government of the most powerful nation on earth yet within a few years the House of Lords lost its absolute veto over legislation the Home Rule crisis brought Ireland to the brink of civil war and led to an army mutiny the campaign for woman's suffrage created widespread civil disorder and discredited the legal and penal systems and an unprecedented wave of strikes swept the land This is a classic account first published in 1935 of the dramatic upheaval and political change that overwhelmed England in the period 1910-1914 Few books of history retain their relevance and vitality after more than sixty years The Strange Death of Liberal England is one of the most important books of the English past a prime example that history can be abiding literature As a portrait of England enmeshed in the turbulence of new movements which often led to violence against the pieties of Liberal England until it was overwhelmed by the greatest violence of all World War I this extraordinary book has

continued to exert a powerful influence on the way historians have observed early twentieth century England

Strange Death of Liberal England George Dangerfield,1984 **The Strange Death of Liberal England. Rev. Ed** George Dangerfield,1970 **The Strange Death of Moral Britain** Christie Davies,2017-09-08 In the last half of the twentieth century a once respectable and religious Britain became a seriously violent and dishonest society one in which person and property were at risk family breakdown ubiquitous and drug and alcohol abuse rising The Strange Death of Moral Britain demonstrates in detail the roots of Britain's decline It also shows how a society strongly Protestant in both morality and identity became one of the most secular societies in the world The culture wars about abortion capital punishment and homosexuality that have convulsed the United States have little meaning in Britain where there is neither a moral majority nor an indigenous emphasis on rights In the period when Britain had a strong national and religious identity defense of this identity led to legal persecution of male homosexuals As Britain's identity crumbled homosexuality ceased to be an important issue for most people Similarly all the pressing questions on abortion capital punishment and homosexuality were settled permanently on a purely utilitarian basis in Britain where all sources of moral argument are weak The ending of the death penalty marked the decline of the influence of the official hierarchies of church and state the Church of England the armed forces and their representative the Conservative Party The Strange Death of Moral Britain is a study of moral change secularization loss of identity and the growth of deviant behavior in Britain in the twentieth century Based on detailed scholarship it is a tightly argued and clearly written volume that will be of interest to scholars of religious studies and British social history

The Stranga Death Of Liberal England George_dangerfield George_dangerfield,2022-10-27 The Strange Death of Tory England Geoffrey Wheatcroft,2005 Has the most successful species in British political history finally become extinct The Conservative party dominated British politics for 120 years from Disraeli's victory in 1874 culminating in an unprecedented eighteen year spell in government after 1979 And yet at the very end of the century the Tories imploded so disastrously as to suggest the party might be doomed to follow the Liberals into oblivion Geoffrey Wheatcroft has observed this extraordinary drama at close hand interviewing all the key players on and more often off the record from spirited exchanges with Margaret Thatcher to unprintable asides from Alan Clark In this provocative and often acerbically funny book he first examines how the Tories came to enjoy their unlikely triumph what was meant to be the century of the common man with the unstoppable ascent of Labour turned out to be the era of the Conservative as the Tories reinvented themselves over and over again not least entirely changing the party's class character The Strange Death of Tory England demonstrates brilliantly how two profound truths explain the Conservatives decline that the Right had won politically but the Left had won culture

The Strange Death of Capitalist Individualism Joseph Ambrose Banks,1993 **The Edwardian Sense** Morna O'Neill,Michael Hatt,2010 This is the twentieth in a series of occasional volumes devoted to studies in British art published by the Yale Center for British Art and the Paul Mellon Centre for Studies in British Art and distributed by Yale University

Press Book Jacket **Dress & Vanity Fair** ,1935 *University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Subjects* University of California (System). Institute of Library Research, University of California, Berkeley, 1972 The Spectator ,1885 A weekly review of politics literature theology and art **The Death of British Democracy** Stephen Haseler, 1976 *Albion* ,1985 Vols for 1969 1970 consist of the proceedings of the Conference on British Studies Pacific Northwest Section summer 1971 winter 1972 consists of the proceedings of the Conference on British Studies at its Regional and National Meetings spring 1979 winter 1980 includes proceedings of the Conference on British Studies at its Regional and National Meetings spring 1983 includes proceedings of the North American Conference on British Studies **Conrad, the Later Fiction** Daniel R. Schwarz, 1982
