The Structure Of Morale:

The Structure of Morale J. T. MacCurdy, 2014-02-06 Originally published in 1943 this book contains the text of lectures delivered to groups of officers from the army and the auxiliary women's services early in WWII. The lectures discuss the nature of fear, the national factors at play in the creation and sustainability of morale, and the significance of psychological factors in practice in an organized community.

The Structure of Morale John Thompson MacCurdy, 1943 *The Structure of Morale (Classic Reprint)* John Thompson MacCurdy, 2017-07-11 Excerpt from The Structure of Morale: The logical way in which to begin a discussion of fear would be to say just what fear was. That however is beyond me and I believe something that no psychologist can do at least to the satisfaction of other psychologists. No more can he define love. The layman may be surprised at this because of course he knows. But the specialist is often at such a disadvantage. In his famous lecture on The Name and Nature of Poetry Professor Housman said poetry indeed seems to me more physical than intellectual. A year or two ago in common with others I received from America a request that I would define poetry. I replied that I could no more define poetry than a terrier could define a rat but that I thought we both recognized the object by the symptoms which it provokes in us. We all of us know what it is to be frightened.
