The Symposium Plato, 2003-04-29 A fascinating discussion on sex gender and human instincts as relevant today as ever In the course of a lively drinking party a group of Athenian intellectuals exchange views on eros or desire From their conversation emerges a series of subtle reflections on gender roles sex in society and the sublimation of basic human instincts The discussion culminates in a radical challenge to conventional views by Plato's mentor Socrates who advocates transcendence through spiritual love The Symposium is a deft interweaving of different viewpoints and ideas about the nature of love as a response to beauty a cosmic force a motive for social action and as a means of ethical education For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators **Symposium** Plato, 2020-05-22 Plato 428 347 B C is one of the founding fathers of Philosophy His work Symposium is a philosophical dialog between notable men of Greek history It is considered both a philosophical and literary classic **Plato the Symposium**, 1951 **Symposium** Plato, 1986 **Socrates' Defence** Plato, 2015-02-26 I'll stop doing it as soon as I understand what I'm doing Somewhere between a historical account and work of philosophy Socrates Defence details the final plea of Plato's beloved mentor Introducing Little Black Classics 80 books for Penguin's 80th birthday Little Black Classics celebrate the huge range and diversity of Penguin Classics with books from around the world and across many centuries They take us from a balloon ride over Victorian London to a garden of blossom in Japan from Tierra del Fuego to 16th century California and the Russian steppe Here are stories lyrical and savage poems epic and intimate essays satirical and inspirational and ideas that have shaped the lives of millions Plato 474 BC 347 BC Plato's works available in Penguin Classics are Republic The Last Days of Socrates The Laws Phaedrus Protagoras and Meno Timaeus and Critias Theaetetus Early Socratic Dialogues The Symposium and Gorgias **Lakoma** Plato, Kenneth James Dover, 1980 Plato's Symposium is the most literary of all his works and one which all students of classics are likely to want to read whether or not they are studying Plato's philosophy But the reader does need help in appreciating both the artistry and the arguments and in comprehending the social and cultural background against which the praise of love is delivered Sir Kenneth Dover provides here a sympathetic and modern edition of the kind that is long overdue It consists of an introduction the Greek text accompanied by a very abbreviated critical apparatus and a commentary on the text which is intended to elucidate the Greek to make the philosophical argument intelligible and to relate the content of what is said to the concepts and assumptions of contemporary morality and society An edition for students of Greek in universities and the upper forms of schools

Symposium, 1953 **Greek Festivals, Modern and Ancient** Evy Johanne Håland, 2017-06-20 This volume represents a

multi faceted cross period product of fieldwork conducted in contemporary Greece in combination with ancient sources Based on a comparative analysis of important religious festivals and life cycle rituals the book investigates the importance of cults connected with the Greek female sphere and its relation to the official male dominated ideology Within these festivals are encountered supplementary complementary or competing ideologies connected with men and women and it is shown that there is not a one way power structure or male dominance within Greek culture but rather competing powers linked to the two sexes and their respective spheres In addition to gender the book also explores the relationship between the great and little societies in the form of official and popular religion As such it will serve to broaden the reader s knowledge of ancient but also modern society because it concerns the relationship between various spheres of life which each possess their own competing and overlapping but also co existing value systems

The Five-Minute Philosopher Gerald

Benedict, 2012-01-01 To find philosophical enlightenment it is not necessary to climb to the top of a mountain or pursue a graduate degree All that is required is five minutes a day with any of the 80 life changing questions and answers compiled here by philosopher Gerald Benedict Full of insight and wisdom and utterly free of academic pretension The Five Minute Philosopher draws on sacred texts humanist writings and poetry to help readers shed their blinders put on their thinking caps and see the world and themselves anew *Symposium* Plato, 1989 A translation that offers an introduction presenting both basic information and a sense of scholarly opinion **The Irreducible Reality of the Object** Charles William

Johns, 2020-08-17 This intriguing and compact book investigates whether or not philosophy can have a use in the face of capitalist realism today Can philosophy study everyday objects like computers and mobile phones Can it think of advertising the population electricity buildings and even dreams as objects in their own right which convey particular and novel qualities when analysed Johns book starts from an immanent phenomenological study of objects arguing that such objects disclose larger systems of anthropological meaning and control The author moves away from the Husserlian essence of the object and embeds his objects in a series of uses or equipment as Heidegger called it However Johns makes a speculative move by positing the very existence of such uses distinct from the human and first person phenomenological consciousness This is when the annals of phenomenology meet contemporary strands of realism such as Speculative and Object Oriented models For Johns the world is in a constant state of being utilised not merely through humans but through objects and their relations and not only on a macro scale but on a micro scale described by the theories of quantum physics The object then becomes a locus of use yet importantly one that can never be reduced to relations alone This is because the author believes that certain aspects of a relation withholds itself in its act of relating The mutual dynamics of relation and property are thus rearticulated in a new light This novel description of relation places Johns squarely between relational ontologies such as Deleuze Latour and Garcia and non relational ontologies Harman This work is invaluable to researchers and any reader of contemporary philosophy in the age of advanced technology and capitalism [The National Union Catalog, Pre-1956 Imprints](#) ,1968
