Piotr Mikiewicz, Marta Jurczak-Morris

The Structure Of Schooling Readings In The Sociology Of Education:

The Structure of Schooling Richard Arum, Irene R. Beattie, Karly Ford, 2015 This comprehensive reader in the sociology of education examines important topics and exposes students to examples of sociological research on schools Drawing from classic and contemporary scholarship the editors have chosen readings that examine current issues and reflect diverse theoretical approaches to studying the effects of schooling on individuals and society The Structure of Schooling, 2000

Logics of Socialist Education Tom G. Griffiths, Zsuzsa Millei, 2012-09-14 For some socialism is a potent way of achieving economic political and social transformations in the twenty first century while others find the very term socialism outdated This book engages readers in a discussion about the viability of socialist views on education and identifies the capacity of some socialist ideas to address a range of widely recognized social ills It argues that these pervasive social problems which plague so called developed societies as much as they contribute to the poverty humiliation and lack of prospects in the rest of the world fundamentally challenge us to act In our contemporary world system distancing ourselves from the injustices of others is neither viable nor defensible Rather than waiting for radically new solutions to emerge this book sees the possibility of transformation in the reconfiguration of existing social logics that comprise our modern societies including logics of socialism The book presents case studies that offer a critical examination of education in contemporary socialist contexts as well as reconsidering examples of education under historical socialism In charting these alternatives and retooling past solutions in a nuanced way it sets out compelling evidence that it is possible to think and act in ways that depart from today s dominant educational paradigm It offers contemporary policy makers researchers and practitioners a cogent demonstration of the contemporary utility of educational ideas and solutions associated with socialism A pioneering collection of essays which is central to understanding the historical and contemporary meanings of socialism in the context of neoliberal globalization It is a most timely contribution to a growing intellectual project that challenges the hegemony of capitalism while re thinking and theorizing alternatives Iveta Silova Associate Professor of Comparative Education Lehigh University Bethlehem PA USA In this significant contribution to recent scholarship the authors use the lens of socialist education to offer an original critique of hegemonic capitalism and present an intellectually rigorous search for alternatives by reconsidering historical socialism and advancing promising educational experiments that challenge the global architecture of education Anders Breidlid Professor of International Education and Development Oslo University College Norway

The Praeger Handbook of Latino Education in the U.S. Lourdes Diaz Soto, 2006-11-30 Latinos in the United States have fought hard to attain equality especially in the field of education The Praeger Handbook of Latino Education in the U S focuses on this fight for equal educational access and represents a significant addition to American educational literature The contributors to this volume reveal that many Latino children still face challenges that were present many decades ago In addition to such obstacles as cultural conflicts and racism they also face teachers curricula and assessments

that are not always respectful to their backgrounds Educators parents policy makers and communities across the country will find this work a goldmine of detailed historical and current information *Handbook of Research on Teaching and Learning in K-20 Education* Wang, Viktor,2013-06-30 While the general agreement in education remains that the more senses involved in learning the better we learn the question still remains as to the distinction between the education of children and the education of adults *Handbook of Research on Teaching and Learning in K 20 Education* provides well rounded research in providing teaching and learning theories that can be applied to both adults and children while acknowledging the difference between both This book serves as a comprehensive collection of expertise research skill and experiences which will be useful to educators scholars and practitioners in the K 12 education higher education and adult education field **Diversity in Schools** Frank Brown,Richard C. Hunter,Saran Donahoo,2012-08-14 Education of America s school children always has been and always will be a hot button issue From what should be taught to how to pay for education to how to keep kids safe in schools impassioned debates emerge and mushroom both within the scholarly community and among the general public This volume in the point counterpoint *Debating Issues in American Education* reference series tackles the topic of diversity in schools Fifteen to twenty chapters explore such varied issues as ability grouping affirmative action bilingual education gender bias illegal aliens in the classroom mainstreaming and inclusion and more Each chapter opens with an introductory essay by the volume editor followed by point counterpoint articles written and signed by invited experts and concludes with Further Readings and Resources thus providing readers with views on multiple sides of diversity issues in America s schools and pointing them toward more in depth resources for further exploration **Educational Leadership for Ethics and Social Justice** Anthony H. Normore,Jeffrey S. Brooks,2014-01-01 The purpose of this book is to examine and learn lessons from the way leadership for social justice is conceptualized in several disciplines and to consider how these lessons might improve the preparation and practice of school leaders In particular we examine philosophy anthropology sociology economics political science public policy and psychology Our contention is that the field of educational leadership might consider taking a step backward in order to take several forward That is educational leadership researchers might re examine social justice both in terms of social and individual dynamics and as disciplinary specific multidisciplinary and interdisciplinary phenomenon By adopting this approach we can connect and extend long established lines of conceptual and empirical inquiry and thereby gain insights that may otherwise be overlooked or assumed This holds great promise for generating refining and testing theories of social justice in educational leadership and will help strengthen already vibrant lines of inquiry That is rather than citing a single or a few works out of their disciplinary context it might be more fruitful to situate educational leadership for social justice research in their respective traditions This could be carried out by extending extant lines of inquiry in educational leadership research and then incorporating lessons gleaned from this work into innovative practice For example why not more clearly establish lines of educational leadership and justice research into the

Philosophy of Social Justice Economics of Social Justice Political Studies of Social Justice Sociology of Social Justice Anthropology of Social Justice and the Public Policy of Social Justice as focused and discrete areas of inquiry Once this new orientation toward the knowledge base of social justice and educational leadership is laid we might then seek to explore some of the natural connections between traditions before ultimately investigating justice in educational leadership through a free association of ideas as the worlds of practice and research co construct a new language they can use to discuss educational leadership Such an endeavor may demand reconceptualization of both the processes and products of collaborative research and the communication of findings but it will demand a breaking down of methodological and epistemological biases and a more meaningful level and type of engagement between primary and applied knowledge bases

Education and Social Inequality in the Global Culture Joseph Zajda, Karen Biraimah, William Gaudelli, 2008-03-19 A major aim of Education and Social Inequality in the Global Culture which is the first volume in the 12 volume book series Globalisation Comparative Education and Policy Research edited by Joseph Zajda and his team is to present a global overview of the relationship of education socio economic status and globalization By examining some of the major education policy issues particularly in the light of recent shifts in education and policy research the editors aim to provide a comprehensive picture of the intersecting and diverse discourses of globalization education and policy driven reforms The spirit of dialogical encounter has very soundly directed editors efforts in organizing this volume The editors task is to deepen and in some cases open widely diverse and significant discourses related to globalization social stratification and education The impact of globalization on education policy and reforms is a strategically important issue for us all More than ever before there is a need to understand and analyze both the intended and the unintended effects of globalization on economic competitiveness educational systems the state and relevant policy changes all as they affect individuals educational bodies such as universities policy makers and powerful corporate organizations across the globe The evolving and constantly changing notions of national identity language border politics and citizenship which are relevant to education policy need to be critiqued by appeal to context specific factors such as local regional national areas which sit uncomfortably at times with the international imperatives of globalization

Student Voices of Success Suzanne Packard Laughrea, 2006

Sociology of Education with an Islamic Perspective Azam bin Othman, 2021

Will Schooling Ever Change? Piotr Mikiiewicz, Marta Jurczak-Morris, 2023-03-28 This book is an insightful meta narrative about schooling which explores the global natural experiment of the COVID 19 pandemic and its potential impact on school culture The proposed book discusses how the abrupt and somewhat forced digital transformation of schooling on a global scale caused by the COVID 19 pandemic did not change the educational status quo It states that online teaching and learning failed to transform the role of the key school actors students and teachers as well as the relationship between them despite megatrends such as digitalisation automation and the development of artificial intelligence This focus text discusses why the global experience of distance education did

not translate into a significant qualitative change and provides a theoretical framework which enables the reader to interpret and explain the processes that occurred during distance education as well as understand why extraordinarily little if nothing has changed in school culture It will appeal to scholars and students from the sociology of education and from education studies particularly those interested in school culture innovation in education online teaching and learning curriculum studies and education policy The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license *Latino Education in the U.S.* Lourdes Diaz Soto, 2008-09-18 Educators parents policy makers and communities across the country will find this a significant addition to American educational literature and a gold mine of both current information and detailed historical facts Latinos in the United States have fought hard to attain equality especially in the field of education This book focuses on the fight for equal educational access The contributors reveal that many Latino children still face decades old challenges In addition to such obstacles as cultural conflicts and racism they also face teachers curricula and assessments that are not always respectful to their backgrounds Three major questions form the framework for this landmark work How can schools address issues of educational equity for Latino students in the United States How can curricula be reformed to address the needs of these students How can scholars community activists and parents collaborate for the benefit of Latino learners in the United States **Educational Practice & Theory**, 2005 **Prison Schools** Lizbet McCrary Simmons, 2005

Creating Educational Dreams Trivina Kang, 2005 This book seeks to propose a sociological aspiration formation model that maps out how schools and families are contexts that secondary school students in Singapore navigate in order to reach their aspired educational outcome A Descriptive Study of Five College Prep Programs in an Urban High School Anyisia Peni Mayer, 2003 Social Work Services in Schools Paula Allen-Meares, 2004 Social Work Services in Schools covers broad school social work service issues including education and development effects of educational policy on practice and planning implementation and evaluation The editor Paula Allen Meares is the Dean of the School of Social Work at the University of Michigan Ann Arbor and is a well known expert on child welfare and working with children in the school system This book presents aspects of child family school and community social work in a comprehensive manner that includes material that all social work and child welfare professionals need such as the effects of welfare reform on children and their families or diversity and its effects on social work practice in schools *Multicultural Education*, 2006 **The Greenwood Dictionary of Education** John William Collins, Nancy P. O'Brien, 2003 The first of its kind since the 1980s this book provides authoritative definitions for more than 2 600 terms that apply to educational research practice and theory The overall focus is on the most critical terms in education as used by current practitioners yet references to significant historical events in education are also included Terms were taken from such fields as BL Early childhood education BL K 12 education BL Special education BL Higher education BL Adult education BL Career education BL Comparative education BL Curriculum

BL Mathematics education BL Science education BL Language arts BL Reading BL Social studies education BL Educational philosophy BL Educational technology BL Educational research BL Language acquisition BL Measurement BL Teaching BL And other fields Each of the definitions is 25 250 words and has been written by a knowledgeable practitioner or researcher in the field Included are acronyms and initialisms commonly used in the field names and descriptions of relevant organizations and important legal decisions relating to education An extensive bibliography provides useful sources for further research This reference work will be valuable for professionals in the K 12 setting students of education and educators and researchers in colleges of education Librarians at academic public and school libraries will find the dictionary immensely useful in interpreting education terminology
