John Dryden, Volume VII John Dryden, 1956 This is the final volume in The Works of John Dryden and the last volume of poetry written by Dryden before he died in 1700 **The Works of John Dryden** Virgil, 2015 *The Cambridge Companion to English Literature, 1650-1740* Steven N. Zwicker, 1998-06-18 This volume offers an account of English literary culture in one of its most volatile and politically engaged moments From the work of Milton and Marvell in the 1650s and 1660s through the brilliant careers of Dryden Rochester and Behn Locke and Astell Swift and Defoe Pope and Montagu the pressures and extremes of social political and sexual experience are everywhere reflected in literary texts in the daring lyrics and intricate political allegories of this age in the vitriol and bristling topicality of its satires as well as in the imaginative flight of its mock epics fictions and heroic verse The volume's chronologies and select bibliographies will guide the reader through texts and events while the fourteen essays commissioned for this Companion will allow us to read the period anew

The Works of John Dryden, Volume VII John Dryden, 2023-11-15 Dryden's last three years of published works begin with Alexander's Feast and end with Fables his largest miscellany of poetical translations Alexander's Feast like the earlier Song for St Cecilia's Day Works III was commissioned by the Musical Society for performance at its annual tribute to sacred music The Fables included selections from Homer Ovid Boccaccio and Chaucer Extensive and detailed notes to these translations show readers how well Dryden succeeded in transmitting the styles and the very sounds of his originals Volume VII ends with a section of miscellaneous pieces published at other times including Dryden's only known Latin work The presentation of the writings in this volume like that of the entire twenty volume series is a tribute not only to Dryden but also to the editors who have guided it through five decades Dryden's last three years of published works begin with Alexander's Feast and end with Fables his largest miscellany of poetical translations Alexander's Feast like the earlier Song for St Cecilia's Day Works III

Howard Weinbrot and the Precincts of Enlightenment Kevin L. Cope, 2024-05-07 Seeking to honor and extend the critical legacy of Howard Weinbrot this volume re-examines rebuilds and upgrades the most prominent pillars of long eighteenth

century scholarship The collection is divided into four thematic sections beginning with a series of chapters offering fresh analyses of Swift Dryden Hogarth and other major authors and artists of the period In the sections that follow the contributors not only explore biographies of both highly esteemed figures and notorious deviants but also investigate the very concept of Enlightenment as it has evolved from the eighteenth century to today The final section features chapters that probe the complex interaction of identity persona and place traversing the countless locales in which the British and the international eighteenth century emerged The volume ultimately covers a range of experience that extends from the gallows to the landscape garden and from heroic antiquity to Romantic era France Juxtaposing the local and particular against the grand and universal Howard Weinbrot and the Precincts of Enlightenment testifies to the complexity and ongoing significance of eighteenth century culture **Historicizing the Enlightenment, Volume 2** Michael McKeon, 2023-07-14

Enlightenment critics from Dryden through Johnson and Wordsworth conceived the modern view that art and especially literature entails a double reflection a reflection of the world and a reflection on the process by which that reflection is accomplished Instead neoclassicism and Augustanism have been falsely construed as involving a one dimensional imitation of classical texts and an unselfconscious representation of the world In fact these Enlightenment movements adopted an oblique perspective that registers the distance between past tradition and its present reenactment between representation and presence Two modern movements Romanticism and modernism have appropriated as their own these innovations which derive from Enlightenment thought Both of these movements ground their error in a misreading of imitation as understood by Aristotle and his Enlightenment proponents Rightly understood neoclassical imitation constitutively aware of the difference between what it knows and how it knows it is an experimental inquiry that generates a range of prefixes counter mock anti neo that mark formal degrees of its epistemological detachment Romantic ideology has denied the role of the imagination in Enlightenment imitation imposing on the eighteenth century a dichotomous periodization duplication versus imagination the mirror versus the lamp Structuralist ideology has dichotomized narration and description form and content structure and history Poststructuralist ideology has propounded for the novel a contradictory novel tradition realism modernism postmodernism postcolonialism whose stages both constitute a sequence and collapse it each stage claiming the innovation of the stage that precedes it Published by Bucknell University Press Distributed worldwide by Rutgers University Press *The Works of John Dryden: Poems, 1685-1692* John Dryden, 1969 *A Catalogue of the Works of John Dryden and Drydeniana on Sale at Dobell's Antiquarian Bookstore* Dobell (P.
