Lived Theology for the Whole of Life Lydia F. Johnson, 2024-06-27 This book is an invitation to envision an experiential theology that interconnects the personal the interpersonal the communal the societal and the creational held together by a God who is not removed from creation but who is infused in the very life of all beings and things of the created world Since God has created and continues to create life that is good this prompts us to apply a consistently for life ethic to the issues which confront them in the present day Our for life faith commitments include our personal challenges with alienation fear and forgiveness how we can

live a consistently for life ethic in the face of social challenges such as poverty abortion violence racism and the othering of those who are different the climate crisis and the dangers posed today by imperialism war and contemporary forms of colonialism This attempt to weave together a for life ethic for the whole of life is especially influenced by non Western and indigenous theologies in particular the relational theology that has emerged from Pacific Islander theologians **Insult to Our Planet & The Florida Keys** Jerrold J. Weinstock,2017-12-29 Explore the Wonders Face the Reality The medical definition of INSULT is to cause some kind of physical or mental injury Through the eyes of this psychiatrist and his raw existential passion for the planet a web of insult is untangled to expose environmental degradation we face today and its impact on the human spirit For over fifty years Dr Weinstock has lived in the Florida Keys fishing the Atlantic and the Gulf waters off of Key West A prize winning angler he shares exciting stories of the past in this sport fishing mecca You ll feel the humidity as he fights the Permit on Boca Chica beach hear the screeching of the terns while bonefishing on Marvin Key Through twist and turns and stories of the mind the author demonstrates the healing power of nature Hundreds colorful photos display the glorious diversity of fish and natural beauty from Key West to Alaska exploring the uplifting and the dismal view At the helm are many years of research that uncover abuses of nature in the Florida Keys as a metaphor for global environmental tragedies Heritage, Indigenous Doing, and Wellbeing Norm Sheehan,David S. Jones,Josh

Creighton,Sheldon Harrington,2023-12-15 Heritage Indigenous Doing and Wellbeing presents an Aboriginal Australian relational understanding of the world that offers a counter narrative to the Western notion of heritage and new insights into the potential for sustaining the complex systems that support all life From an Indigenous Australian perspective the Western concept of heritage is intentionally exclusionary and supports social political economic and environmental injustice Aboriginal People engage with landscape every day in entirely different ways seeing Country as a living heritage but in a unique relationship form that engages the individual with place ancestors language and wellbeing However Country is most often relegated by heritage proponents to intangible heritage and this results in the concept having little legislative legal or administrative weight Drawing on a common understanding of Country as sacred living and sentient rather than as objectified property or resource the contributors to this book explore a diversity of relationships with Country that demonstrate the richness and the practical utility of this relational understanding Heritage Indigenous Doing and Wellbeing foregrounds the voices of Australian Aboriginal People who are involved in Caring for Country It will be an essential resource for those engaged in the study of Country heritage museums Indigenous Peoples landscape architecture environmental studies planning and archaeology It will also be of great interest to heritage practitioners working around the globe
