The World Ecotourism Summit Final Report:

The World Ecotourism Summit, 2002 The World Ecotourism Summit was held in Canada in May 2002 the principal event to mark the year 2002 as the International Year of Ecotourism Its objective was to bring together governments international agencies NGOs tourism enterprises representatives of local and indigenous communities academic institutions and individuals with an interest in ecotourism in order to share experiences and identify some agreed principles and priorities for the future development and management of ecotourism This report reviews key issues debated and conclusions reached at the Summit and its preparatory process as well including the text of the Quebec Declaration on Ecotourism **Final Report**, 2002 This report contains the summaries of the debates held and conclusions reached at the World Ecotourism Summit and its preparatory process as well as the Quebec Declaration on Ecotourism **McGeorge Law Review**, 2002 Is the Sacred for Sale Alison M. Johnston, Iscst, 2014-10-14 Definitely a book that sheds light on perspectives and perceptions about today s global economy A must read for tourists and corporations alike also heads of state the media and environment groups all of whom need to be informed on this key subject Chief Garry John Chair and Spokesperson St at imc Chiefs Council an activist s call to action on behalf of people who have been made invisible in the merciless spread of globalization under corporate control Nina Rao Southern Co Chair of the Tourism Caucus at the UN Commission on Sustainable Development and Professor of Tourism A powerful and much needed tool to fight the seemingly all pervasive ignorance in the corporate and consumer driven world that continues to hail ecotourism and other tourism alternatives as beneficial to local people without looking at the root causes of problems Anita Pleumarom Tourism Investigation and Monitoring Team Bangkok Tourism is the fastest growing industry in the world Ecotourism often considered a more benign form of tourism can in fact cause the most damage as it targets more vulnerable environments and cultures Is the Sacred for Sale looks at our present crossroads in consumer society It analyses the big questions of tourism clarifying how tourism can support biodiversity conservation It also offers a cross cultural window to the divide between corporate thinking and sacred knowledge to help us understand why collisions over resources and land use are escalating Finally we have a full spectrum of information for healthy dialogue and new relationships This book is a profound wake up call to the business world and to decision makers who shape current policy It poses important questions to us all and is a must read for every tourist and traveller *Rise Of The Global South, The: Philosophical, Geopolitical And Economic Trends Of The 21st Century* Justin Dargin, 2013-05-27 This book provides a broad and in depth introduction to the geopolitical economic and trade changes wrought with the increasing influence of the countries of the Global South in international affairs The global role of the developing countries came to the forefront in 1974 when the United Nations General Assembly promulgated The New International Economic Order Since then the countries of the Global South particularly China India Brazil Saudi Arabia South Africa and Qatar made an indelible impact upon the world s economic architecture However their true influence became starkly illustrated during the onset of

the 2000s when several seismic events occurred The September Eleventh terrorist attacks with the resultant debilitating wars in Iraq and Afghanistan extreme world commodity price increases and the global financial crisis of 2007 2008 all served to wrench the epicenter of global influence increasingly southward While the developed countries of the Global North became mired in economic stagnation with problems associated with the global financial crisis their collective influence waned Since then the world has been attempting to accommodate somewhat unevenly the rising geopolitical and economic clout of the Global South This book presents a collection of scholarly articles that taken together functions as a primer on the workings of the immense global changes at the beginning of the twenty first century Tourism and the Millennium Development Goals Jarkko Saarinen, Christian M. Rogerson, Haretsebe Manwa, 2013-10-31 In 2000 United Nations adopted the Millennium Development Goals UN MDGs committing the member nations to a new global partnership to reduce extreme poverty and setting out a series of specific targets with a deadline of 2015 Related to the UN MDGs tourism is increasingly seen as a promising tool for poverty reduction ensuring environmental sustainability and developing a global partnership for development for example Thus the industry has become an important policy tool for community and regional development in many developing countries and the expectations for tourism and its social and economic outcomes have evolved to a high level However there are still many challenges to overcome in the relationship between tourism industry development and poverty reduction This book aims to discuss the promises challenges and outcomes of tourism in development with a specific aim of drawing together research related to tourism and UN MDGs The papers discuss what lessons can be learnt and conclusions drawn from the utilisation of tourism for development and poverty reduction What emerges from this collection is a set of interesting results and notions which both support and challenge the connections between tourism and development and the new role of tourism in global development This book is an extended version of a special issue published in Current Issues in Tourism **Volunteer Tourism** Jim Butcher, Peter Smith, 2015-06-05 Just a generation ago the notion that holidays should be invested with ethical and political significance would have sounded odd Today it is part of the lifestyle political landscape Volunteer tourism is indicative of the growth of lifestyle strategies intended to exhibit care and responsibility towards others less fortunate strategies aligned closely with developing one's ethical identity and sense of global responsibility It sits alongside telethons pay per click Fair Trade and ethical consumption generally as a way to make a difference Volunteer tourism involves a personal mission to address the political question of development It draws upon the private virtues of care and responsibility and disavows political narratives beyond this Critics argue that this leaves the volunteers as unwitting carriers of damaging neoliberal or postcolonial assumptions whilst advocates see it as offering creative and practical ways to build a new ethical politics By contrast this volume analyses volunteer tourism as indicative of a retreat from public politics into the realm of private experience and as an expression of diminished political and moral agency This thought provoking book draws on development political and sociological theory and is essential reading for

students researchers and academics interested in the phenomenon of volunteer tourism and the politics of lifestyle that it represents *Suffolk Transnational Law Review* ,2003 *Sustainable Tourism as a Factor of Local Development* Valentina Castellani,Serenella Sala,2009 **The Oxford Encyclopedia of the Modern World** Peter N. Stearns,2008 The Encyclopedia of the Modern World delves into the period from 1750 to the present providing special attention to social economic cultural and political topics applicable to the time The breadth of knowledge offered within this multivolume set is astounding with features spanning articles on countries regions and ethnic groups themes involving social history demography family life politics economics religion thought education science and technology and culture events such as major wars and extensive coverage of the United States Detailed articles cover not only the major facts but the interpretations as well and are written for readers who are not specialists in the particular area Enriched with over 800 halftones and 50 maps this reference work is essential for any scholar general reader collector or curator interested in this rich and varied time in history Through its fluent global coverage The Encyclopedia of Modern World provides information about and interpretation of major developments across particular regionsboth salient events and regional perspectives on common themes such as politics demography social class and gender Readers can explore topics that have global implications such as migration childhood and foods topics that can be viewed through a combination of global patterns and key comparisons Entries also shed light on standard geographic and ethnic units such as Scandinavia Korea or the Gypsies in the modern period The Encyclopedia presents unprecedented coverage of global processes and institutions themselves including the International Red Cross and the League of Nations Publisher **Peace Research Abstracts Journal** ,2004

7th Socio-Cultural Research Congress on Cambodia, 15-17 November 2004 ,2005 **Bibliographie Mensuelle** United Nations Library (Geneva, Switzerland),2003-07 **Building Biodiversity Business** Joshua Bishop,2008 The challenge of building biodiversity business is not trivial Biodiversity is still largely neglected by private finance There is a need to develop new business models and market mechanisms for biodiversity conservation and to persuade the public and policymakers that biodiversity or component ecosystem services can be conserved on a commercial basis Based on extensive consultation and analysis the authors of this new report conclude that there are numerous pro biodiversity business opportunities that can generate positive financial returns as well as real biodiversity benefits **Making Tourism More Sustainable** United Nations Environment Programme.
