Canfield,2022-12-22 Never has there been a president less content to sit still behind a desk than Theodore Roosevelt When we picture him he s on horseback or standing at a cliff s edge or dressed for safari And Roosevelt was more than just an adventurer he was also a naturalist and campaigner for conservation His love of the outdoor world began at an early age and was driven by a need not to simply observe nature but to be actively involved in the outdoors to be in the field As Michael R Canfield reveals in Theodore Roosevelt in the Field throughout his life Roosevelt consistently took to the field as a naturalist

hunter writer soldier and conservationist and it is in the field where his passion for science and nature his belief in the manly strenuous life and his drive for empire all came together Drawing extensively on Roosevelt s field notebooks diaries and letters Canfield takes readers into the field on adventures alongside him From Roosevelt s early childhood observations of ants to his notes on ornithology as a teenager Canfield shows how Roosevelt s quest for knowledge coincided with his interest in the outdoors We later travel to the Badlands after the deaths of Roosevelt s wife and mother to understand his embrace of the rugged freedom of the ranch lifestyle and the Western wilderness Finally Canfield takes us to Africa and South America as we consider Roosevelt s travels and writings after his presidency Throughout we see how the seemingly contradictory aspects of Roosevelt s biography as a hunter and a naturalist are actually complementary traits of a man eager to directly understand and experience the environment around him As our connection to the natural world seems to be more tenuous Theodore Roosevelt in the Field offers the chance to reinvigorate our enjoyment of nature alongside one of history s most bold and restlessly curious figures

The Green Roosevelt Theodore Roosevelt, 2010 America s first Green president Theodore Roosevelt s credentials as both naturalist and writer are as impressive as they are deep emblematic of the twenty sixth President s unprecedented breadth and energy While Roosevelt authored policies that grew the public domain by a remarkable 230 million acres he likewise penned over thirty five books and an estimated 150 000 letters many concerning the natural world In between drafts both personal and political scientific and sentimental he quadrupled existing forest reserves while creating the nation s first fifty wildlife refuges and eighteen national monuments among them the Grand Canyon and five national parks headlined by Yosemite And Roosevelt was far more than a policy wonk and political do gooder John Muir by his own admission fairly fell in love with him John Burroughs wrote that Roosevelt probably knew tenfold more natural history than all the presidents who preceded him And the Smithsonian s Edmund Heller dubbed him the foremost field naturalist of our time In addition to creating more than 150 000 new acres of national forest Roosevelt made a new vogue of sportsmanship famously refusing to shoot a lame bear in Mississippi and inspiring thereof an American icon and ecological fetish all at once the Teddy Bear Indeed Roosevelt s Green undertakings produced a truly living legacy one whose everlasting qualities he took robust pleasure in Naturalist William Finley once suggested to TR that the President s environmental prescience would serve as one of the greatest memorials to his farsightedness to which Roosevelt replied Bully I had rather have it than a hundred stone monuments In fact Roosevelt would have both a lasting reputation for environmental protection and timeless stone monuments at Mount Rushmore and elsewhere built to honor his dramatic public policy initiatives This book will be a critical resource for all those in American history particularly presidential history environmental history environmental studies nature studies place studies Agrarian studies conservation studies fish and wildlife biology management and ecology
