La traduction de textes plurilingues italiens Lucrezia Chinellato, Emilio Sciarrino, Jean-Charles Vegliante, 2015-10-05

Comment traduire le plurilinguisme C'est cette question centrale dans la réflexion sur la traduction que reprend ce volume issu d'une journée d'étude organisée à la Sorbonne Nouvelle par le centre de recherches CIRCE LECOMO Le domaine littéraire italien est exemplaire l'usage prégnant des langues locales y croise l'importance des langues étrangères de Dante nos jours Vritable défi le texte plurilingue confronte la traduction la superposition des significations et au problème de la réception en général monolingue En étudiant les traductions des textes classiques italiens de la prose mais aussi de la poésie et du théâtre contemporains ce volume propose des méthodes et des stratégies pour traduire le plurilinguisme dans la conviction que préserver la diversité des langues c'est restituer l'unicité d'un texte transmettre la poétique d'un auteur et défendre la richesse de chaque idiome

Le plurilinguisme en littérature

Emilio Sciarrino, 2016-12-01 Quel est l'impact du plurilinguisme sur l'écriture littéraire Après avoir dressé l'état de la recherche dans ce domaine cet essai décrit les aspects formels du plurilinguisme littéraire et présente les spécificités du cas italien travers l'étude de trois auteurs plurilingues du XXe siècle Amelia Rosselli Edoardo Sanguineti et Patrizia Vicinelli L'ouvrage explore l'imaginaire plurilingue travers les thèmes de la subjectivité de la représentation du monde et de la conscience linguistique et value les effets majeurs du plurilinguisme sur la lecture et sur la traduction De nombreux extraits de textes traduits et analysés en détail ainsi que des documents d'archives inédits illustrent cette étude qui articule critique générale et théorie littéraire pour rendre compte d'un phénomène capital de notre culture

Ecrire en langues Olga Anokhina, François

Rastier, 2015-06-26 La notion de littérature nationale doit beaucoup aux nationalismes du XIXe siècle et sa validité reste d'autant plus douteuse que les langues de culture sont transnationales Elles attirent des écrivains de toute nationalité qui bon droit rivalisent avec ceux qui écrivent dans leur langue maternelle Par leur connaissance des langues comme par leurs traductions et autotraductions ces écrivains plurilingues accèdent à l'espace de la littérature mondiale qu'ils contribuent à tendre Dans la mesure où les œuvres publiées gardent rarement les traces de ce plurilinguisme les manuscrits des écrivains plurilingues offrent un accès privilégié à leur véritable processus créatif et permettent d'appréhender empiriquement l'impact qu'exerce le plurilinguisme sur la créativité littéraire Consacrer la création plus qu'à la critique cet ouvrage entend mettre en débat l'esthétique la linguistique et l'approche générale des œuvres pour illustrer le plurilinguisme secret de toute littérature Corée Japon Allemagne Pologne Argentine Russie Italie le Maroc Antilles Bulgarie voici les principales destinations de ce voyage littéraire qui s'offre au lecteur

Dire presque la même chose

Umberto Eco, 2007-09-19 Ce n'est pas un essai théorique sur la traduction mais une illustration des problèmes que posent la traduction travers des exemples qu'Umberto Eco a vécu en tant qu'interprète en tant qu'auteur en tant que traducteur lui-même Ce sont ces trois clivages là que nous retrouvons sans cesse dans un texte qui fourmille d'exemples en toutes les langues Eco demande ses lecteurs d'être plurilingues et non polyglottes nul

besoin de maîtriser les langues citées pour comprendre puisque on est toujours dans la comparaison. Lorsqu'on arrive à la notion capitale de la fidélité, si on ne cite pas le fameux traduttore traditore que les Français ont inventé, il nous apprend que la fidélité n'est pas la reprise du mot-mot mais du monde-monde. Les mots ouvrent des mondes et le traducteur doit ouvrir le même monde que celui que l'auteur a ouvert, fait cela avec des mots différents. Les traducteurs ne sont pas des peseurs de mots mais des peseurs d'âme et dans cette histoire de passage d'un monde à l'autre, tout est affaire de négociation. Voilà le mot est là, tout bon traducteur est celui qui sait bien négocier avec les exigences du monde de départ pour déboucher sur un monde d'arrivée le plus fidèle possible, non pas la lettre mais l'esprit. Tout donc est dans le presque du titre.

Myriem Bouzaber **Précis du plurilinguisme et du pluriculturalisme** Geneviève Zarate, Danielle Lévy, Claire J. Kramsch, 2008. La langue est un instrument d'action et de pouvoir. La pluralité linguistique et culturelle se définit comme un ensemble complexe en opposition à une perspective didactique classique qui a pour objet de simplifier pour rendre intelligible. C'est un système cohérent de relations, un objet socio-historique construit, observable selon plusieurs points de vue spatio-temporels simultanés. Cette étude aborde le rôle des langues dans l'évolution des sociétés et des systèmes éducatifs et souhaite provoquer la réflexion en articulant pratiques, observations de terrain et analyses, partir d'un cadre conceptuel pluridisciplinaire.

Résumé d'après la 4^{me} de couverture Routledge Encyclopedia of Translation Studies Mona Baker, Gabriela Saldanha, 2019-09-20. The Routledge Encyclopedia of Translation Studies remains the most authoritative reference work for students and scholars interested in engaging with the phenomenon of translation in all its modes and in relation to a wide range of theoretical and methodological traditions. This new edition provides a considerably expanded and updated revision of what appeared as Part I in the first and second editions. Featuring 132 as opposed to the 75 entries in Part I of the second edition, it offers authoritative critical overviews of additional topics such as authorship, canonization, conquest, cosmopolitanism, crowdsourced translation, dubbing, fan, audiovisual translation, genetic criticism, healthcare, interpreting, hybridity, intersectionality, legal interpreting, media, interpreting, memory, multimodality, nonprofessional interpreting, note-taking, orientalism, paratexts, thick translation, war and world literature. Each entry ends with a set of annotated references for further reading. Entries no longer appearing in this edition, including historical overviews that previously appeared as Part II, are now available online via the Routledge Translation Studies Portal. Designed to support critical reflection, teaching and research within as well as beyond the field of translation studies, this is an invaluable resource for students and scholars of translation, interpreting, literary theory and social theory among other disciplines.

Congress, 2017 Dans un monde où le comparatisme est partout mais la littérature comparée institutionnellement de plus en plus menacée elle s'est historiquement développée en Occident tandis qu'elle semble au contraire se développer en Asie dans un contexte de mondialisation économique et de développement de l'informatique qui affecte tant l'économie du livre que le statut de l'auteur du texte et le rôle du lecteur l'ensemble de ces six volumes qui réunissent une sélection des actes du vingtième congrès de l'Association internationale de littérature comparée propose une réflexion sur les bases donner une critique littéraire comparatiste et sur les relations entre le comparatisme en littérature et dans les autres domaines du savoir et des arts Page 4 of cover Amériques Transculturelles Afef Benessaïeh, 2010-03-03 La transculturalité constitue une nouvelle façon de concevoir les cultures c'est-à-dire non plus comme des lots distincts mais plutôt comme des réseaux interactifs de sens et de pratiques Ces identités transculturelles qui n

entrent pas aisément dans le seul moule d'une nation ou d'une ethnie abondent particulièrement dans les Amériques par exemple les Chicanos les Franco-Ontariens les Créoles et les immigrants de deuxième et de troisième génération De Québec à l'Argentine cet ouvrage se penche sur ces identités qui se construisent au carrefour de la similitude et de la différence Transculturality is a new way of viewing culture that sees cultures not as separate islands that are easily differentiated from one another but as connected and interacting webs of meaning and practice The Americas in particular offer many examples of transcultural identities that do not fit easily into one national or ethnic mold Chicanos Franco-Ontarians Creoles and second and third generation immigrants From Quebec to Argentina this volume explores these identities which create themselves in a space between sameness and difference **Didactique plurilingue et pluriculturelle** George Alao, 2012 Cet ouvrage centre son attention sur la figure de l'acteur en contexte mondial sous un angle large et c'est celui de l'apprenant de langues dans et hors les murs d'un système d'enseignement celui de l'étudiant international dans et hors les frontières celui de l'enseignant créateur de dispositifs dans et hors de la classe celui du concepteur de manuels et du traducteur médiateurs au plus près des langues et des cultures mais surtout de leurs apprenants ou de leurs lecteurs 4e découv Inventer l'Europe Samantha Besson, 2022-10-12 Les appels refonder l'Europe se multiplient le désir d'une renaissance de l'Europe s'aiguise Avant de réinventer l'Europe ne faut-il pas comprendre quand, où, comment et par qui elle a été inventée Qu'elle soit saisie comme un continent une région une civilisation une idée un faisceau de valeurs et de droits une religion une pluralité de langues un mythe un ordre ou une culture juridique une structure composée d'institutions et d'un régime politiques un ventail d'organisations internationales un ensemble de sciences et de techniques et bien d'autres choses encore l'Europe est un sujet de recherche dans de multiples champs Cet ouvrage en témoigne et prend une résonance particulière alors que notre continent est rattrapé par la guerre Samantha Besson est professeure au Collège de France titulaire de la chaire Droit international des institutions et professeure de droit international public et de droit européen à l'Université de Fribourg en Suisse Contributions de Patrick Boucheron Nicolas Chapuis François Combes Souleymane Bachir Diagne Nicole Gnesotto Edith Heard Marc Henneaux Henry Laurens Thomas Lecuit William Marx Jean-ric Paquet Timothy Picard Philippe Pochet Thomas R. et interculturelle FIPF,2018-08-01T02:00:00+02:00 Les 41 contributions au volume 5 venues de 27 pays témoignent de l'importance de la prise en compte de la diversité dans l'enseignement du français de différents points de vue et de l'intérêt qu'y attachent les professeurs de français. Il ne s'agit pas seulement de diffuser le français mais de s'inscrire dans des situations locales très diversifiées en examinant de façon minutieuse leurs caractéristiques tant sur le plan des pratiques didactiques que des représentations qui documentent les projets d'appropriation de leurs élèves et étudiants. Les textes réunis insistent sur différentes modalités pour mettre en œuvre un enseignement du français incluant des formes d'éducation plurilingue et interculturelle. Celles-ci se déclinent de diverses façons en recourant par exemple des démarches contrastives, des approches plurielles, des entraînements à l'intercompréhension. Elles renouent aussi dans un certain nombre de cas avec un intérêt pour des activités mobilisant la littérature et la traduction en valorisant une réflexion sur ce qui advient entre les langues dans une perspective non plus seulement inter mais aussi alter linguistique et culturelle. L'adjectif de relation en français, italien, anglais et allemand Reinhard Schmidt,1972 Contact des langues et plurilinguisme dans la Romania Benjamin Peter,2024-01-24 Les situations hétérogènes de contact linguistique et le plurilinguisme présentent toujours un défi épistémologique pour la recherche. Le type de contact linguistique, les langues impliquées, les enjeux sociaux d'une société et ses groupes sociaux différents ainsi que la culture du plurilinguisme sont des facteurs importants qui en font un objet de recherche très complexe et difficilement généralisable. Ce volume contient des études qui essaient d'apprivoiser cette complexité en analysant des situations différentes de contact linguistique et de plurilinguisme en Amérique et en Europe pour en montrer les enjeux et proposer de nouvelles théories et méthodes multidisciplinaires pour les appréhender. Le volume contient également des discussions sur les nouvelles possibilités de recueillir des données linguistiques relevant des usages stigmatisés ou des sources nouvelles pour analyser aussi bien l'usage linguistique que les évaluations que les gens en font ainsi que les médiadiscours qui circulent sur ces usages.
