 Within Industry TWI Job Program could reduce human factor related harm in construction The construction industry has a
 significant impact on issues relating to the health safety and well being HSW of people in the workforce It is important to
 acknowledge that workers behaviour influences the safety management system SMS of construction projects either
 negatively or positively and that it is important for a management team to identify relevant behaviours and take appropriate
 action to solve problems In most cases accidents happen because of the results of human failure in the form of errors
 violations and system failures Human failure causes accidents and site management needs to reduce hazards that might
 cause such errors violations and system failures on worksites The chapters in the book address factors causing human failure
 on construction sites how to mitigate errors and violations through SMS and learning by doing and improving practice of
 using safety instructors on sites The book closes with insights from a TWI informed human failure reduction framework This
