Hospitality Retail Management Conrad Lashley,2009-11-03 Hospitality Retail

Management provides students and managers with a practical guide to managing units in hospitality retail organizations. Customers rely on a particular chain of hotels, restaurants or pubs to provide the same level of service and environment across the board. This standardised service provides the customer with the security of knowing what to expect from that particular organisation. However, this standardisation allows little room for creativity for individual managers to respond to the particular needs of their local market. There is a growing realisation that there is greater profitability if the chain can offer both standardised services across all its retail operations while at the same time allowing local managers the freedom to interpret the needs of its local market as they see fit. Hospitality Retail Management shows managers and students how competitive advantage can be gained by adopting management techniques which are both tight and loose and demonstrates how you can manage businesses with well defined objectives while also allowing local managers to interpret their local market as they see fit. Conrad Lashley has done extensive consultancy with companies such as McDonalds and uses case studies from these companies to reiterate key issues throughout the text. *Food and Nutrition Information and Educational Materials Center Catalog* Food and Nutrition Information Center (U.S.), 1976 **Franchise Opportunities Handbook** United States. Lee Lott, 2014-01-09 It can be very frustrating as an independent restaurant manager to be constantly training your serving staff and let's face it you really don't have the time. You don't always have available to you specific training aids such as those that the big chain restaurants do. And when you do find something it's just too costly. Well until now that is. The Server Training Manual was developed as a simple guide to help the small independent restaurant manager to easily train their serving staff. This book will teach the serving staff the proper way to take and deliver orders, how to work together as a team as well as the best way to handle complaints. It will give your staff the basic training to help them offer your customers the excellent service that will have them coming back time and time again. And you know that good service is a very big part of your business. **Business Development in Licensed Retailing** Guy Lincoln, Conrad Lashley, 2012-05-31 Business Development in Licensed Retailing a unit manager's guide details the indispensable skills and techniques needed to manage units within licensed retail organisations in a flexible and entrepreneurial manner. Supports the development of techniques with examples from existing best practice and case examples from companies such as JD Wetherspoon's TGI Fridays and McDonald's.

amongst others Business Development in Licensed Retailing considers the functional management techniques required at unit management level covering recruitment human resource management operations service quality and customer relations financial measurement and analysis promotions and strategic planning The analysis systematically provides all the practical know how you need to produce of a comprehensive business plan for your unit Ending with a comprehensive case study that demonstrates all the aspects of business development working in a real life scenario the text is ideally suited for lecturers and management development personnel to use as a learning resource through which readers can apply the principles and techniques outlined
