Tree Frog Science Slam Treed Animal Life In The Trees:

Tree Frog Dee Phillips,2013-08-01 On a bright green leaf in a rain forest tree a tiny frog is resting until night falls when it s time to go hunting The frog s red eyes are closed and its colorful orange feet are tucked beneath its body From above the green frog is perfectly camouflaged against the leaf and almost invisible to its predators Filled with information perfectly suited to the abilities and interests of its second grade audience this colorful fact filled volume introduces young readers to the everyday life of a red eyed tree frog What does a tree frog eat How does it stay safe from predators And how does an amphibian that lives in trees find the water that s needed for its tadpoles to survive and thrive Throughout the book readers are encouraged to make scientific observations based on the book s images and answer questions about the lives and physical characteristics of these tiny frogs This innovative approach to teaching about wild animals gives young scientists the chance not only to read and learn the facts but also to develop their own powers of observation and critical thinking Tree

Kangaroo Dee Phillips,2013-08-01 It s nighttime in a rain forest High in the branches of a tree a busy animal is looking for food The treetop forager is a tree kangaroo an animal that looks a lot like the ground dwelling kangaroos of Australia but which spends its life climbing and leaping through the treetops Filled with information perfectly suited to the abilities and interests of its second grade audience this colorful fact filled volume introduces young readers to the everyday life of a tree kangaroo How is the animal s body adapted to its treetop life What does the tree kangaroo eat How does it move from tree to tree And how do female tree kangaroos keep their tiny joeys safe as they leap through the rain forest sometimes jumping the length of a school bus Throughout the book readers are encouraged to make scientific observations based on the book s images and answer questions about tree kangaroo s lives and physical characteristics This innovative approach to teaching about wild animals gives young scientists the chance not only to read and learn the facts but also to develop their own powers of observation and critical thinking **Spider Monkey** Dee Phillips,2013-08-01 In the highest branches of a rain

forest tree a monkey is hanging by its tail from a branch as it gathers tasty leaves with its small hands The acrobatic tree dweller is a spider monkey and it s foraging for food high in the treetops with members of its family Filled with information perfectly suited to the abilities and interests of its second grade audience this colorful fact filled volume introduces young readers to the everyday life of a spider monkey How is the animal s body adapted to its treetop life What does a spider monkey eat How does it move from tree to tree And how do spider monkey families spend their days and raise their young Throughout the book readers are encouraged to make scientific observations based on the book s images and answer questions about the lives and physical characteristics of these agile creatures This innovative approach to teaching about wild animals gives young scientists the chance not only to read and learn the facts but also to develop their own powers of observation and critical thinking *Flying Lemur* Dee Phillips,2013-08-01 It s nighttime in the rain forest and a small animal is searching for food Like a furry kite the little creature glides from the top of one tree to the lower branches of another The

animal is a flying lemur and while these animals can't really fly they have an amazing ability to glide from one part of the forest to another Filled with information perfectly suited to the abilities and interests of its second grade audience this colorful fact filled volume introduces young readers to the everyday life of a flying lemur How has the animal's body adapted to its treetop life What does a flying lemur eat How does it move from tree to tree And how do flying lemurs raise their young and keep them safe when they live so high above the ground Throughout the book readers are encouraged to make scientific observations based on the book's images and answer questions about the lives and physical characteristics of these fascinating animals This innovative approach to teaching about wild animals gives young scientists the chance not only to read and learn the facts but also to develop their own powers of observation and critical thinking Woodpecker Dee Phillips,2013-08-01 From a large ragged hole in the trunk of an old tree a head suddenly appears The bright red crest of feathers and long beak belong to a woodpecker Safe inside the tree hole is her brood of hungry chicks The mother bird has just made a delivery of tasty insects and now she must take off again to search the forest for more food for her growing young Filled with information perfectly suited to the abilities and interests of its second grade audience this colorful fact filled volume introduces young readers to the everyday life of a woodpecker What does the bird eat How does it find its food Where do woodpeckers make their nests And how do woodpeckers care for their chicks Throughout the book readers are encouraged to make scientific observations based on the book's images and answer questions about the lives and physical characteristics of these busy birds This innovative approach to teaching about wild animals gives young scientists the chance not only to read and learn the facts but also to develop their own powers of observation and critical thinking Red-Eyed Tree Frog or Wood Frog (Wild World: Hot and Cold Animals) Marilyn Easton,2022-03-01 Discover how different animals with the same name can be Red eyed tree frogs and wood frogs are both types of frogs but they are very different Red eyed tree frogs live in the trees in the warm rainforest and hunt at night Wood frogs live on the ground in forests with hot summers and cold winters and hunt during the day Discover the many reasons why these frogs are hot and cold ABOUT THE SERIES Did you know that there are a lot of animals with the same name that live in very different environments This brand NEW series will have full color photographs throughout with short blocks of text to entertain and explain how some animals like it hot and others like the colder the better Tree-frog Tangles Rebecca Johnson,Steve Parish,2002-01-01 Tree Frogs Erika Deiters,Jim Deiters,2001 Describes the physical characteristics habitat eating habits and life cycle of tree frogs **Tree Frogs** Jaclyn Jaycox,2021 There are more than 800 kinds of tree frogs Some of them don't even live in trees But they all have very unusual feet Find out more about this large family of frogs **Tricky Tree Frogs** Natalie Lunis,2010-01-01 While almost all frogs begin their lives in the water adult frogs make their homes in many different places Some types of frogs remain in the water while other kinds stay mostly on firm ground Then there are frogs that prefer to spend their time up in the trees As kids are about to discover these tricky tree frogs have some cool ways of surviving high
