revision in the later pre unit factory manuals was the addition of technical specifications for the T120 Bonneville 1959. Unfortunately those revisions also included the deletion of repair data for rigid frame sprung hub and 3T models. This makes the Factory Workshop Manual No 11 the most comprehensive workshop manual available for pre unit twin cylinder Triumph motorcycles up to and including 1962 models as it includes repair and maintenance data for the full line of rigid frame sprung hub swing arm and 350cc models. Much more detailed than the owner's handbook, this manual provides the information necessary for the overhaul of engines, gear boxes, frames, swing arm, forks, wheels, hubs, carburetors, electrics, etc. Essential information for the enthusiast owner or restorer of these classic motorcycles. Size 5 5 x 8 5 with 224 pages and 84 illustrations. Includes 8 pages of detailed technical specification charts and both an illustration index and a comprehensive index of contents. Applicable to the following models: 5T Speed Twin, T100 Tiger, 100 TR5 Trophy, 6T Thunderbird, T110 Tiger, 110 and 3T De Luxe. Includes maintenance and repair data for the following engines: Twin Cylinder 350cc OHV, 500cc OHV and 650cc OHV.

An Illustrated Workshop Manual Covering Pre War Triumph Twin And Single Cylinder Motorcycles From 1935 To 1939. After the outbreak of war in September 1939, all of the Triumph motorcycles constructed were destined for military use; civilian production did not resume again until 1946. This is a faithful reproduction of the 1939 Floyd Clymer E T Brown Workshop Manual originally published in the US in 1947. It includes repair and maintenance data for rigid frame pre war single cylinder SV OHV and twin cylinder OHV Triumph motorcycles from 1935 to 1939. Much more detailed than the owner's handbook, this manual provides the information necessary for the overhaul of engines, carburetors, clutches, gear boxes, forks, electrics, etc. Essential information for the enthusiast owner or restorer of these classic motorcycles. Triumph Workshop Manual for Bonneville 750 and Tiger 750 Unit Construction Twins, 198? Workshop Manual No. 11 for Triumph Motorcycles, 1965* **Triumph Motorcycles 1937-1961 Single Cylinder Workshop Manual - All Models 1937-1945 Plus Terrier & Tiger Cub 1953-1961**, 2024-02-03. 204 pages and more than 100 illustrations and charts, size 5 5 x 8 5 inches. Originally published under a similar title, this publication is a faithful reproduction of the A St J Masters 1961 5th edition of the 1937 1961 Triumph Single Cylinder workshop manual published in the USA by Floyd Clymer under arrangement with the original publishers C Arthur Pearson Ltd of London UK. There are very few workshop manuals that deal with the early single cylinder Triumph motorcycles. This is likely due to the fact that in 1945, at the end of WW2, when Triumph resumed production of their civilian line of motorcycles, they discontinued the manufacture of single cylinder machines. From that point onwards, they

concentrated on their twin cylinder models and it was not until 1952 that Triumph announced another single the 150cc T15 Terrier SINGLE CYLINDER ALL MODELS 1937 1945 When this manual was originally published in 1949 its primary focus was on the 1937 to 1945 single cylinder motorcycles which included a war surplus market that was well stocked with ex military singles Models covered are 2H 2HC 3S 3SE 3SW 3H 3HW 5S 5SE 5SW 5H 6S T70 T80 T90 The bulk of these machines were based on a design that dates back to 1934 which also makes this manual of use to owners of those earlier Triumph singles TERRIER TIGER CUB 1953 1961 Ultimately the 1961 5th edition of this manual was revised and expanded to include the 1953 1961 Terrier and Tiger Cub models The information included is appropriate for all T15 T20 T20C T20S models fitted with an external distributor The engine section includes the 1960 change to energy transfer ignition plus the change at engine number 57617 when the split line between the main castings was moved to the center line of the cylinder Many Triumph enthusiasts consider that the external distributor Tiger Cub models brought the true Triumph single cylinder line to a conclusion This is further supported by the fact that the final workshop manual for the T15 T20 T20C T20S published under the Triumph name was the August 1964 manual No 8 part number 906 64 which only included the external distributor models In addition under BSA ownership the Tiger Cub engine had previously been utilized as the basis for the 1959 BSA C15 and ultimately by the BSA Bantam Cub series from 1966 onwards Unfortunately Triumph motorcycle owners are subjected to considerable confusion surrounding the appropriate selection from the multitude of originals and reprints of the various manuals that have recently flooded the online marketplace We encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years
