Masada Jodi Magness, 2021-06-08 Two thousand years ago 967 Jewish men women and children the last holdouts of the revolt against Rome following the fall of Jerusalem

and the destruction of the Second Temple reportedly took their own lives rather than surrender to the Roman army This dramatic event which took place on top of Masada a barren and windswept mountain overlooking the Dead Sea spawned a powerful story of Jewish resistance that came to symbolize the embattled modern State of Israel The first extensive archaeological excavations of Masada began in the 1960s and today the site draws visitors from around the world And yet because the mass suicide was recorded by only one ancient author the Jewish historian Josephus some scholars question if the event ever took place Jodi Magness an archaeologist who has excavated at Masada explains what happened there how we know it and how recent developments might change understandings of the story Incorporating the latest findings she integrates literary and historical sources to show what life was like for Jews under Roman rule during an era that witnessed the reign of Herod and Jesus s ministry and death Featuring numerous illustrations this is an engaging exploration of an ancient story that continues to grip the imagination today

 Michael C. Howard, 2014-01-10 While scholars have long documented the migration of people in ancient and medieval times
 they have paid less attention to those who traveled across borders with some regularity This study of early transnational
 relations explores the routine interaction of people across the boundaries of empires tribal confederacies kingdoms and city
 states paying particular attention to the role of long distance trade along the Silk Road and maritime trade routes It examines
 the obstacles voyagers faced including limited travel and communication capabilities relatively poor geographical knowledge
 and the dangers of a fragmented and shifting political landscape and offers profiles of better known transnational elites such
 as the Hellenic scholar Herodotus and the Venetian merchant Marco Polo as well lesser known servants merchants and
 sailors By revealing the important political economic and cultural role cross border trade and travel played in ancient society
 this work demonstrates that transnationalism is not unique to modern times Instructors considering this book for use in a
