The Year Of Dreaming Dangerously By Slavoj Zizek 2012:

The Year of Dreaming Dangerously Slavoj Zizek, 2012-10-09 Call it the year of dreaming dangerously 2011 caught the world off guard with a series of shattering events While protesters in New York Cairo London and Athens took to the streets in pursuit of emancipation obscure destructive fantasies inspired the world's racist populists in places as far apart as Hungary and Arizona achieving a horrific consummation in the actions of mass murderer Anders Breivik The subterranean work of dissatisfaction continues Rage is building and a new wave of revolts and disturbances will follow Why Because the events of 2011 augur a new political reality These are limited distorted sometimes even perverted fragments of a utopian future lying dormant in the present Zizek and Media Studies M. Flisfeder, L. Willis, 2014-04-09 Film media and cultural theorists have long appealed to Lacanian theory in order to discern processes of subjectivization representation and ideological interpellation Here the contributors take up a Zizekian approach to studies of cinema and media raising questions about power ideology sexual difference and enjoyment World Literature and the Geographies of Resistance Joel Nickels, 2018-06-07 This book proposes a new definition of world literature an archive of democratic mechanisms external to state power Accordingly World Literature and the Geographies of Resistance takes shape as an exploration of nonstate space territories of self government that contest the vertical command structures of the state Joel Nickels argues that literature devoted to these processes of spatial occupation can help us imagine democratic alternatives to state space and to the regime of legalized dispossession that goes under the name of globalization Conceptualized in these terms world literature can be viewed not as the corollary of 90s era cosmopolitanism but as a document of strategies for the militant reorganization of social space This ambitious book addresses the work of Patrick Chamoiseau Ousmane Sembene Miguel ngel Asturias Claude McKay Arundhati Roy T S Eliot and Melvin Tolson It engages with theories of transnationality diaspora and postcoloniality as well as world literature **Contemporary Chinese Art** Paul Gladston, 2014-06-15 Since the confirmation of Deng Xiaoping's policy of Opening and Reform in 1978 the People's Republic of China has undergone a liberalization of culture that has led to the production of numerous forms of avant garde experimental and museum based art With a fast growing international market and a thriving artistic community contemporary Chinese art is riding a wave of prosperity though issues of censorship still abound Shedding light on the current art scene Paul Gladston's Contemporary Chinese Art puts China's recent artistic output into the context of the wider cultural economic and political conditions that surround it Providing a critical mapping of ideas and practices that have shaped the development of Chinese art Gladston shows how these combine to bind it to the structure of power and state both within and outside of China Focusing principally on art produced by artists from mainland China including painting film video photography and performance he also discusses art created in Taiwan Hong Kong Macau and diasporic communities Illustrated with 150 images Contemporary Chinese Art unravels the complexities of politics artistic practice and culture in play in China's art scene Spaces of Longing and Belonging, 2019-07-01 Spaces of Longing

and Belonging offers the reader theoretical and interpretative studies of spatiality centered on a variety of literary and cultural contexts. It brings new and complementary insights to bear on creative uses of spatiality in artistic texts and generally into the field of spatiality as a cultural phenomenon especially although not exclusively in terms of literary space. Ranging over questions of aesthetics, politics, sociohistorical concerns, issues of postcoloniality, transculturality, ecology and features of interpersonal spaces among others, the essays provide a considerable collection of innovative pieces of scholarship on important questions relating to literary spatiality generally as well as detailed analyses of particular works and authors. The volume includes ground breaking theoretical investigations of crucial dimensions of spatiality in a context of increased global awareness.

Art and Activism in the Age of Systemic Crisis Eliza Steinbock, Bram Ieven, Marijke de Valck, 2020-10-07 This book examines how renewed forms of artistic activism were developed in the wake of the neoliberal repression since the 1980s. The volume shows the diverse ways in which artists have sought to confront systemic crises around the globe searching for new and enduring forms of building communities and reimagining the political horizon. The authors engage in a dialogue with these artistic efforts and their histories in particular the earlier artistic activism that was developed during the civil rights era in the 1960s and 70s providing valuable historical insight and new conceptual reflection on the future of aesthetic resilience. This book will be of interest to scholars in contemporary art history, of art film and literary studies, protest movements and social movements.

Cosmopolitanism and the Media M. Christensen, A. Jansson, 2015-05-19 Cosmopolitanism and the Media explores the diverse implications of today's digital media environments in relation to people's worldviews and social practices. Communism in the 21st Century Shannon Kurt Brincat, 2013-12-12 A compelling three volume exploration of the philosophical, social and political facets of the theory and practice of communism within the conditions of 21st century world politics and late capitalism. The world has changed significantly and so has communism. This groundbreaking three volume series comprises contributions from over 30 experts that thoroughly address the past, present and future of communism. The entries assess the modern re-articulation of the notion of communism and its potential emergence against the backdrop of recent historical conditions and contemporary world politics taking into account the ongoing global financial crisis, recent revolutions throughout the Middle East, Occupy protest events and anti globalization movements. The first volume reexamines Marx's ideas from many distinct viewpoints while the second volume considers the numerous challenges facing existing communist parties including those in China, Cuba, North Korea and Vietnam. The last volume explores the future of communist thought and practice in the context of the modern world and the recurrent crises of capitalism.

Psychoanalysis and the Global Ilan Kapoor, 2018-09 Psychoanalysis and the Global is about the hole at the heart of the global meaning the instability and indecipherability that lies at the hub of globalization. The contributors use psychoanalysis to expose the unconscious desires, excesses and antagonisms that

accompany the world of economic flows cultural circulation and sociopolitical change Unlike the mainstream discourse of globalization which most often assumes unencumbered movement across borders these contributors uncover what Lacan calls the Real of the gLObal its rifts gaps exceptions and contradictions Psychoanalysis and the GLObal adopts a psychoanalytic lens to highlight the unconscious circuits of enjoyment racism and anxiety that trouble if not undermine globalization s economic cultural and environmental goals or gains The contributors interrogate how unconscious desires and drives are externalized in our increasingly globalizing world the ways in which traumas and emotional conflicts are integral to the disjunctures homogeneities and contingencies of global interactions how social passions are manifested and materialized in political economy as much as in climate change urban architecture refugee and gender politics or the growth of neo populism and how the unconscious serves as a basis for the rise and breakdown of popular movements against authoritarianism and neoliberal globalization Psychoanalysis and the GLObal represents a major step forward in understanding globalization and also in extending the range and power of psychoanalytic critiques in and of geography

Marxism, Revolution and Utopia Herbert Marcuse, 2014-03-26 This collection assembles some of Herbert Marcuse s most important work and presents for the first time his responses to and development of classic Marxist approaches to revolution and utopia as well as his own theoretical and political perspectives This sixth and final volume of Marcuse s collected papers shows Marcuse s rejection of the prevailing twentieth century Marxist theory and socialist practice which he saw as inadequate for a thorough critique of Western and Soviet bureaucracy and the development of his revolutionary thought towards a critique of the consumer society Marcuse s later philosophical perspectives on technology ecology and human emancipation sat at odds with many of the classic tenets of Marx s materialist dialectic which placed the working class as the central agent of change in capitalist societies As the material from this volume shows Marcuse was not only a theorist of Marxist thought and practice in the twentieth century but also proves to be an essential thinker for understanding the neoliberal phase of capitalism and resistance in the twenty first century A comprehensive introduction by Douglas Kellner and Clayton Pierce places Marcuse s philosophy in the context of his engagement with the main currents of twentieth century philosophy while also providing important analyses of his anticipatory theorization of capitalist development through a neoliberal restructuring of society The volume concludes with an afterword by Peter Marcuse

Protest - Analysing Current Trends Matthew Johnson, Samid Suliman, 2016-03-22 The politics of the twenty first century is marked by dissent tumult and calls for radical change whether through food riots anti war protests anti government tirades anti blasphemy marches anti austerity demonstrations anti authoritarian movements and anti capitalist occupations Interestingly contemporary political protests are borne of both the Right and Left and are staged in both the Global North and South Globally different instances of protest have drawn attention to the deep fissures which challenge the idea of globalisation as a force for peace Given the diversity of these protests it is necessary to examine the particular nature of grievances the sort

of change which is sought and the extent to which localised protest can have global implications The contributions in this book draw on the theoretical work of Hardt and Negri David Graeber and Judith Butler among others in order to explore the nature of hegemony the Occupy movement the Arab Spring the responses of authorities to protest and emotion and public performance in and representation of protest The book concludes with David Graeber's reply to reviews of his recent *The Democracy Project: A History, A Crisis, A Movement* This book was published as a special issue of *Global Discourse* **Slavoj Žižek and Radical Politics** Sean Homer, 2016-05-05 In this book Sean Homer addresses Slavoj Žižek's work in a specific political conjuncture his political interventions in the Balkans The charge of inconsistency and contradiction is frequently levelled at Žižek's politics a charge he openly embraces in the name of pragmatism Homer argues that his interventions in the Balkans expose the dangers of this pragmatism for the renewal of the Leftist politics that he calls for The book assesses Žižek's political interventions in so far as they advance his self-proclaimed ruthlessly radical aims about changing the world Homer argues the Balkans can be seen as Žižek's symptom that element which does not fit into the system but speaks its truth and reveals what the system cannot acknowledge about itself In Part II Homer explores Žižek's radicalism through his critique of Alain Badiou arguing that Badiou's affirmationism provides a firmer grounding for the renewal of the left than Žižek's negative gesture analyzed in Part I What distinguishes Žižek from the majority of the contemporary Left today is his valorization of violence Homer tackles this issue head on in relation to political violence in Greece Finally Homer defends the utopian impulse on the radical left against its Lacanian critics **Sociology of Crisis** Myrto Tsilimpounidi, 2016-11-03 The global financial crisis has demonstrated the impact and implications of late capitalism and its bedfellow globalisation In the European context crisis is seen as a threat to the stability of the region rather than a local or national concern Post 2008 crisis is social and political rather than merely financial as Western countries witness the consequences of consumption growth and profit In this book Tsilimpounidi demonstrates how sociologists must develop new approaches to examining rapid shifts in the social landscape since crisis is not merely reflected in balance sheets but is mediated through spectacular imagery of loss deprivation and increased vectors of marginalisation Providing focused and valuable insight into the pressing problems of those living in Greece in relation to the wider spheres of the nation and at the level of the European Union *Sociology of Crisis* takes an approach that is firmly located within a critical sociological appeal to reflexivity A timely engagement with the problem of crisis at a macro level and in dialogue with the everyday experiences of crisis on a micro level this interdisciplinary title will appeal to both undergraduate and postgraduate students interested in sociology social policy geography urban studies and research methods social science *Political Correctness and the Destruction of Social Order* Howard S. Schwartz, 2016-09-20 This book develops a psychoanalytic theory of political correctness and the pristine self which is defined as a self touched by nothing but love It explores the damage that political correctness can do to social order Applications include the breakdown of social capital the financial crisis and Occupy Wall Street Long an issue for

conservatives alarm over political correctness has now spread to the liberal side of the political spectrum As Schwartz argues all have reason to be concerned The psychology that underlies political correctness has the potential to be extremely destructive to social organization on every level Schwartz discusses the primitive roots of political correctness and through the use of case studies shows its capacity for ruination The book focuses on a transformation in the idea of the self and specifically the rise of the pristine self The problem is that in truth the world does not love us This puts the pristine self at war with objective reality

The Gap in God's Country Laurie M. Johnson, 2024-10-18 Laurie M Johnson argues that America's culture wars may seem to have erupted in the past couple of decades but they go back centuries For those who think that Christian nationalism or right wing populism is the problem to be solved that some people simply need to understand Christianity or politics better and become reasonable read on Christian nationalism and other ideological extremes are symptoms of major economic technological spiritual and psychological shifts that have left too many people uprooted disenchanted and precarious There are no easy answers but Johnson tries to show a path out that enlists not only individuals but also church and state Without leadership and structure provided at the levels of the church and state Christians and those impacted by them will remain part of the problem and not the solution Johnson says to Christians change is not talk it's action and Christian action can only happen with leadership that creates a context where we can work together rather than wasting our time in culture wars

Cosmopolitanism and the Legacies of Dissent Tamara Caraus, Camil Alexandru Parvu, 2014-07-17 The core idea shared by all cosmopolitan views is that all human beings belong to a single community and the ultimate units of moral concern are individual human beings not states or particular forms of human associations Nevertheless the attempts to ground a political theory on overarching universal principles is in contradiction with the plurality of social cultural political religious interpretative standpoints in the contemporary world Is dissent cosmopolitan Is there a legacy of dissent for a theory of cosmopolitanism This book is a comparative historical analysis of dissident thought and practice for contemporary debates on cosmopolitanism Divided into two parts the editors and contributors explore the contribution of paradigmatic dissidents like Gandhi Martin Luther King Havel Sakharov Mandela Liu Xiaobo Aung San Suu Kyi towards a post universalist cosmopolitan theory Part Two examines the inherent cosmopolitanism of the seemingly peripheral dissent of contemporary forms of protests resistance direct action like NO TAV movement and Occupy Wall Street A timely book which allows for a much needed new engagement in contemporary debates of cosmopolitanism we learn how practical resistance to totalizing hegemonic claims is generated and how dissident thinking might contribute to new enriched ways of conceiving the non totalizing foundations of cosmopolitanism An innovative look at what lessons can scholars of cosmopolitanism learn from dissident movements and what the role of dissent in cosmopolitan democracy could be

The Intellectual and the People in Egyptian Literature and Culture Ayman A. El-Desouky, 2014-11-13 The Intellectual and the People in Egyptian Literature and Culture uses the notion of *am ra* the Egyptian concept of collective and connective

agency to explore the relationship between the Egyptian intellectual and the people in contemporary Egyptian literature and culture

Zizek's Jokes Slavoj Zizek, 2018-02-23 i ek as comedian jokes in the service of philosophy A serious and good philosophical work could be written consisting entirely of jokes Ludwig Wittgenstein The good news is that this book offers an entertaining but enlightening compilation of i ekisms Unlike any other book by Slavoj i ek this compact arrangement of jokes culled from his writings provides an index to certain philosophical political and sexual themes that preoccupy him i ek s Jokes contains the set ups and punch lines as well as the offenses and insults that i ek is famous for all in less than 200 pages So what s the bad news There is no bad news There s just the inimitable Slavoj i ek disguised as an impossibly erudite politically incorrect uncle beginning a sentence There is an old Jewish joke loved by Derrida For i ek jokes are amusing stories that offer a shortcut to philosophical insight He illustrates the logic of the Hegelian triad for example with three variations of the Not tonight dear I have a headache classic first the wife claims a migraine then the husband does then the wife exclaims Darling I have a terrible migraine so let s have some sex to refresh me A punch line about a beer bottle provides a Lacanian lesson about one signifier And a truly obscene version of the famous aristocrats joke has the family offering a short course in Hegelian thought rather than a display of unspeakables i ek s Jokes contains every joke cited paraphrased or narrated in i ek s work in English including some in unpublished manuscripts including different versions of the same joke that make different points in different contexts The larger point being that comedy is central to i ek s seriousness
