Theatre Ritual And Transformation The Senoi Temiars:

Theatre, Ritual and Transformation Sue Jennings, 2018-12-20 Sue Jennings and her three children spent two years on a fieldwork expedition to the Senoi Temiar people of Malaysia. *Theatre Ritual and Transformation* is a fascinating account of that experience. She describes how the Temiar regularly perform seances which are enacted through dreams, dance, music and drama and explains that they see the seance as playing a valuable preventative role in people's lives as well as being a medium of healing and cure. Her account brings together the insights of drama therapy and theatre with those of social anthropology to provide an invaluable theoretical framework for understanding theatre and ritual and their links with healing.

Routledge International Handbook of Dramatherapy Sue Jennings, Clive Holmwood, 2016-05-20 Routledge
International Handbook of Dramatherapy is the first book of its kind to bring together leading professionals and academics from around the world to discuss their practice from a truly international perspective. Dramatherapy has developed as a profession during the latter half of the twentieth century. Now we are beginning to see its universal reach across the globe in a range of different and diverse approaches. From Australia to Korea to the Middle East and Africa through Europe and into North and South America, dramatherapists are developing a range of working practices using the curative power of drama within a therapeutic context to work with diverse and wide-ranging populations. Using traditional texts in the Indian subcontinent, healing performances in the Cameroon, supporting conflict in Israel and Palestine through traditional Comedic theatre in Italy to adolescents in schools and adults with mental ill health, this handbook covers a range of topics that shows the breadth, depth and strength of dramatherapy as a developing and maturing profession. It is divided into four main sections that look at the current international developments in dramatherapy: Theoretical approaches, Specific practice, New and innovative approaches, Offering insights on embodiment, shamanism, anthropology and cognitive approaches coupled with a range of creative theatrical and therapeutic methods. This ground-breaking book is the first congruent analysis of the profession. It will appeal to a wide and diverse international community of educators, academics, practitioners, students, training schools and professionals within the arts, arts education and arts therapies communities. Additionally, it will be of benefit to teachers and departments in charge of pastoral and social care within schools and colleges.
