Theories Of Local Economic Development Perspectives From Across The Disciplines:

Theories of Local Economic Development Richard D. Bingham, Robert Mier, 1993 Assembling the leading thinkers and practitioners in the field of economic development Theories of Local Economic Development places state of the art theoretical positions on such important issues as inner city development rural development technological innovation and rebuilding economic infrastructure To accomplish this task the contributors skillfully incorporate illustrative case material Chapters draw on the disciplines of economics geography regional science urban planning sociology political science and public administration The pivotal assumption behind this book is that research should and can lead to general statements about economic development As a result scholars of economics and public finance public administration political science urban studies policy studies and development studies will appreciate this invaluable resource Bingham and Mier have compiled an interesting study of local economic development in the United States by bringing together a series of papers that review aspects of economic growth from across a range of methodological perspectives The study is to be recommended to anyone wishing to gain a general understanding of current theoretical debate in the United States to economic development and may provide readers with some useful ideas on possible methodological approaches to understanding economic development in Britain Local Government Studies The individual contributions are generally sound well written reviews of the various theories relating to their particular subject areas The study is designed to have a common theme of reviewing problems and succeeds in its aim by providing a far more consistent study than many other collections of papers The study is therefore to be recommended to anyone wishing to gain a general understanding of current theoretical debate in the United States and may provide readers with some useful ideas on possible methodological approaches to understanding economic development in Britain Local Government Studies

The Institutional Foundations of the Digital Economy in the 21st Century Elena G. Popkova, Artem Krivtsov, Aleksei V. Bogoviz, 2021-02-08 The development of the Digital Economy has been a landmark breakthrough for economic systems in the 21st century as it opens up opportunities for the full scale implementation of new digital technologies and the optimization of economic activities While the conceptual essence and specific features of the digital economy are described in detail in the existing literature the practical foundations of its formation are poorly studied In this book the digital economy is studied from the perspective of neo institutional economic

theory This allows for the tracking of the process of formation institutionalization of the digital economy determining the basic institutions that are necessary for its formation and that exist in modern economic practice and analyzing scenarios for the future development of the digital economy in the 21st century Cities, Politics, and Policy John P. Pelissero,2002-10-01 Just because Milwaukee isn't Manhattan doesn't mean that those urban centers face completely unique challenges Through effective comparative analysis of key issues in urban studies how city managers share power with mayors how spending policies affect economic development and how school politics impact education policy students can clearly see how scholars discern patterns and formulate conclusions to offer theoretical and practical insights from which all cities can benefit Pelissero brings together an impressive team of contributors to explore variation among cities through case studies and cross sectional analyses Each author synthesizes the field's seminal literature while explaining how urban leaders and their constituents grapple with everything from city council politics to conflict and cooperation among minority groups Authors identify both key trends and gaps in the scholarship and help set the research agenda for the years to come Lively case material will hook your students while the accessible presentation of empirical evidence make this reader the comprehensive and sophisticated text you demand **Dilemmas of Urban Economic Development** Richard D. Bingham,Robert Mier,1997-04-14 Is local economic development a zero sum game How do we know that but for the incentives the development would not have occurred How important is quality of life in location decisions and local economic development Is industry targeting a viable economic development strategy This book tackles these and many other significant questions from more than one perspective Dilemmas of Urban Economic Development assesses the state of the art of the field of urban economic development Each chapter addresses a particularly pertinent issue in economic development Following each chapter are commentaries one written by an academic addressing research methodology and the other by a practitioner addressing both the question and the evidence The chapters are concluded with the author of each chapter responding directly to the issues raised by the commentators The result is a productive dialogue between academics practitioners and citizens concerned with economic development **Quality Tourism Experiences** Gayle Jennings,Norma Polovitz Nickerson,2006 The book draws together writers from different backgrounds and interdisciplinary interests and research methodologies as a consequence the book provides a model of the way researchers can work together to illuminate an area and to provide multiple representations and interpretations of that area Moreover the book demonstrates interdisciplinary transdisciplinary and intradisciplinary approaches and collaborations Kathleen Andereck Ph D Arizona State University West Sue Beeton Ph D La Trobe University Heather E Bowen Ph D George Mason University Kelly S **Local Economic Development** ,1999 **Sustainable Land Sector Development in Northern Australia** Jeremy Russell-Smith,Glenn James,Howard Pedersen,Kamaljit K. Sangha,2018-09-03 Key Features Provides clear and authoritative recommendations for managing fire in ecological and social contexts Authors are all international leaders in their fields and include not only

academics but also leaders of Indigenous communities Explains Indigenous cultural and knowledge systems to a degree that has rarely been accessible to lay and academic readers outside specialized disciplines like Anthropology Responds to growing need for new approaches to managing human ecological systems that are in greater sympathy with Australia's natural environments climate and value the knowledge of Indigenous people Timely for scholarly and interest groups intervention as the Australian government is again looking to develop the north Sustainable Land Sector Development in Northern Australia sets out a vision for developing North Australia based on a culturally appropriate and ecologically sustainable land sector economy This vision supports both Indigenous cultural responsibilities and aspirations as well as enhancing enterprise opportunities for society as a whole In the past well meaning if often misguided policy agendas have failed and continue to fail North Australians This book helps breach that gap by acknowledging and harnessing Indigenous cultural strengths and knowledge systems for looking after the country and its people as part of a smart novel and diversified ecosystem services economy *Entrepreneurship in Emerging Domestic Markets* Glenn Yago, James R. Barth, Betsy Zeidman, 2007-12-03 This book will be the most up to date compilation of different perspectives on entrepreneurship The authors are highly respected in the field either as scholars or practitioners and have interacted before on this topic either as co authors on papers or as conference discussants The research provides historical information as well as the latest data on entrepreneurship The book focuses on emerging domestic markets which encompasses minorities women and low income communities **Local**

Lyons, 2003 Comprehensive treatment of local economic development Covers theory classic and modern tools financing tax policy nonfinancial assistance business attraction and retention business creation tools and current issues the influence of high technology and education and how to understand and evaluate the development readiness of each local environment Detailed case studies highlight successful programs and also describe in detail the specific problems challenges and local realities that every development professional faces Presents business friendly innovations such as infrastructure improvements site development and training assistance What is the role of government What are the best targets for development What is the importance of innovation This book clarifies why each jurisdiction adopted the strategies it did and it presents the consequences of those strategies Glossary and select bibliography *A Path to Smarter Economic Development* National Academy of Public Administration, 1996 **Globalization's Impact on State-local Economic**

Development Policy Cal Clark, Robert S. Montjoy, 2001 Globalization's Impact on State Local Economic Development Policy *Applied Geography for the Entrepreneurial University* Antoine Bailly, Lay James Gibson, Kingsley E. Haynes, 2008 Declines in public support for universities throughout the world have prompted administrators and policy makers to seek alternative funding One favored idea is the entrepreneurial university one that uses modern business practices including commercializing its intellectual property A related notion is the entrepreneurial professor who is willing to explore next

commercial markets for his or her intellectual outputs Although these concepts for commercialization and partnerships with business and government are not always appreciated or embraced they are becoming more common particularly in the natural sciences engineering and medicine This book focuses on the field of geography and its potential in the entrepreneurial university The contributors also discuss how to encourage the acceptance of entrepreneurial faculty who move the work of academic geography into the world of commercial applications in industry government and nongovernmental sectors BOOK JACKET CEPAL Review United Nations. Local Enterprise Zone Programs and Economic Development Planning Chun-Cheung Sidney Wong,1996 Knowledge Without Boundaries Mary Lindenstien Walshok,1995-04-04 In Knowledge Without Boundaries Mary Lindenstien Walshok reveals the untapped potential of research universities for delivering and helping to apply the critical knowledge that society needs to maintain and build economic workforce and civic strength Walshok who oversees one of the nation s most extensive successful university outreach programs argues convincingly for research universities to assume a more central role in connecting new and existing knowledge with the array of users that depAnd on this resource in today s society Using case studies and examples from such distinguished research universities as Johns Hopkins the University of Chicago and the University of California Walshok details how institutions are creating knowledge linkages between their academic resources and constituencies as diverse as parents social agencies and corporations She explores the evolution and expansion of America s depAndence on new knowledge and the importance of that knowledge as a critical resource that supports and drives virtually all social and economic progress And she shows how to integrate the competing knowledge needs of diverse constituencies with the traditional teaching and research mission of American higher education *Race, Politics, and Community Development in U.S. Citites* James Jennings,2004-07 As U S cities compete for economic resources many city leaders adopt business friendly policies which boost opportunities for big businesses and institutions in their area This progrowth strategy proposes to generate jobs for residents and higher tax revenues for local government As a result according to the logic of progrowth economic benefits will trickle down to improve the living conditions in working class and impoverished neighborhoods In spite of this strategy poverty rates among urban Latinos and Blacks is staggering even in cities that have pursued neoliberal policies These progrowth strategies seem to have had little or no impact on resolving problems like poverty unemployment homelessness and the alienation of youth from communities of color Community development has been and continues to be a response to these kinds of problems But local political struggles can determine the direction of community development towards neighborhood empowerment and representation of neighborhood interests versus community development on behalf of progrowth policies This issue of the ANNALS examines the interplay between progrowth politics community development and race It goes well beyond a broad brushstroke of the topic and examines several specific cities and how they have implemented these strategies and their impact on impoverished populations and

race relations By using concrete examples the authors discuss how community development fits or does not fit within the framework of progrowth policies and politics The volume covers several important themes Community development is not politically neutral and must be discussed within a broad political economic and even global context Local politics play a major role in determining the direction nature and possibilities of community development A high level and sustained community participation is crucial for the representation of low income urban neighborhoods in cities pursuing progrowth policies Race remains a fundamental issue I city politics and influences the political interplay between progrowth strategies and community development Utilizing information and analysis across several disciplines this issue offers important research for students scholars and practitioners in areas of political science economics sociology urban studies and race relations
