The Gift of Being Zachary

Hayes,2017-06-15 In view of the critical environmental problems confronting the modern world reflection on the nature and meaning of the world and on humanity s place in it becomes increasingly important While Christian theology has done this for centuries the present situation calls for a serious rethinking of many issues in the light of contemporary physics biology and cultural history The Gift of Being presents insights of the sciences in a way that is helpful for Christians today Creation theology helps believers come to a stronger sense of their own identity as they come to an awareness of the world This enables them to gain a deeper insight into how they ought to relate to that world if they wish to find meaning in their lives This state of being requires a willingness to distinguish between the medium and the message in approaching the Scriptures It also requires a willingness to take the sciences seriously In The Gift of Being Hayes focuses on traditional questions of creation but also comments on where science is with creation anthropology and destiny He begins by discussing the relation between faith and reason and hence between theology and science from a historical perspective moving to the most current statements of modern Popes He follows with a summary statement of the possible retrieval of the biblical religious insights that can be distinguished from the physical worldview that stands behind much of the biblical material This allows for a discussion of the traditional concept of creation from nothing in the form of a conversation with contemporary physics He then discusses the Christian idea of God as the primal mystery of creative love from whom all of creation flows With these foundational ideas in place Hayes looks at such questions as the origin of humanity and the failure of humanity throughout history He then focuses on the tradition of cosmic Christology Finally the theological issues of the final outcome of God s

creation and its history is discussed against the background of the current scientific projections of a future for the cosmos Chapters are Science the Bible and Christianity The Vision of the Hebrew Scriptures Creation and the Christian Scriptures Creation from Nothing The Triune God the Creator Humanity in the Cosmic Context Sin and Evil Christ and the Cosmos and Creation and the Future Zachary Hayes OFM PhD 1932 2014 was a professor of systematic theology at Catholic Theological Union He taught and wrote extensively on matters related to the theological understanding of creation and the relation between theology and science He was on the staff of the Chicago Center for Religion and Science He was the author of Visions of a Future A Study of Christian Eschatology from the New Theology Studies series published by The Liturgical Press

The New Apologetics Ian S. Markham, 2020-03-27 Skepticism about Christianity abounds Building on the work of Charles Taylor Ian S Markham argues that contemporary skepticism is more a mood than an intellectual repudiation of Christian theology In its attempt to accommodate science the church too often opts for deistic responses that take the spiritual out of the material Against this response Markham argues for a rich imaginative account of the world that is grounded in Christian revelation and affirms spiritual causation angels and the reality of the saints It is a clarion call for the Western church to learn from the church in the Global South and create a rich theology that lives up to its professed values as a genuinely inclusive church Kierkegaard and the Patristic and Medieval Traditions Jon Bartley Stewart, 2008 This volume features articles which employ source work research to trace Kierkegaard's understanding and use of authors from the Patristic and Medieval traditions It covers an extraordinarily long period of time from Cyprian and Tertullian in the second century to Thomas Kempis in the fifteenth Despite its heterogeneity and diversity in many aspects this volume has a clear point of commonality in all its featured sources Christianity **Traditions of Eden; Or, Proofs of the Historical Truth of the Pentateuch ...** Henry Shephard, 1871 **Celebrating the Catholic Home: Traditions and Rituals for Every Holiday and Feast Day** Clay McCall, 2025-04-04 In a world where traditions often get lost in the hustle and bustle of modern life rediscovering the rich tapestry of Catholic customs can bring a profound sense of connection and meaning to our daily lives This book serves as a guide to enriching your family's spiritual journey by celebrating the timeless traditions and rituals associated with every Catholic holiday and feast day From Advent wreaths to Easter vigils and from saints feast days to ordinary Sundays this book covers a wide array of practices that have been cherished by Catholic families for generations Each chapter delves into the historical and spiritual significance of these traditions offering practical advice on how to incorporate them into your home Whether it's crafting a nativity scene with your children preparing a special meal for All Saints Day or understanding the liturgical importance of different feast days this book provides the tools and inspiration you need One of the central challenges many Catholic families face today is preserving their spiritual heritage amidst a rapidly changing world This book addresses that problem head on by offering creative and manageable ways to maintain these traditions **The Natural World and God** Denis Edwards, 2017-12-31 How are we to think about the natural world around

us in relation to the God of Jesus Astronomers cosmologists and evolutionary biologists have opened wonderfully new ways of seeing the community of life on Earth and its place in the universe At the same time we are facing an extreme crisis of life on our planet Both of these realities demand that we rethink our theology of animals plants ecosystems as well as galaxies and stars In this book Denis Edwards collects together a series of explorations into this kind of theology Theology, Aesthetics, and Culture Robert MacSwain, Taylor Worley, 2012-09-20 David Brown is a widely respected British theologian who initially made his mark in analytic discussions of Christian doctrine such as the Trinity However with the publication of *Tradition and Imagination* *Revelation and Change* 1999 his career entered a distinctly new phase focused on theology imagination and the arts Four related volumes followed dealing with biblical interpretation Christian discipleship art and icons place and space the body music metaphor drama liturgy the sacraments religious experience and popular culture According to Brown the fundamental thesis underlying all five volumes is that both natural and revealed theology are in crisis and the only way out is to give proper attention to the cultural embeddedness of both *Theology Aesthetics and Culture* is the first attempt to assess the significance of this remarkable series and its contributors include some of the most prominent philosophers theologians historians biblical scholars literary scholars and cultural critics writing today Aside from its exceptional interdisciplinary range and ecumenical line up a distinctive feature is sustained consideration of Browns analysis of popular culture Given the stature of the contributors this volume is not merely of interest as a commentary on Browns work but also makes an important original contribution to our understandings of theology aesthetics and culture as they relate to the life of the Church academy and human society Apatheia in the Christian Tradition Joseph H. Nguyen, 2018-02-21 To many modern people apatheia being without suffering without passion sounds like cold heartedness and indifference to others a condition to be avoided However in the classical world and for many in the historic Christian church it was a spiritual state to aspire to What exactly is apatheia What is its origin How has it been used in spiritual writings throughout the centuries of Christian practice And how may it help us today to articulate a Christian understanding of the soul s spiritual well being The central aim of the book is twofold to rediscover the meaning and function of the Greek term apatheia as it was understood and employed by the Stoics in their philosophical and religious writings and to explore how the theologians of the church Origen Evagrius John Cassian Maximus and Ignatius of Loyola interpreted apatheia for their spiritual practice Nguyen argues that the concept of apatheia in the Christian spiritual tradition connotes the state of spiritual peace or well being of the human soul wherein excessive and negative emotions such as lust excessive desire for food and drink anger envy resentment self love and pride are replaced by reasonable desires love and humility **New Testament Theology** Frank J. Matera, 2007-01-01 In this systematic book by book exploration of the theology of each New Testament writing Frank J. Matera explores theological diversity and unity in the writings of the New Testament After an introduction to the history and method of New Testament theology he explains and describes the theologies of the Synoptic Pauline and Johannine traditions

as well as the rich theology of other New Testament voices Hebrews the Catholic Epistles and the book of Revelation
