Transformation Human Rights Fact Finding:

The Transformation of Human Rights Fact-Finding Philip Alston, Sarah Knuckey, 2015-11-23 Fact finding is at the heart of human rights advocacy and is often at the center of international controversies about alleged government abuses. In recent years, human rights fact finding has greatly proliferated and become more sophisticated and complex while also being subjected to stronger scrutiny from governments. Nevertheless, despite the prominence of fact finding, it remains strikingly under studied and under theorized. Too little has been done to bring forth the assumptions, methodologies, and techniques of this rapidly developing field or to open human rights fact finding to critical and constructive scrutiny. *The Transformation of Human Rights Fact Finding* offers a multidisciplinary approach to the study of fact finding with rigorous and critical analysis of the field of practice while providing a range of accounts of what actually happens. It deepens the study and practice of human rights investigations and fosters fact finding as a discretely studied topic while mapping crucial transformations in the field. The contributions to this book are the result of a major international conference organized by New York University Law School's Center for Human Rights and Global Justice. Engaging the expertise and experience of the editors and contributing authors, it offers a broad approach encompassing contemporary issues and analysis across the human rights spectrum in law, international relations, and critical theory. This book addresses the major areas of human rights fact finding such as victim and witness issues, fact finding for advocacy enforcement and litigation, the role of interdisciplinary expertise and methodologies, crowd sourcing, social media, and big data, and international guidelines for fact finding.

The United Nations Special Procedures System Aoife Nolan, Rosa Freedman, Thérèse Murphy, 2017-01-09 The United Nations Special Procedures system is a key element of the evolving international framework for human rights protection and promotion. However, despite the system's expansion, the range of roles and functions performed by mandate holders and the mounting evidence of its strengths and limitations, there has been very little academic interrogation or analysis of Special Procedures. This lacuna is ever more problematic given the growing profile and effectiveness of the Special Procedures work as well as the increasing attention and challenges that they face both externally from States and internally from within the UN system. Given the current state of play of Special Procedures, it is essential that scholarly attention be focussed upon the system. How does it contribute to international human rights protection? How, when and why does it fail to do so? What steps can and should be taken to address shortcomings both within the system and in terms of the legal and political context within which it operates. Featuring expert contributions from key players within and expert commentators on the Special Procedures system, this volume addresses these questions in an in-depth and rigorous scholarly manner.

New Technologies for Human Rights Law and Practice Molly K. Land, Jay D. Aronson, 2018-04-19 Provides a roadmap for understanding the relationship between technology and human rights law and practice. This title is also available as Open Access.

Commissions of Inquiry Christian Henderson, 2017-05-18 This timely and pertinent collection looks at the variety of questions involved in the operation of Commissions of Inquiry (CoIs). Traditionally existing as pure fact-finding bodies, in recent times the function of CoIs has arguably shifted and broadened so as to provide a form of legal adjudication. This shift in their application merits scrutiny, and this edited collection of essays addresses institutional and procedural aspects of CoIs as well as issues in regards to the application and interpretation of the substantive law applied to them. Essay topics include the relationship of CoIs with and impact upon traditional forms of adjudication, the influences of international law upon the work of CoIs, through to issues of procedural fairness. Drawing upon the expertise of scholars working within the field, it offers an insightful and critical analysis of CoIs.

Human Rights and Technological Change Michael Homberg, Benjamin Möckel, 2022-05-25 ber das Spannungsverhältnis zwischen Menschenrechten und modernen Technologien für die Zeit seit dem Zweiten Weltkrieg.
