Sabina Spielrein Angela M. Sells, 2017-07-25 Explores the life and work of psychoanalyst Sabina Spielrein through a feminist and mytho poetic lens Long stigmatized as Carl Jung's hysterical mistress Sabina Spielrein 1885-1942 was in fact a key figure in the history of psychoanalytic thought Born into a Russian Jewish family she was institutionalized at nineteen in Zurich and became Jung's patient Spielrein went on to earn a doctorate in psychiatry practiced for over thirty years and published numerous papers until her untimely death in the Holocaust She developed innovative theories of female sexuality child development mythic archetypes in the human unconscious and the death instinct In *Sabina Spielrein* Angela M Sells examines Spielrein's life and work from a feminist and mytho poetic perspective Drawing on newly translated diaries papers and correspondence with Jung and Sigmund Freud Sells challenges the suppression of Spielrein's ideas and shows her to be a significant thinker in her own right This book is a major perhaps a definitive contribution to the literature Angela Sells documents both the demonization of a great psychoanalytic theorist mainly because she was a woman and worse still was once Carl Jung's patient The book's greatest strength is its power to enlighten and inform and in so doing to arouse indignation and amazement at Spielrein's brilliance and tenacity Phyllis Chesler author of *Women and Madness* This is a pathbreaking piece of research that not only begins to rehabilitate the reputation of a woman patient of Jung's but also suggests that Spielrein was an important contributor in her own right to the beginnings of psychoanalysis Carol P Christ coauthor of *Goddess and God in the World* *Conversations in Embodied Theology*

A Re-Visioning of Love Ana Mozol, 2019-06-10 In *A Re-Visioning of Love* Dark Feminine Rising Ana Mozol parts the illusory veils of persona as she explores the reality of feminine experiences relating to love trauma and sexuality in contemporary Western society Mozol takes us on a personal journey through the three levels of experience delving into the underworld and the trauma of rape the middle world and the illusions of romantic love and the upper world and the masculine spiritual ideals that fracture the feminine soul In this multidisciplinary examination of the feminine Mozol seeks to understand violence against women intrapsychically interpersonally and within the field of depth psychology The book begins with Mozol's own experiences with violence and her exploration of the demon lover complex and the stages of breaking this complex after trauma Combining personal testimony theoretical reflections historical analysis and 20 years of clinical experience Mozol uses a heuristic approach to explore personal stories clinical material dreams and depth analysis as they connect to the female individuation process We follow Mozol's journey through the middle world and the illusions of romantic love into the upper world and the complexity of Oscar Wilde's feminine character Salome who represents the rising dark feminine energy that must be reckoned with for the possibility of love to exist Accessible yet powerful Mozol uses her personal story to place the oppression of women within the Jungian context of individuation *A Re-Visioning of Love* Dark

Feminine Rising will be key reading for academics and students of Jungian and post Jungian studies psychotherapy trauma studies gender studies women s studies and criminology It will also be an indispensable resource for Jungian psychotherapists and analytical psychologists in practice and in training A Re Visioning of Love however is more than a psychological exploration it is a memoir of the personal and archetypal feminine and as such will appeal to anyone interested in the story of many women today

The Creative Feminine and her Discontents Juliet Miller, 2018-04-24 The Creative Feminine and her Discontents Psychotherapy Art and Destruction is a look at creativity from a woman s perspective By looking at artistic endeavour mothering and psychotherapeutic relationships Juliet Miller considers how a patriarchal world distorts the channels through which women discover their own creative voices She argues that the dynamics of female creativity are more multi layered and conflicted for women for a variety of historical cultural and archetypal reasons and suggests that an attack on the creative feminine has been exacerbated by the history and teaching of psychoanalysis and psychotherapy Miller looks to the artistic community to discover new ways for the creative feminine to grow and assesses how ideas of destruction and anarchy are crucial for the expression of a feminine self The work of two contemporary sculptors Cornelia Parker and Louise Bourgeois is explored to show how there can be authentic relationships to creativity through the ideas of deconstruction and reconstruction in their work This book will interest psychotherapists and analysts and both women and men interested in their own relationship to their creativity

The Feminine Case Tessa Adams, Andrea Duncan, 2018-12-07 The Feminine Case is a collection of papers that debate the issue of gender from a Jungian perspective Particular attention is paid to the discussion of Jung s transcendent function and what this offers women in the process of individualisation Attention is also given to the revisionist work of James Hillman and to relevant issues found within post Lacanian critique principally in the works of Julia Kristeva Luce Irigaray and Helene Cixous The chapters deal with a range of issues and aim to promote further discussion One theme discussed in the book is the way in which feminine language is formed within a masculine domain and how it can and is changing Works of literature notably those of Charlotte Bronte and The Tempest are explored and examined in conjunction with Jungian themes The feminine in relation to the maternal and in its lack of relation to the divine are two other engaging topics discussed in this volume This collection involves the reader in a welcome debate on the role of the feminine in the Jungian world

‘Two Souls Alas’ Mark Saban, 2019-11-07 In his memoir Memories Dreams Reflections Carl Jung tells us that as a child he had the experience of possessing two personalities Two Souls Alas is the first book to suggest that Jung s experience of the difficult dynamic between these two personalities not only informs basic principles behind the development of Jung s psychological model but underscores the theory and practice of Analytical Psychology as a whole Mark Saban suggested that what Jung took from his experience of inner division was the principle that psychological health depends upon the avoidance of one sidedness a precept that underpins Jung s seminal notion of individuation In practice this process requires again and again that any one sided position approach or belief is

brought into tension with a conflicting opposite position in order that a third position can be achieved which transcends both of the earlier positions In the second part of the book Saban takes up this principle and uses it to perform an internal critique on Analytical Psychology as enshrined in Jung s Collected Works He suggests that in certain arenas Jung s personal one sidedness specifically his persistent tendency to prioritise the inner dimension of psychological work and to downplay or ignore the outer dimension undermined Jung s capacity to fully follow through the logic of the two personalities Saban argues that as a result Analytical Psychology has failed to find a stance from which it can creatively engage with political social and historical matters This book opens up a new direction for post Jungian psychology and indicates some ways in which by following the logic of the two personalities the one sidedness that has long shadowed Jungian psychology can begin to be corrected
