Understanding Nonviolence Maia Carter Hallward, Julie M. Norman, 2015-09-15 The use of nonviolent action is on the rise From the Occupy Movement to the Arab Spring and mass protests on the streets of Brazil activists across the world are increasingly using unarmed tactics to challenge oppressive corrupt and unjust systems But what exactly do we mean by

nonviolence How is it deployed and to what effect Do nonviolent campaigns with political motivations differ from those driven by primarily economic concerns What are the limits and opportunities for activists engaging in nonviolent action today Is the growing number of nonviolence protests indicative of a new type of twenty first century struggle or is it simply a passing trend Understanding Nonviolence Contours and Contexts is the first book to offer a comprehensive introduction to nonviolence in theory and practice Combining insightful analysis of key theoretical debates with fresh perspectives on contemporary and historical case studies it explores the varied approaches aims and trajectories of nonviolent campaigns from Gandhi to the present day With cutting edge contributions from leading scholars and practitioners in the field this accessible and lively book will be essential reading for activists students and teachers of contentious politics international security and peace and conflict studies *Narratives of Identity in Social Movements, Conflicts and Change* Landon E. Fleisher, Anne Skorkjær Binderkrantz, 2022-06-20 The growing need for a concise and comprehensive overview of the world of interest groups lobbying and public affairs called for a compendium of existing research key theories concepts and case studies This project is the first transnational encyclopedia to offer such an interdisciplinary and wide overview of these topics including perspectives on public relations crisis management communication studies as well as political science political marketing and policy studies It is an interdisciplinary work which involved an extraordinary pool of contributors made up of leading scholars and practitioners from all around the globe it is a live and evolving project focused on drawing together grounded international knowledge for our diverse and developing world The 200 entries of the Palgrave Encyclopedia of Interest Groups Lobbying and Public Affairs to be found as a live reference work online here and in two print volumes in 2022 address these research avenues tackling a growing demand for a comprehensive international reference work regarding key global sectors and policymaking structures looking beyond the traditional markets of Europe and North America to incorporate practice and research from Asia Africa Oceania and Latin

alienated from prevailing forms of collective popular resistance in the OPT due to the low levels of legitimacy they accord them. This alienation has been made stark by the gendered and intersecting impacts of expanding settler colonialism, tightening spatial control, a professionalised and depoliticised civil society, reinforced patriarchal constraints, Israeli and Palestinian Authority (PA) repression and violence, and a deteriorating economy, all of which have raised the barriers Palestinian women face to active participation. Undertaking a gendered analysis of conflict and resistance, this volume highlights significant changes over the course of a long running resistance movement. Readers interested in gender and women's studies, the Arab-Israel conflict, and Middle East politics will find the study beneficial.
