Sex Tourism in Africa Wanjohi Kibicho, 2016-04-01 Illustrated by in depth empirical research from Kenya one of the most popular country destinations in Africa for sex tourism this book gathers much needed statistics and data and then critically examines the features of tourism and the sex trade contextualizing this in relation to tourism development It addresses the conditions which generate this social problem and while not taking a potentially problematic moralistic stance it questions whether this trade is exploitative in nature particularly in cases of child sex tourism It then critically evaluates the current policies in place to regulate the sex tourism industry and provides suggestions for future direction

Sex Tourism Michael C. Hall, Chris Ryan, 2005-07-08 Sex Tourism examines the issues which emerge from sex worker client interactions and from tourists visiting sex destinations It is a comprehensive summary of past research by academics and original primary and secondary research by the authors and has examples from Asia Australasia and the USA The authors have generated new models to show different dimensions of sex tourism which normalise at least some components of the sex industry and represent a new way of looking at sex tourism by challenging the preconceived perceptions that some people have of sex tourism or confirm the impression of others Sex Tourism looks at issues of importance to those working in tourism women s studies gender studies and social change

The Perfect Business?
Anti-Trafficking and the Sex Trade along the Mekong Sverre Molland, 2012-09-10 For those at the high end of the trafficking chain the sex trade is an alluring and lucrative business the supply of girls is constant the costs of operations are low and interference from law enforcement is weak to non existent Anti trafficking organizations and governments commonly appropriate such market metaphors of supply and demand as they struggle with the moral political dimensions of a business involving trade labor prostitution migration and national borders But how apt are they Is the sex trade really the perfect business This provocative new book examines the social worlds and interrelationships of traffickers victims and trafficking activists along the Thai Lao border It explores local efforts to reconcile international legal concepts the bureaucratic prescriptions of aid organizations and global development ideologies with on the ground realities of sexual commerce Author

Sverre Molland provides an insider's view of recruitment and sex commerce gleaned from countless conversations and interviews in bars and brothels a view that complicates popular stereotypes of women forced or duped into prostitution by organized crime Molland's fine grained ethnography shows a much more varied picture of friends recruiting friends and families helping relatives A recruiter rationalizes her act as a benefit or favor to a village friend relationships between prostitutes and bar owners are cloaked in kin terms and familial metaphors Sex work in the Mekong region follows patron client cultural scripts about mutual help and obligation which makes distinguishing the victims from the traffickers difficult Molland's research illuminates the methods and motivations of recruiters as well as the economic incentives and predicaments of victims The Perfect Business is the first book to go beyond the usual focus on migrants and sex commerce to explore the institutional context of anti trafficking Its author himself a former advisor for a United Nations anti trafficking project raises crucial questions about how an increasingly globalized development aid sector responds to what might more accurately be described as an extraterritorial development challenge of human mobility His book will offer insights to students and scholars in anthropology gender studies and human geography as well as anyone interested in one of the most controversial issues of development policy

Handbook of Social Problems George Ritzer, 2004 Ritzer's Handbook of Social Problems offers a comprehensive treatment of today's major societal issues The articles are authored by some of the top scholars in the field and address problem areas that will capture the interests of students and professors alike The international coverage is most welcome in this time of intensifying global inequalities Nancy Jurik Arizona State University

The Handbook of Social Problems A Comparative International Perspective provides a unique broadly comparative perspective on the current state of social problems and deviance in a variety of societies around the world Editor George Ritzer along with leading U S and international sociologists examines the relationship between social problems and a society's level of development and affluence The essays in this volume focus on four interrelated issues involved in the relationship between social problems and the level of development and affluence Less developed and less affluent societies are more likely to experience a range of social problems than developed and affluent societies Affluence causes or at least brings with it a series of social problems that do not exist in less affluent societies It is only with affluence that certain things can come to be imagined as social problems such as excessive consumption The very affluence of a society makes it vulnerable to problems that would not be social problems in poorer societies The Handbook explores the theory of the weakness of the strong in other words strong or wealthy nations may have greater vulnerability to some social problems than less developed or affluent societies This theory is clearly illustrated in this volume by the aftermath of September 11 2001 depicting the vulnerability of the U S to social problems in far removed corners of the world In addition the international and comparative essays in this volume cover other important issues such as the impact of modern technologies on social problems ecological problems global inequality health as a social problem and much more The Handbook of Social Problems is a vital resource for
