Kok,David Seignior,Michelle Barrett,2025-05-26 The demand for online health professional educational programs has grown rapidly in recent years driven by technological advances and an increasing learner appetite for flexible accessible educational experiences As the uptake of online techniques has increased so has the research into their pedagogical underpinnings However the speed of these developments means many health professional educators remain unfamiliar with the evidence base and practicalities of actually designing and delivering these learning experiences This book summarizes best practices in online education in a succinct curated and practical manner It is designed with the busy health professional educator in mind and is written by fellow health professional educators who understand the everyday challenges of the role It highlights core principles gives step by step guidance on how to implement these for clinical learners and includes copious tips and tricks to facilitate success Covering everything from basic online implementations through to the advanced integration of Artificial Intelligence into learning programs this book will serve as a valuable resource for any educator wanting to familiarise themselves with this important new discipline *Modern Monitoring in Perioperative Medicine* Henry Liu,Alan David Kaye,2025-06-06

Perioperative monitoring is crucial for optimizing clinical outcomes in perioperative medicine. This state-of-the-art book introduces the latest technologies and updated methodologies essential for healthcare providers involved in perioperative care. Covering all stages: preoperative, intraoperative, and postoperative, this book details advanced monitoring strategies using the newest equipment and techniques to ensure patient safety. Chapters focus on various monitoring technologies, including those for blood pressure, ventilation, cardiac performance, oxygenation, heart rate, and brain function. These clinical monitors are vital for delivering safe and effective care across healthcare professions. The book also explores the validation of clinical investigations and the future of patient monitoring, including innovations in machine learning, artificial intelligence, and remote monitoring in perioperative medicine. Each chapter concludes with bullet-point summaries for easy reference. The editors, who are seasoned experts in anesthesiology, pharmacology, physiology, and pain management, bring decades of experience as clinicians, leaders, and educators. This book is an invaluable resource for mastering the critical concepts of perioperative patient monitoring.
