Walmart 2012 New Associate Guide:

Guide to Organisation Design Naomi Stanford, The Economist, 2015-04-28 Business failure is not limited to start ups Industry Watch published by BDO Stoy Hayward an accounting firm predicts that 17 043 businesses will fail in the UK in 2006 a further 4 per cent increase from 2005 In America between 1990 and 2000 there were over 6 3 million business start ups and over 5 7 million business shut downs Risk of failure can be greatly reduced through effective organizational design that encourages high performance and adaptability to changing circumstances Organization design is a straightforward business process but curiously managers rarely talk about it and even more rarely take steps to consciously design or redesign their business for success This new Economist guide explores the five principles of effective organization design which are that it must be driven by the business strategy and the operating context not by a new IT system a new leader wanting to make an impact or some other non business reason involve holistic thinking about the organization be for the future rather than for now not to be undertaken lightly it is resource intensive even when going well be seen as a fundamental process not a repair job Racing cars are designed and built They are then kept in good repair
