Transatlantic Studies British American Culture:

Transatlantic Literary Studies, 1660-1830 Eve Tavor Bannet, Susan Manning, 2011-12-08 The recently developed field of transatlantic literary studies has encouraged scholars to move beyond national literatures towards an examination of communications between Britain and the Americas The true extent and importance of these material and literary exchanges is only just beginning to be discovered This collection of original essays explores the transatlantic literary imagination during the key period from 1660 to 1830 from the colonization of the Americas to the formative decades following political separation between the nations Contributions from leading scholars from both sides of the Atlantic bring a variety of approaches and methods to bear on both familiar and undiscovered texts Revealing how literary genres were borrowed and readapted to a different context the volume offers an index of the larger literary influences going backwards and forwards across the ocean *Transatlantic Sensations* John Cyril Barton, Kristin N. Huston, a Preface by David S. Reynolds, 2016-02-24

Bringing together sensation writing and transatlantic studies this collection makes a convincing case for the symbiotic relationship between literary works on both sides of the Atlantic *Transatlantic Sensations* begins with the prehistories of the genre looking at the dialogue and debate generated by the publication of sentimental and gothic fiction by William Godwin Susanna Rowson and Charles Brockden Brown Thus establishing a context for the treatment of works by Louisa May Alcott Mary Elizabeth Braddon Dion Boucicault Wilkie Collins Charles Dickens George Lippard Charles Reade Harriet Beecher Stowe and George Thompson the volume takes up a wide range of sensational topics including sexuality slavery criminal punishment literary piracy mesmerism and the metaphors of foreign literary invasion and diseased reading Concluding essays offer a reassessment of the realist and domestic fiction of George Eliot Charlotte Yonge and Thomas Hardy in the context of transatlantic sensationalism emphasizing the evolution of the genre throughout the century and mapping a new transatlantic lineage for this immensely popular literary form The book's final essay examines an international kidnapping case that was a journalistic sensation at the turn of the twentieth century **The Materials of Exchange between Britain**

and North East America, 1750-1900 Daniel Maudlin, Robin Peel, 2016-03-03 Taking a multidisciplinary approach to the complex cultural exchanges that took place between Britain and America from 1750 to 1900 *The Materials of Exchange* examines material visual and print culture alongside literature within a transatlantic context The contributors trace the evolution of Anglo American culture from its origins as a product of the British North Atlantic Empire through to its persistence in the post Independence world of the nineteenth and early twentieth centuries While transatlanticism is a well established field in history and literary studies this volume recognizes the wider diversity and interactions of transatlantic cultural production across material and visual cultures as well as literature As such while encompassing a range of fields and approaches within the humanities the ten chapters are all concerned with understanding and interpreting the same Anglo American culture within the same social contexts The chapters integrate the literary with the material offering alternative

and provocative perspectives on topics ranging from the child made book to representations of domestic slaves in literature by way of history painting travel writing architecture and political plays By focusing on cultural exchanges between Britain and the north eastern maritime United States over nearly two centuries the collection offers an in depth study of Britain s relationship with a single region of North America over an extended historic period Contributors have resisted the temptation to prioritize the relationship between New England and England in particular by placing this association within the contexts of Atlantic exchanges with other northeastern states as well as with the South the Caribbean and Scotland Intended for researchers in literature visual and material culture this collection challenges single subject boundaries by redefining transatlantic studies as the collective examination of the complex and interrelated cultural t

Washington Irving's Critique of American Culture J. Woodrow McCree, 2021-06-24 Washington Irving s Critique of American Culture Sketching a Vision of World Citizenship challenges long standing views of Washington Irving He has been portrayed as writing in the 18th century style of Addison and Goldsmith without having much substance of his own Irving has also been accused of being insufficiently American and adrift in an identity crisis The author argues that Irving addressed the American cultural context very extensively he was a writer of substance who articulated an ethic of world citizenship that was found in the philosophy of ancient Greek cynics and stoics This ethic was united with a love of picturesque travel which emphasized variety and texture in experience resulting in an extraordinary affirmation of the value of cultural diversity in the new Republic Irving was in fact a liminal figure straddling Romantic and neoclassical modes of writing and acting The author draws attention to Irving s success as a writer in the pictorial mode Irving also expressed a critique of cultural loss and environmental destruction like that articulated by the artist Thomas Cole The work embraces an interdisciplinary approach where insights from philosophy religion art history and social history shed light on an underestimated writer
