Transforming Modernity Popular Culture In Mexico Translations From Latin America Series:

Transforming Modernity Néstor García Canclini, 2010-06-28 Is popular culture merely a process of creating marketing and consuming a final product or is it an expression of the artist's surroundings and an attempt to alter them? Noted Argentine-Mexican anthropologist Néstor García Canclini addresses these questions and more in *Transforming Modernity*, a translation of *Las culturas populares en el capitalismo*. Based on fieldwork among the Purépecha of Michoacán, Mexico, some of the most talented artisans of the New World, the book is not so much a work of ethnography as of philosophy, a cultural critique of modernism. García Canclini delineates three interpretations of popular culture: spontaneous creation, which posits that artistic expression is the realization of beauty and knowledge; memory for sale, which holds that original products are created for sale in the imposed capitalist system; and the tourist outlook, whereby collectibles are created to justify development and to provide insight into what capitalism has achieved. *Transforming Modernity* argues strongly for popular culture as an instrument of understanding, reproducing and transforming the social system in order to elaborate and construct class hegemony and to reflect the unequal appropriation and distribution of cultural capital. With its wide scope, this book should appeal to readers within and well beyond anthropology: those interested in cultural theory, social thought, and Mesoamerican culture.

Decentering America Jessica C. E. Gienow-Hecht, 2007 This is an introduction for academics, students, and political analysts to some of the latest trends in the study and state of culture and international history: modernity, NGOs, internationalism, cultural violence, the Romance of Resistance, and the culture of diplomacy.

Runaway Daughters Kathryn A. Sloan, 2008-11-16 Sloan investigates how civil laws in post-colonial Mexico played a significant role in changing social norms for marriage, sexuality, and parental authority.

Indigenous Cosmolectics Gloria Elizabeth Chacón, 2018-09-28 Latin America's Indigenous writers have long labored under the limits of colonialism, but in the late twentieth and twenty-first centuries they have constructed a literary corpus that moves them beyond those parameters. Gloria E. Chacón considers the growing number of contemporary Indigenous writers who turn to Maya and Zapotec languages alongside Spanish translations of their work to challenge the tyranny of monolingualism and cultural homogeneity. Chacón argues that these Maya and Zapotec authors reconstruct an Indigenous literary tradition rooted in an Indigenous cosmolectics, a philosophy originally grounded in pre-Columbian sacred conceptions of the cosmos, time, and place, and now expressed in creative writings. More specifically, she attends to Maya and Zapotec literary and cultural forms by theorizing *kab awil* as an Indigenous philosophy. Tackling the political and literary implications of this work, Chacón argues that Indigenous writers' use of familiar genres alongside Indigenous language, use of oral traditions, and new representations of selfhood and nation all create space for expressions of cultural and political autonomy. Chacón recognizes that Indigenous writers draw from universal literary strategies but nevertheless argues that this literature is a vital center for reflecting on Indigenous ways of knowing and is a key artistic expression of decolonization.

Was Latin America Modern? N. Miller, S. Hart, 2007-04-02 Stemming from an interdisciplinary convention in 2005 at the Institute for the Studies of the Americas in London this collection has a strong thematic integrity but also illustrates the dramatic variety of approaches to the question of modernity This volume fills the gaps in prior literature on Latin America's experience of modernity

The Social Conscience of Latin American Writing Naomi Lindstrom, 2010-01-01 A CHOICE Outstanding Academic Book Literature in Latin America has long been a vehicle for debates over the interpretation of social history cultural identity and artistic independence Indeed Latin American literature has gained international respect for its ability to present social criticism through works of imaginative creation In this comprehensive up to the minute survey of research and opinion by leading Latin American cultural and literary critics Naomi Lindstrom examines five concepts that are currently the focus of intense debate among Latin American writers and thinkers Writing in simple clear terms for both general and specialist readers of Latin American literature she explores the concepts of autonomy and dependency postmodernism literary intellectuals and the mass media testimonial literature and gender issues including gay and lesbian themes Excerpts in English from relevant literary works illustrate each concept while Lindstrom also traces its passage from the social sciences to literature

Consumers and Citizens Néstor García Canclini, 2001-03-20 In *Consumers and Citizens* Nestor Garcia Canclini the best known and most innovative cultural studies scholar in Latin America maps the critical effects of urban sprawl and global media and commodity markets on citizens and shows that the complex results mean not only a shrinkage of certain traditional rights particularly those of the welfare or client state but also new openings for expanding citizenship Garcia Canclini focuses on the diverse ways in which democratic societies recognize markets of citizen opinions however heterogeneous and dissonant as in the fashion and entertainment industries He shows how identity issues brought to the fore by the aligning of citizenship and consumption can no longer be understood strictly within the purview of territory or nation Defining a new space structured along the lines of markets Garcia Canclini seeks to formulate a participatory and critical approach to consumption in which national culture far from being extinguished is reconstituted in transnational cultural interactions
