Translation In Asia Theories Practices Histories:

Translation in Asia Ronit Ricci, Jan van der Putten, 2014-04-08 The field of translation studies was largely formed on the basis of modern Western notions of monolingual nations with print literate societies and monochrome cultures A significant number of societies in Asia and their translation traditions have diverged markedly from this model With their often multilingual populations and maintaining a highly oral orientation in the transmission of cultural knowledge many Asian societies have sustained alternative notions of what text original and translation may mean and have often emphasized performance and change rather than simple copying or transference The contributions in Translation in Asia present exciting new windows into South and Southeast Asian translation traditions and their vast array of shared inter connected and overlapping ideas about and practices of translation transmitted between these two regions over centuries of contact and exchange Drawing on translation traditions rarely acknowledged within translation studies debates including Tagalog Tamil Kannada Malay Hindi Javanese Telugu and Malayalam the essays in this volume engage with myriad interactions of translation and religion colonialism and performance and provide insight into alternative conceptualizations of translation across periods and locales The understanding gained from these diverse perspectives will contribute to complicate and expand the conversations unfolding in an emerging international translation studies Exploring Translation Theories

Anthony Pym, 2023-06-28 Exploring Translation Theories presents a comprehensive analysis of the core contemporary paradigms of Western translation theory This engaging overview covers the key theories of equivalence solution types purpose scientific approaches uncertainty automation and cultural translation Fully revised this third edition adds coverage of Russian and Ukrainian theories examples from Chinese advances in machine translation and research on translators cognitive processes Readers are encouraged to explore the various theories and consider their strengths weaknesses and implications for translation practice The book concludes with a survey of the way translation is used as a model in postmodern cultural studies and sociologies extending its scope beyond traditional Western notions Features in each chapter include An introduction outlining the main points key concepts and illustrative examples Examples drawn from a range of languages although knowledge of no language other than English is assumed Discussion points and suggested classroom activities A chapter summary This comprehensive and engaging book is ideal both for self study and as a textbook for Translation theory courses within Translation Studies Comparative Literature and Applied Linguistics **The Routledge**

Handbook of Translation History Christopher Rundle, 2021-09-30 The Routledge Handbook of Translation History presents the first comprehensive state of the art overview of this multi faceted disciplinary area and serves both as an introduction to carrying out research into translation and interpreting history and as a key point of reference for some of its main theoretical and methodological issues interdisciplinary approaches and research themes The Handbook brings together 30 eminent international scholars from a wide range of disciplinary backgrounds offering examples of the most innovative

research while representing a wide range of approaches themes and cultural contexts The Handbook is divided into four sections the first looks at some key methodological and theoretical approaches the second examines some of the key research areas that have developed an interdisciplinary dialogue with translation history the third looks at translation history from the perspective of specific cultural and religious perspectives and the fourth offers a selection of case studies on some of the key topics to have emerged in translation and interpreting history over the past 20 years This Handbook is an indispensable resource for students and researchers of translation and interpreting history translation theory and related areas **A**

Lasting Vision Yigal Bronner,2023 A Lasting Vision is dedicated to the Mirror of Literature a Sanskrit treatise on poetics composed by Dandin in south India c 700 CE and to its remarkable transcontinental career The Mirror was adapted and translated into many Asian languages and became a classical text and a source of constant engagement and innovation often well into the modern era

Science Among the Ottomans Miri Shefer-Mossensohn,2015-10-15 Scholars have long thought that following the Muslim Golden Age of the medieval era the Ottoman Empire grew culturally and technologically isolated losing interest in innovation and placing the empire on a path toward stagnation and decline Science among the Ottomans challenges this widely accepted Western image of the nineteenth and early twentieth century Ottomans as backward and impoverished In the first book on this topic in English in over sixty years Miri Shefer Mossensohn contends that Ottoman society and culture created a fertile environment that fostered diverse scientific activity She demonstrates that the Ottomans excelled in adapting the inventions of others to their own needs and improving them For example in 1877 the Ottoman Empire boasted the seventh longest electric telegraph system in the world indeed the Ottomans were among the era s most advanced nations with regard to modern communication infrastructure To substantiate her claims about science in the empire Shefer Mossensohn studies patterns of learning state involvement in technological activities and Turkish and Arabic speaking Ottomans who produced consumed and altered scientific practices The results reveal Ottoman participation in science to have been a dynamic force that helped sustain the six hundred year empire
