*Transforming Student Travel* Faye Brenner, 2015-09-16 *Transforming Student Travel* calls for a paradigm shift in the student tour industry educators collaborating to create a student centered inquiry based tour Marcel Proust said The real voyage of discovery consists not in seeking new landscapes but in having new eyes This resource guide explores ways educators can encourage students not only to see with new eyes but also to understand how they know The International

Baccalaureate informs the first part of the book which includes educational research as well as practical suggestions for improving the tour experience including an integration of academic subjects Although much has been written about the impact of international travel this book explores ways educators can transform domestic tours for public and parochial school students The second part of the book offers resource guides for four cities Washington D C New York Philadelphia and Boston Teachers tour directors and tour operators will find discussion questions activities as well as detailed background information for four of the most visited cities by students Many of the questions and strategies can be adapted for other landscapes

The Loom of Time Robert D. Kaplan, 2025-01-14 A stunning exploration of the Greater Middle East where lasting stability has often seemed just out of reach but may hold the key to the shifting world order of the twenty first century Engaging Even those who resist Kaplan s tragic sensibility have much to learn from his look at the emerging Middle East and its recent history National Review FINALIST FOR THE OVERSEAS PRESS CLUB S CORNELIUS RYAN AWARD The Greater Middle East which Robert D Kaplan defines as the vast region between the Mediterranean and China encompassing much of the Arab world parts of northern Africa and Asia existed for millennia as the crossroads of empire Macedonian Roman Persian Mongol Ottoman British Soviet American But with the dissolution of empires in the twentieth century postcolonial states have endeavored to maintain stability in the face of power struggles between factions leadership vacuums and the arbitrary borders drawn by exiting imperial rulers with little regard for geography or political groups on the ground In the Loom of Time Kaplan explores this broad fraught space through reporting and travel writing to reveal deeper truths about the impacts of history on the present and how the requirements of stability over anarchy are often in conflict with the ideals of democratic governance In The Loom of Time Kaplan makes the case for realism as an approach to the Greater Middle East Just as Western attempts at democracy promotion across the Middle East have failed a new form of economic imperialism is emerging today as China s ambitions fall squarely within the region as the key link between Europe and East Asia As in the past the Greater Middle East will be a register of future great power struggles across the globe And like in the past thousands of years of imperial rule will continue to cast a long shadow on politics as it is practiced today To piece together the history of this remarkable place and what it suggests for the future Kaplan weaves together classic texts immersive travel writing and a great variety of voices from every country that all compel the reader to look closely at the realities on the ground and to prioritize these facts over ideals on paper The Loom of Time is a challenging clear eyed book that promises to reframe our vision of the global twenty first century

**Imperium** Ryszard Kapuscinski, 1995-08-08 The Polish journalist whose The Soccer War and The Emperor are counted as classics of contemporary reportage now bears witness in Imperium to the disintegration of the Soviet Union This magisterial book combines childhood memory with unblinking journalism a radar for the truth with a keen appreciation of the absurd Imperium begins with Ryszard Kapuscinski s account of the Soviet occupation of his town in eastern Poland in 1939 It culminates fifty years later with a forty thousand mile journey that takes

him from the haunted corridors of the Kremlin to the abandoned gulag of Kolyma from a miners strike in the arctic circle to a panic stricken bus ride through the war torn Caucasus Out of passivity and paranoia ethnic hatred and religious fanaticism that have riven two generations of Eastern Europeans Kapuscinski has composed a symphony for a collapsing empire a work that translates history into the hopes and sufferings of the human beings condemned to live it **Brill's Companion to the Reception of Herodotus in Antiquity and Beyond** ,2016-01-19 Brill s Companion to the Reception of Herodotus in Antiquity and Beyond offers new insights on the reception and cultural transmission of one of the most controversial and influential texts to have survived from Classical Antiquity Herodotus Histories has been adopted adapted imitated contested admired and criticized across diverse genres historical periods and geographical boundaries This companion edited by Jessica Priestley and Vasiliki Zali examines the reception of Herodotus in a range of cultural contexts from the fifth century BC to the twentieth century AD The essays consider key topics such as Herodotus place in the Western historiographical tradition translation of and scholarly engagement with the Histories and the use of the Histories as a model for describing and interpreting cultural and geographical material *Peace Warriors* Criselda Yabes,2017-12-02 Twenty years after The Boys from the Barracks chronicling the attempted coups in the 1980s Criselda Yabes returned to the military in the field of Muslim Mindanao where the struggle to find peace is taking place to end one of the country s longest running insurgencies Says writer Patricio Abinales This book is as far as I know the first intimate look at everyday life inside military camps Yabes has given us portrait after portrait of soldiers and officers who fight the country s internal wars in all their nobility and their flaws The Role of Criticism in Understanding Problem Solving Samuel Fee,Brian Belland,2012-05-26 In 1991 Denis Hlynka and John Belland released *Paradigms Regained* a well received reader for graduate students in the field of educational technology The Role of Criticism in Understanding Problem Solving updates some of those ideas initially proposed in *Paradigms Regained* and extends the conversation into the contemporary discourse regarding problem based learning PBL *Paradigms* proposed the idea of criticism as a third method for the conduction of educational research the first two being qualitative and qualitative The concept of criticism as a tool for research is not well established in educational technology although it is well established in other educational research traditions such as Curriculum Studies Unfortunately it is not always clear how criticism can be applied This book views criticism as a way to step back and look at an educational intervention within educational technology through a particular critical lens Criticism is viewed as a valuable approach to guiding meta analyses and theoretical studies serving to prevent the proverbial spinning of the wheels that often happens in educational research By indicating new potential research questions and directions criticism approaches can invigorate educational research This book revisits the ideals of criticism in order to establish their usefulness for studying educational technology interventions to support problem based learning First a few foundational chapters set the stage for the conversations on criticism Then the role criticism can play in enhancing analysis and interpretation of the PBL literature is

explored Finally case studies addressing the central concepts of the text are presented and dissected This book represents a complete overhaul and rethinking of the use of criticism as a method for understanding and furthering the research area of PBL within the field of Educational technology

**Europe's Financial Crisis** John Authers, 2012-11-04 Will the Euro survive Where is the European financial crisis headed What will it mean for global and US markets In this short book internationally respected Financial Times journalist John Authers illuminates today's European financial crisis and the massive forces increasingly buffeting world and US economies Authers explains why a strong recovery remains far away why the risk of a disastrous final crisis remains terrifyingly real and how investors can best navigate today's brutally challenging markets The European Financial Crisis reveals why the 2010 2011 market rallies were so fearful and why their underlying assumptions continued Chinese growth bailouts progress towards bank solvency more easy Fed money have proven so tenuous Above all Authers shows how the Eurozone crisis uncovers today's worst unaddressed risk the markets loss of confidence in governments This brief discussion offers insights into underlying flaws in the banking system and the Eurozone's structure that remain unaddressed how cheap money and bailouts have bought time that is rapidly running out and the increasingly frightening signs of perverse synchronization forex equity credit and commodity markets massively moving in tandem He also offers specific recommendations for what policymakers can and must do now to restore the long term health of the global markets
