

Components of a SOAP Note in Occupational Therapy

Here's what goes into a SOAP note for occupational therapy.

Subjective: Gathering the Patient's Statements, Feelings and Perceptions

Here, you'll document the patient's personal experiences, feelings and perceptions about their therapy. It's about understanding the patient's perspective, concerns and how they're coping with challenges.

Objective: Documenting Measurable, Observable Data

This is your factual account of the therapy session. This includes documenting patient activities, their responses to various interventions, and your direct professional observations. It's a record of what was done, seen, and measured—like the patient's ability to perform certain tasks, their physical responses to treatment, and apparent range of motion when performing certain movements.

Assessment: Professional Interpretation of Subjective & Objective Information

Here, you'll examine the information gathered in the Subjective and Objective sections to make a professional judgment. This includes assessing the patient's progress, identifying any challenges or changes in their condition, and evaluating their response to therapy.

Plan: Detailing Future Therapy Plans, Adjustments in Treatment & Setting Goals

The Plan is the forward-looking component of the SOAP note. It outlines your recommendations for future therapy sessions, adjustments in treatment strategies, and sets short- and long-term goals for the patient.

The Occupational Therapist's Workbook for Ensuring Clinical Competence Marie Morreale, Debbie Amini, 2024-06-01. The *Occupational Therapist's Workbook for Ensuring Clinical Competence* is designed to help occupational therapy students and new practitioners demonstrate the practical problem-solving and real-life clinical reasoning skills essential for fieldwork and clinical practice. This user-friendly resource helps the reader apply occupational therapy concepts, improve narrative and pragmatic reasoning skills, and measure attainment of knowledge and skills needed for successful transition to fieldwork and entry-level practice. Inside *The Occupational Therapist's Workbook for Ensuring Clinical Competence*, a wide variety of client conditions, situations, and intervention options are presented for different practice areas. Knowledge and skills are assessed for fundamental aspects of occupational therapy such as professionalism, ethical decision-making, evidence-based practice, evaluation and intervention planning, occupation-based interventions, effective communication, supervision, role delineation, activity analysis, cultural competence, interprofessional collaboration, group process, emerging practice areas, department management, safety, documentation, billing, and reimbursement, and more. Marie Morreale and Debbie Amini have incorporated numerous worksheets, learning activities, and worksheet answers in an easy-to-read format. The variety of assessment methods and learning activities used throughout the text stem from the authors' combined decades of teaching experience and include case studies, vignettes, multiple-choice, matching, and true/false questions, fill-in-the-blanks, experiential activities, and more. Topics are broken down into smaller units and explained step-by-step to allow for easy independent study. Thoroughly explained answers are provided so that readers can check their responses with suggested best practice. These worksheets and learning activities are also useful as role-playing exercises, studying in small groups, and can aid in preparing for fieldwork or the national certification exam. Included with the text are online supplemental materials for faculty use in the
