

A photograph of a wooden bridge with a lattice railing, spanning a small stream in a lush, green forest. The bridge is made of light-colored wood and has a series of vertical posts connected by diagonal slats. The stream is calm, reflecting the surrounding trees and the bridge. The forest is dense with green foliage, and the lighting suggests a sunny day with dappled sunlight on the water and the bridge.

Current Index to Journals in Education ,1996 **Resources in Education** ,1988 **Occupational Therapy in Secondary Transition** Latoya Harvey,2020 The transition process for young adults is an engaging moment where most individuals assume an active role During this time in life students begin to think about what occupations they envision themselves engaged in beyond high school Students begin to seek employment responsibilities or further educational opportunities Most individuals navigate through the transition process with little to no challenges however for adolescents with disabilities the process can present many obstacles The Individuals with Disabilities Act IDEA of 2004 governs the transition to practice for individuals with disabilities Adolescents with disabilities require opportunities to build skills necessary for succesful transition Transition includes special education services that positively influence the learning experience such as occupational therapy Occupational therapists have the understanding and education to maximize the capacity of school system practices pertinent to secondary transition however studies have indicated that occupational therapists are not as visible as could be to the overall transition experience School based and community occupational therapy practitioners can provide a significant contribution to the transition team This capstone case report seeks to provide insight into occupational therapy s position in transition services

The Transition to Adulthood of Youth with Disabilities David Vandergoot,1988 Growing Up Daniel E. Steere,Ernest David Rose,Domenico Cavaiuolo,2007 Through case studies and clearly presented content this book helps readers learn what they can do to assist students with disabilities in achieving positive adult outcomes Professionals students of special education and families of students with disabilities will all benefit from this comprehensive introduction to transition services This book provides a comprehensive and clear introduction to effective transition services for students with disabilities who are leaving the special education system The Prologue and Chapter 1 provide an overview of the topic of transition services and the remaining chapters go into detail about specific aspects of the transition planning process The central roles of students with disabilities and their families are emphasized Case studies of two individuals one with mild disabilities and one with severe disabilities are followed throughout the text to

illustrate effective practices ensuring readers are able to apply the content to students with different types and severity of disabilities and are able to understand how practices can be tailored to meet individual student needs The content is presented so that readers can apply key strategies immediately in their work as teachers or in other professional capacities Research Summaries in each chapter address the research basis for effective practices that are discussed throughout the book Spotlight on History in most chapters provides a short biography on an individual who made a significant contribution to the development of transition services Additional resources and websites are included at the end of each chapter

Transition by Design Audrey A. Trainor, 2017 Transitions to adulthood for adolescents with disabilities are as diverse as the adolescents themselves While there have been marked improvements for students with disabilities there is still concern that employment education and independent living outcomes are not equitable across groups of students For example adolescents of color are more likely to face exclusionary discipline procedures in school resulting in detention and court involvement which in turn can limit access to educational opportunities in inclusive settings Recommending a shift toward strengths based approaches to research and practice Trainor explores how all stakeholders including researchers and practitioners can help shape equitable opportunities for youth with disabilities in transition *Transition by Design* reframes disability diversity and equity during the transition from high school to adulthood Audrey Trainor offers an excellent treatise on transition research and practice as cultural acts that lead to differential outcomes for youth with disabilities particularly for those from historically marginalized groups Each of us must heed her call to examine how our personal and professional cultures influence our work and contribute to equity or inequity in programs and services for these populations Alba A Ortiz professor emerita The University of Texas at Austin With passion and precision Trainor calls us to see the work of transition education through new and broader lenses Her remarkable book pushes the field to pursue equity and ensure every young person with a disability can flourish Erik Carter professor Vanderbilt University
