Transformation Of Evil And The Subterranean Spheres Of The Earth:

The Transformation of Evil Sigismund von Gleich, 2005 Written in the years right after World War II this brief book offers a powerful meditation on evil and its eventual transformation Focusing on the realm of subnature or the subterranean spheres von Gleich shows how the various layers of the Earth's interior are linked directly to the mystery of evil The author begins by summarizing the classical image of the underworld of Greek mythology He then describes the various qualities of the Earth's nine layers as elucidated by Rudolf Steiner Finally he outlines the counter impulses the forces of good that work in opposition to the nine currents of evil harbored within the Earth Although written more than fifty years ago von Gleich's thoughts are more relevant than ever today when humanity is surrounded by war violence starvation greed and the phenomena of increasingly obtrusive technology In a newly written introduction Paul V O Leary places von Gleich's work within the context of today's world
