Translating Poetic Discourse Translating Poetic Discourse:

Translating Poetic Discourse Myriam Díaz-Diocaretz, 1985-01-01 Translating Poetic Discourse argues in favor of a critical model that bridges between translation and women's studies on theoretical and practical levels. It proposes key elements to be integrated into the problem of interpretation of contemporary poetry by women and discusses the links between gender markers and the speech situation in feminist discourse as a systematic problem. This book will be of interest to scholars of Translation Studies, Women's Studies, Poetry, Comparative Literature and Discourse. **Translating Poetic Discourse** Myriam Díaz-Diocaretz, 1985-01-01 Translating Poetic Discourse argues in favor of a critical model that bridges between translation and women's studies on theoretical and practical levels. It proposes key elements to be integrated into the problem of interpretation of contemporary poetry by women and discusses the links between gender markers and the speech situation in feminist discourse as a systematic problem. This book will be of interest to scholars of Translation Studies, Women's Studies, Poetry, Comparative Literature and Discourse. *From World To World: An Armamentarium* Cees Koster, 2021-11-15 In this book one of the old traditions of translation studies is revived: the tradition of the comparative study of translation and original. The aim of the author is to develop an armamentarium: a set of analytical instruments and a procedure for the systematic study of poetic discourse in translation. The armamentarium provides the means to describe the translational interpretation that is the interpretation of the original as it emerges from the translation and may be constructed in the course of a comparison between the two texts. The practical result of this study is based on a solid theoretical foundation. This study most of all reflects on the possibilities of translation comparison and description per se. It is one of the few books in which an in-depth study is undertaken into the principles of translation comparison itself into its limits and possibilities and into its central concepts: shift, unit of comparison, etcetera. Before presenting his own proposal for a comparative procedure, the author critically evaluates several existing methods, particularly those of Toury, Van Leuven, Zwart, and the German transfer-oriented approach. The theoretical considerations in this book are amply illustrated by analyses of translated works of poets as Rutger Kopland and Robert Lowell. The book also contains an extensive case study into the translations by the German poet Paul Celan of a selection of William Shakespeare's sonnets. Translating Women Luise von Flotow, 2011-03-08 Feminist theory has been widely translated, influencing the humanities and social sciences in many languages and cultures. However, these theories have not made as much of an impact on the discipline that made their dissemination possible. Many translators and translation scholars still remain unaware of the practices, purposes, and possibilities of gender in translation. Translating Women revives the exploration of gender in translation begun in the 1990s by Susanne de Lotbinière Harwood's *Rebelle et infidèle: The Body Bilingual* (1992), Sherry Simon's *Gender in Translation* (1996), and Luise von Flotow's *Translation and Gender* (1997). Translating Women complements those seminal texts by providing a wide variety of examples of how feminist theory can inform the study and practice of translation. Looking at such diverse

topics as North American chick lit and medieval Arabic Translating Women explores women in translation in many contexts whether they are women translators women authors or women characters Together the contributors show that feminist theory can apply to translation in many new and unexplored ways and that it deserves the full attention of the discipline that helped it become internationally influential [From Mimetic Translation to Artistic Transduction](#) Dinda Gorré, 2023-10-03

Roman Jakobson gave a literary translation of the double words and concepts of poetical hyper translation Language can transmit verbal translation to explore new ways of thinking about music and other arts Thomas A Sebeok deconstructed the energy of translation into the duplicated genres of artistic transduction In semiotics transduction is a technical expression involving music theater and other arts Jakobson used Saussure's theory to give a single meaning in a different art but with other words and sounds later followed by Peirce's dynamic energy with a floating sensation of the double meaning of words and concepts For semiotician Peirce literary translation becomes the graphical vision of ellipsis parabole and hyperbole Ellipsis is illustrated by Virginia Woolf's novel *The Waves* to give a political transformation of Wagner's opera *Das Rheingold* Parabole is illustrated by the two lines of thought of Hector Berlioz He neglected his own translation of Virgil's *Aeneid* when he retranslated the vocal text to accompany the musical lyrics of his opera *The Trojans* Hyperbole is demonstrated by Bertold Brecht's auto translation of Gay's *The Beggar's Opera* In the cabaret theater of *The Three penny Opera* Brecht recreated his epic hyper translation by retranslating the language of the folk speech of the German working classes with the jargon of criminal slang

[The Oxford Guide to Literature in English Translation](#) Peter France, 2000 This guide highlights the place of translation in our culture encouraging awareness of the process of translating and the choices involved making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Hungarian Korean to Turkish For some works e.g. Virgil's *Aeneid* which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available

[The Strange Loops of Translation](#) Douglas Robinson, 2021-12-16 One of the most exciting theories to emerge from cognitive science research over the past few decades has been Douglas Hofstadter's notion of strange loops from G del Escher Bach 1979 Hofstadter is also an active literary translator who has written about translation perhaps most notably in

his 1997 book *Le Ton Beau de Marot* where he draws on his cognitive science research And yet he has never considered the possibility that translation might itself be a strange loop In this book Douglas Robinson puts Hofstadter's strange loops theory into dialogue with a series of definitive theories of translation in the process showing just how cognitively and affectively complex an activity translation actually is Transgender, Translation, Translingual Address Douglas Robinson, 2019-01-24 Finalist for the 2020 Prose Awards Language and Linguistics Category The emergence of transgender communities into the public eye over the past few decades has brought some new understanding but also renewed outbreaks of violent backlash In *Transgender Translation Translingual Address* Douglas Robinson seeks to understand the translational or translingual dialogues between cisgendered and transgendered people Drawing on a wide range of LGBT scholars philosophers sociologists sexologists and literary voices Robinson sets up cis trans dialogues on such issues as being born in the wrong body binary vs anti binary sex gender identities and the nature of transition and transformation Prominent voices in the book include Kate Bornstein C Jacob Hale and Sassafra Lowrey The theory of translation mobilized in the book is not the traditional equivalence based one but Callon and Latour's sociology of translation as speaking for someone else which grounds the study of translation in social pressures to conform to group norms In addition however Robinson translates a series of passages from Finnish trans novels into English and explores the translingual address that emerges when those English translations are put into dialogue with cis and trans scholars

Translation Said M. Shiyab, 2017 This book introduces students to the theory and practice of translation It also examines issues that are often debated such as the concept of meaning translation as an art or science fallacies of translation and translation rules and ethics Chapters in this book can be used to teach any course introducing students to the field of translation One of the distinguishing features is that there is a set of questions found at the end of each chapter that tests the student's knowledge of the information covered In addition some relevant texts are provided for students to translate into the target language something that is hardly ever found in textbooks on translation In addition the book introduces legal and scientific translation and offers real life examples that have been carefully selected for classroom practice Series ATI Academic Publications Vol 8 Subject Translation Linguistics Literary Studies

A Critical Introduction to Translation Studies Jean Boase-Beier, 2011-04-07 Jean Boase-Beier's *Critical Introduction To Translation Studies* demonstrates a keen understanding of theoretical and practical translation It looks to instances where translation might not be straightforward where stylistics play an important role Examples are discussed from works of literature advertisements journalism and others where effects on the reader are central to the text and are reflected in the style It begins by setting out some of the basic problems and issues that arise in the study of translation such as the difference between literary and non literary translation the role of language content and style the question of universals and specifics in language and the notion of context The book then goes on to focus more closely on style and how it enables us to characterise literary texts and literary translation The final part looks at the

translation of poetry Throughout it is conscious of the relationship between theory and practice in translation This book offers a new approach to translation grounded in stylistics and it will be an invaluable resource for undergraduates and postgraduates approaching translation studies

Bridging the Gap between Theory and Practice in Translation and Gender Studies Vanessa Leonardi, 2013-11-13 The aim of this work is to share information on two very interesting yet debatable issues within the field of Translation Studies namely gender and translation in an attempt to bridge the gap between theory and practice Given the important relationship between translation and gender since the beginning of the theoretical debate in Feminist Translation Studies the aim of this edited volume is to determine and analyse how this relationship has been approached in different countries not only in Europe but also worldwide Feminist translation is undoubtedly a very interesting and widespread phenomenon which includes and combines questions of language culture gender identity and sexual equality Feminist Translation Studies has established itself as a solid field of research and practice in many countries and its purpose is to reverse the subordinate role of both women and translators in society by challenging and fighting against what is perceived as patriarchal language There are still numerous issues that can be taken into account when focusing on translation and gender and this volume intends to be part of a wider discussion on Translation Studies The volume intends to outline how scholars in various contexts have approached the question of gender and translation the use misuse of the term feminist translation the problematic issue of bridging the gap between theory and practice and to open a new discussion on this field of research which we believe is still a very interesting one to exploit

A Journey in Translation Lee Skallerup Bessette, 2016-08-03 This book traces the remarkable journey of H bert s shifting authorial identity as versions of her work traveled through complex and contested linguistic and national terrain from the

late 1950s until today At the center of this exploration of H bert s work are the people who were inspired by her poetry to translate and more widely disseminate her poems to a wider audience Exactly how did this one woman s work travel so much farther than the vast majority of Qu b cois authors Though the haunting quality of her art partly explains her wide appeal her work would have never traveled so far without the effort of scores of passionately committed translators editors and archivists Though the work of such middle men is seldom recognized much less scrutinized as a factor in shaping the meaning and reach of an artist in Herbert s case the process of translating H bert s poetry has left in its wake a number of archival and other paratextual resources that chronicle the individual acts of translation and their reception Though the impact of translation editions and archival work has been largely ignored in studies of Canadian literary history the treasure trove of such paratextual records in H bert s case allows us to better understand the reach of her work More importantly it provides insight into and raises critical questions about the textually mediated process of nation building and literary canon formation
