Hands-On Algebra! Frances McBroom Thompson, Ed.D., 1998-06-08 Lay a solid foundation of algebra proficiency with over 155 hands-on games and activities. To complement the natural process of learning, each activity builds on the previous one, from concrete to pictorial to abstract. Dr. Thompson's unique three-step approach encourages students to first recognize patterns, then use diagrams, tables, and graphs to illustrate algebraic concepts, and finally apply what they've learned through cooperative games, puzzles, problems, and activities using a graphic calculator and computer.
