The Genesis and Transformation of Social Consciousness Yang Chen,2024-03-22 This book focuses on the formation of human social consciousness and develops a naturalist approach to social normativity Beginning from Marx s uncompleted concept of social consciousness the book retrospects the studies about collective intentionality in the area of philosophy of mind and social ontology Specifically a reinterpretation of social consciousness with respect to collective intentionality can offer us a new naturalistic approach to the social formation and normativity According to the naturalistic approach we can discern the inner structure of social consciousness as a systematic pattern of Intentionality Social consciousness involves

three levels of development subjective objective and absolute With this new pattern of social consciousness the naturalism of the young Karl Marx can be revived And by grasping the most essential ability of human Intentionality as the source of social formation it also makes an interdisciplinary study of social philosophy and philosophy of mind possible **Catalog of**
