Gendered Voices H.B. Holmarsdottir, V. Nomlomo, A.I. Farag, Z. Desai, 2013-02-11 Internationally there is growing awareness that the target of Education for All by 2015 will not be met unless more strident efforts are made to improve access for marginalized hard to reach children most often girls For almost four decades gender equality in education has been one of the key global concerns and as a result various organizations at national and international levels along with governments have initiated programs focusing on achieving gender equality women s empowerment and improving girls access to education By focusing on access alone i e gender parity we may not understand how education can be used to achieve empowerment and influence cultural practices that are gender insensitive In this volume we attempt to call into question the content of gender equality as simple parity and in doing so we reflect upon the following questions Do the global macro discourses on gender equality in education lead to a focus on numbers only or to more profound sustainable changes at the national meso level and the school micro level To what extent have national policies been adjusted to reflect the global discourses on gender equality Are schools classrooms micro expected to adjust to these global discourses and if so in what ways has this happened What are the challenges of providing access to good quality education for girls in both countries Is there a dichotomy between the schools classrooms on the one hand and the community on the other in terms of gender equality equity To what extent is gender equality equity imposed upon schools and communities and does it take into account the cultural practices in traditional communities Key words Gender equality education Global vs local concerns 3 selling

points The volume highlights that although research has shown how global educational policies homogenize national educational policies and are therefore playing what can be termed a neo colonial role in identifying pivotal themes and topics in education across the world such as gender equality literacy and quality education in local contexts they are often steeped in a Western logic which is not always culturally relevant or conducive Making global recommendations for education across cultures and places is thus not always unproblematic The volume highlights that a push for girls schooling must navigate wisely in sensitive terrain where complex contextual aspects must be understood and taken into account Girls attendance and retention in school are important first steps in the struggle for epistemic access but must be followed by serious deliberations about what kind of school and what kind of knowledge in the schools is appropriate and about equality and equity The volume attempts to understand how the global gender goals in education affect both local policies and local practice and in doing so it attempts to question the simple focus on access only

Calling for Justice Throughout the World Mary Jo Iozzio, Elsie M. Miranda, Mary M. Doyle Roche, 2009-01-01 It is common knowledge that in developing countries Africa India Southeast Asia Africa Latin America the burden of HIV AIDS falls disproportionately on women who are generally the victims of male carriers of the disease In this book Roman Catholic women theologians from all over the world will discuss the pandemic in terms of their particular geographical and social location The model for the volume is Continuum's Catholic Ethicists on HIV AIDS Prevention 2000 edited by James Keenan SJ The occasion or impetus for the volume was the First International Crosscultural Conference for Catholic Theological Ethicists single handedly created by James Keenan he raised 3.4 million dollars and held at Padua July 2006 The plenary sessions will be published by Continuum under the title Catholic Theological Ethics in the World Church The mentors for the volume will be James Keenan editor Iozzio's Doktorvater and Margaret Farley America's leading Catholic feminist theological ethicist 19 Dec review of Just Love in America Farley's advocacy both in the US and Africa on the issue of women and AIDS is renowned and she will be the best known contributor The leading contributor from English speaking Europe is Linda Hogan from Trinity College Dublin

Routledge Handbook of Global Health Security Simon Rushton, Jeremy Youde, 2014-08-07 This new Handbook presents an overview of cutting edge research in the growing field of global health security Over the past decade the study of global health and its interconnection with security has become a prominent and rapidly growing field of research Ongoing debates question whether health and security should be linked which if any health issues should be treated as security threats what should be done to address health security threats and the positive and negative consequences of securitizing health In academic and policy terms the health security field is a timely and dynamic one and this handbook will be the first work comprehensively to address this agenda Bringing together the leading experts and commentators on health security issues from across the world the volume comprises original and cutting edge essays addressing the key issues in the field and also highlighting currently neglected avenues for future research The book intends to provide an accessible yet sophisticated introduction to the key topics and

debates and is organised into four key parts Health Securities the fundamental conceptual issues historical links between health and security and the various ways of conceptualising health as a security issue Threats those health issues which have been most frequently discussed in security terms Responses the wide range of contemporary security driven responses to health threats Controversies the securitization of health its impact on rights and justice and the potential distortion of the global health agenda This book will be of great interest to students of global health security public health critical security studies and International Relations in general *Community Psychology* Anthony Naidoo, Jace Pillay, Brett Bowman, 2007 Book CD *Community Psychology* contains a rich diversity of insights and critical debates on the key theoretical analytic teaching learning and action approaches in community psychology The book offers an incisive examination of a range of contextual factors that influence the practice of community psychology in South Africa **Breaking the Silence** Ellen Grünkemeier, 2013 South Africa is one of the countries in the world most affected by HIV AIDS and yet until recently the epidemic was barely visible in South African literature Much can be gained from approaching the South African epidemic through creative texts such as novels photographs films cartoons and murals because they produce and circulate meanings of HIV AIDS and its various facets such as its origin transmission routes and physical manifestations Other aspects explored are the denial of HIV AIDS its stigmatisation discriminatory practices modes of disclosure access to anti retroviral medication as well as the role of alternative treatment Creative texts which are open to different and possibly contradictory readings can serve as a starting point to increase the cultural visibility of the virus and to challenge dominant ideas about the epidemic The cultural constructions of HIV AIDS should be carefully examined because the meanings are pervasive and have very real consequences they play a powerful role both in determining which issues receive attention and in shaping public understanding of the virus *Africa 2024-2025* Lawrence R. Sullivan, 2024-09-03 The World Today Series Africa provides students with vital information on all countries on the African continent through a thorough and expert overview of political and economic histories current events and emerging trends Each country is examined through the following sections Basic Facts Land and People The Past Political and Economic History The Present Contemporary Issues and The Future In addition to country chapters the book features extended essays on Africa's Historical Background and the Colonial Period The combination of factual accuracy and up to date detail along with its informed projections make this an outstanding resource for researchers practitioners in international development media professionals government officials potential investors and students The content is thorough yet perfect for a one semester introductory course or general library reference Available in both print and e book formats and priced low to fit student and library budgets **Men at Risk** Shari L. Dworkin, 2015-12-04 Presents a unique approach to HIV prevention at the intersection of sociological and public health research Although the first AIDS cases were attributed to men having sex with men over 70% of HIV infections worldwide are now estimated to occur through sex between women and men In *Men at Risk* Shari L Dworkin argues that the centrality

of heterosexual relationship dynamics to the transmission of HIV means that both women and men need to be taken into account in gender specific HIV AIDS prevention interventions She looks at the costs of masculinity that shape men s HIV risks such as their initiation of sex and their increased status from sex with multiple partners Engaging with the common paradigm in HIV research that portrays only women and not heterosexually active men as being vulnerable to HIV Dworkin examines the gaps in public health knowledge that result in substandard treatment for HIV transmission and infection among heterosexual men both domestically and globally She examines a vast array of structural factors that shape men s HIV transmission risks and also focuses on a relatively new category of global health programs with men known as gender transformative that seeks to move men in the direction of gender equality in the name of improved health Dworkin makes suggestions for the next generation of gender transformative health interventions by calling for masculinities based and structurally driven HIV prevention programming Thoroughly researched and theoretically grounded Men at Risk presents a unique approach to HIV prevention at the intersection of sociological and public health research
