Yourself Happy Julia Bradbury, 2023-09-14 THE SUNDAY TIMES BESTSELLER It's hard not to be persuaded by Bradbury's enthusiasm and positivity THE TIMES Join Julia Bradbury as she leads you through the walk of our lifetimes There's a lot of talk about how we all must connect more with nature But what does that mean How do you do it And what does it do for you in return Can something as simple as going for a walk really improve your life The simple answer is YES Walk Yourself Happy will explain the elemental link between our own health both physical and mental and the natural world Julia knows first hand the profound impact of nature it has helped her survive breast cancer overcome infertility and continue through failed IVF treatments it balances the soul and acts as a confidante and therapist Through science backed information practical tips and Julia's own story Walk Yourself Happy will explore how nature can soothe anxiety and stress how a mountain or a tree can keep you company in times of grief and the importance of building nature into your everyday life so you eat well sleep better and move more Walking one of the most accessible activities for most of us is the fastest and easiest way to embed yourself in nature You don't need expertise or equipment you just need to put one foot in front of another You don't need an epic landscape either you can walk down the street or in your local green space Though as you will learn from this book a walk in the park is rarely just that We all have shocks and surprises that stop us in our tracks make us question who we are and why we are here In walking we have the power to change our pace And when we do that we can find union with nature camaraderie with friends and a form of intimacy with self We can walk ourselves happy and we can walk ourselves healthy and we can rekindle the innate bonds all but extinguished by modern living that we have always had to our natural environment We can start today
