*What Happens When We Practice Religion?* Robert Wuthnow, 2020-05-19 He favors the use of a broad range of analytic tools drawn from multiple disciplines and approaches to the study of religion The five chapters of this book describe the central concepts and arguments now advancing the study of religious practice Chapter 1 entitled Theories discusses the theoretical contributions associated with the aforementioned shift in religious studies to the investigation of religious practice Chapter 2 Situations discusses how religious activities and experiences are shaped by the physical and temporal spaces in which social action occurs Chapter 3 Intentions takes on an important topic that has proven difficult to study from a social science perspective Feelings are the focus of Chapter 4 and the role of Bodies is addressed in Chapter 5 **The Fatal Breath** David Vincent, 2023-09-11 The Fatal Breath is the first full scale history of the Covid 19 pandemic in Britain Deploying a rich archive of personal testimonies together with a wide range of research reports and official data it presents a moving and challenging account of the crisis that enveloped Britain and the world in the spring of 2020 With sensitivity care and an historian s critical eye David Vincent places the pandemic in context While much contemporary commentary has assumed people were forced to develop entirely new ways of living and working during lockdown Vincent reveals how the population was able to draw upon a wealth of resources and coping strategies already seen over the centuries often reacting far more quickly and effectively than slow moving authorities He tells the stories of doctors and nurses time on the frontlines reveals the true extent of supply shortages conspiracy theories and vaccine resistance and explores individuals newfound appreciation of nature and community in lockdown The Fatal Breath will appeal to anyone seeking to reflect on the past few years and how the pandemic has changed Britain for better and for worse Sensing Changes Joy Parr, 2010-07-01 Our bodies are archives of sensory knowledge that shape how we understand the world But if global environmental changes continue at their present unsettling pace how will we make sense of time and place when the air land and water around us are no longer familiar Joy Parr one of Canada s premier historians tackles this question by exploring situations in the recent past when state driven megaprojects such as chemical plants dams nuclear reactors transportation corridors and new regulatory regimes forced people to cope with radical transformations in their work and home environments In each case the

familiar was transformed so thoroughly that residents no longer recognized where they lived or by implication who they were. Sensing Changes and its associated website <http://megaprojects.uwo.ca> make a key contribution to environmental history and the emerging field of sensory history. This study offers a timely prescient perspective on how humans make sense of the world in the face of rapid environmental change.

*Following Norberg-Schulz* Anna Ulrikke Andersen, 2021-12-16

This book examines the window in the life and work of the seminal architectural thinker Christian Norberg Schulz 1926-2000. It draws new attention to his architectural designs and re-examines his acclaimed theoretical work on the phenomenology of architecture and place within the context of a biography of his life, linking him with other historical figures such as Helen Keller and Rainer Maria Rilke and framing him within the modernist tradition of the latter. Taking a novel experimental approach, the book also explores the potential of the essay film as an innovative new approach to producing architectural history. Bridging archival research and artistic exploration, its ten chapters, written by an architectural historian who is also a film maker, are each accompanied by a short documentary film hosted online and linked from within the chapter, which use the medium of film to creatively explore and delve deeper into little-known aspects of Norberg Schulz's theory of *genius loci* and the phenomenology of architecture. The book questions what it means to follow those who came before, exploring the positionality of the architectural historian/filmmaker. Offering an insightful account of the life, work, and theory of a key thinker, *Following Norberg Schulz* is also essential reading for those interested in practice-led research methodologies, particularly in the practice of film making and the essay film, providing a highly innovative example of scholarly research which bridges the text/film gap.
