The Encyclopedia of Christianity, Vol. 5 Erwin Fahlbusch,Geoffrey William Bromiley,1999 Written by leading scholars from around the world the articles in this volume range from sin Sufism and terrorism to theology in the 19th and 20th centuries Vatican I and II and the virgin birth The Church and Humanity Andrew Chandler,2016-03-16 George Bell remains one of only a handful of twentieth century English bishops to possess a continuing international reputation for his involvement in political affairs His insistence that Christian faith required active participation in public life at home and abroad established an eminent and often provocative contribution to Christian ethics at large Bell s participation in the tragic history of the German resistance against Hitler has earned him an enduring place in the historiography of the Third Reich his February 1944 speech protesting against the obliteration bombing of Germany made in the House of Lords is still often considered one of the great prophetic speeches of the twentieth century Throughout his long career Bell became a leading light in the burgeoning ecumenical movement a supporter of refugees from dictatorships of all kinds a committed internationalist and a patron of the Arts This book draws together the work of leading international historians and theologians including Rowan Williams and makes an important contribution to a range of ongoing political ecumenical and

the changes of Christianity and discusses how interreligious hermeneutics might inform missiology as well as Christian theologies of religions and how this might challenge our understanding of the church's nature and mission. In conclusion, it is argued that a global polycentric Christianity can be interpreted as fellowship created by the Spirit and centred on Christ.
