important insights and ideas based on a three year pilot project involving Faith Community Nurses Conducted in five Central Florida churches the pilot sought to help congregations establish or grow an existing health ministry team The work was accomplished through a partnership between Florida Hospital and the Winter Park Health Foundation In these pages you ll discover the project goals the methodology and processes used and how others can take what was learned and do something similar or better The project described in this report was one among many of Florida Hospital s ongoing efforts to help people understand how practicing the fundamentals of whole person health aids in the prevention of disease and in recovery following an illness I believe the authors have done a remarkable job of demonstrating how hospitals churches and Faith Community Nurses can positively affect the health of entire communities playing a part in transforming our healthcare crisis into a health caring opportunity
