Walking Cities Quotidian Mobility Landscape:

Walking in Cities Evrick Brown, Timothy Shortell, 2016 Walking connects the rhythms of urban life to the configuration of urban spaces As the contributors and editors show in *Walking in Cities* walking also reflects the systematic inequalities that order contemporary urban life Walking has different meanings because it can be a way of temporarily taking possession of urban space or it can make the relatively powerless more vulnerable to crime The essays in *Walking in Cities* explore how walking intersects with sociological dimensions such as gender race and ethnicity social class and power Various chapters explore the flâneuse or female urban drifter in Tehran s shopping malls Hispanic neighborhoods in New York San Diego and El Paso and the intra neighborhood and inter class dynamics of gentrification in Greenpoint Brooklyn The essays in *Walking in Cities* provide important lessons about urban life

Walking in the European City Timothy Shortell, Evrick Brown, 2016-02-24 Sociologists have long noted that dynamism is an essential part of the urban way of life However walking as a significant social activity and crucial research method in spite of its ubiquity as part of urban life has often been overlooked This volume considers walking in the city from a variety of perspectives in a variety of places and with a variety of methods to engage with the question of how walking can contribute to the sociological imagination and reveal sociological knowledge Bringing together new research on sites across Europe *Walking in the European City* addresses the nature of everyday mobility in contemporary urban settings shedding light not only on the ways in which walking relates to other social institutions and practices but also as a method for studying urban life With attention to intersections of race and ethnicity gender and class as well as the manner in which processes of gentrification transform urban space this book examines questions of access to public places exploring the ways in which urban dwellers use of and relation to neighbourhood spaces are shaped by inequalities of status and power As such it will appeal to scholars of sociology geography and anthropology with interests in urban studies mobility and research methods

Everyday Globalization Timothy Shortell, 2016-03-10 *Everyday Globalization* is a micro sociological study of immigrant neighborhoods in Brooklyn and Paris Global flows of people bring together cultural practices from distant places and urban dwellers in global cities interpret the signs of collective identity in ascribing particular places as immigrant neighborhoods This book examines the spatial semiotics of identity in urban public space that make this possible Unlike other studies of globalization and cities this work brings together research on the social psychology of groups linguistic landscapes and quotidian mobility to explain how urban dwellers encounter cultural differences Signs of social identity are always interpreted in the context of group boundaries and the appropriation of public space The breadth of this analysis contributes to the literature in human geography on the meaningfulness of places This book will also be of interest to scholars and students in visual sociology In addition this research demonstrates an innovative method for studying everyday urban experience

Preserving the Vanishing City Stephanie Ryberg-Webster, 2023-04-14 Chronicles the rise of historic preservation as a field of advocacy and practice in Cleveland

during the 1970s and early 1980s comprehensively documenting the history of preservation within the context of one city's urban decline

Communities and Crime Pamela Wilcox, Francis T. Cullen, Ben Feldmeyer, 2018 This book provides an intellectual history that traces how varying images of community have evolved over time and influenced criminological thinking and criminal justice policy The authors outline the major ideas that have shaped the development of theory research and policy in the area of communities and crime Each chapter examines the problem of the community through a defining critical or theoretical lens the community as social disorganization as a system of associations as a symptom of larger structural forces as a result of criminal subcultures as a broken window as crime opportunity and as a site of resilience Focusing on these changing images of community the empirical adequacy of these images and how they have resulted in concrete programs to reduce crime this book theorizes about and reflects upon why some neighborhoods produce so much crime The result is a tour of the dominant theories of place in social science today

The Death and Life of the Single-Family House Nathanael Lauster, 2016-11-02 Vancouver today is recognized as one of the most livable cities in the world as well as an international model for sustainability and urbanism Single family homes in this city are a dying breed Most people live in the various low rise and high rise urban alternatives throughout the metropolitan area The Death and Life of the Single Family House explains how residents in Vancouver attempt to make themselves at home without a house Local sociologist Nathanael Lauster has painstakingly studied the city's dramatic transformation to curb sprawl He tracks the history of housing and interviews residents about the cultural importance of the house as well as the urban problems it once appeared to solve Although Vancouver's built environment is unique Lauster argues that it was never predestined by geography or demography Instead regulatory transformations enabled the city to renovate build over and build around the house Moreover he insists there are lessons here for the rest of North America We can start building our cities differently and without sacrificing their livability

The Politics of Staying Put Carolyn Gallaher, 2016-03-15 When cities gentrify it can be hard for working class and low income residents to stay put Rising rents and property taxes make buildings unaffordable or landlords may sell buildings to investors interested in redeveloping them into luxury condos In her engaging study The Politics of Staying Put Carolyn Gallaher focuses on a formal city sponsored initiative The Tenant Opportunity to Purchase Act TOPA that helps people keep their homes This law unique to the District of Columbia allows tenants in apartment buildings contracted for sale the right to refuse the sale and purchase the building instead In the hands of tenants a process that would usually hurt them conversion to a condominium or cooperative can instead help them Taking a broad city wide assessment of TOPA Gallaher follows seven buildings through the program's process She measures the law's level of success and its constraints Her findings have relevance for debates in urban affairs about condo conversion urban local autonomy and displacement

Believing in Cleveland J. Mark Souther, 2017-11-03 Detractors have called it The Mistake on the Lake It was once America's Comeback City According to author J Mark Souther Cleveland has long sought to defeat its perceived civic

malaise Believing in Cleveland chronicles how city leaders used imagery and rhetoric to combat and at times accommodate urban and economic decline Souther explores Cleveland's downtown revitalization efforts its neighborhood renewal and restoration projects and its fight against deindustrialization He shows how the city reshaped its image when it was bolstered by sports team victories But Cleveland was not always on the upswing Souther places the city's history in the postwar context when the city and metropolitan area were divided by uneven growth In the 1970s the city suburb division was wider than ever Believing in Cleveland recounts the long difficult history of a city that entered the postwar period as America's sixth largest then lost ground during a period of robust national growth But rather than tell a tale of decline Souther provides a fascinating story of resilience for what some folks called The Best Location in the Nation

A Nice Place to Visit Aaron Cowan, 2016-04-29 How did tourism gain a central role in the postwar American Rustbelt city And how did tourism development reshape the meaning and function of these cities These are the questions at the heart of Aaron Cowan's groundbreaking book A Nice Place to Visit Cowan provides an insightful comparative look at the historical development of Cincinnati St Louis Pittsburgh and Baltimore in the post World War II period to show how urban tourism provided a potential solution to the economic woes of deindustrialization A Nice Place to Visit chronicles the visions of urban leaders who planned hotels convention centers stadiums and festival marketplaces to remake these cities as tourist destinations Cowan also addresses the ever present tensions between tourist development and the needs and demands of residents in urban communities A Nice Place to Visit charts how these Rustbelt cities adapted to urban decline and struggled to meet the challenge of becoming an appealing place to visit as well as good and just communities in which to live

Sinking Chicago Harold L Platt, 2018-03-30 The dry years Introduction cities sprawl and climate change The triumph of metropolitanism 1885 1910 The defeat of conservationism 1910 1920 The rise and fall of the American dream 1920 1945 The wet years The boom of suburban growth 1945 1965 The bust of urban decline 1965 1985 The rebirth of urban nature 1985 2011 Conclusion cities adaptation and prairie wetlands
