Dysfunctionalism and the Origin of Codependency Addiction Emotional Violence, Repression, Manipulation, Deception,
Alienation, Self-Degeneration, and Separation-Learned in Childhood and Weaved-In Adulthood Marteaux X Ph.D., 2020-04-23
CODEPENDENCY BOOK BACKCOVER The Milky Way Galaxy and everything therein consisting of suns moons planets
asteroids gases energy black holes and particles of dust among others are ALL infinitely connected to each other by gravity
which holds everything together Likewise CoDependency Addiction similar to the Earth revolving around our Sun it too
revolves around the absence of mother father or mother surrogate love in a child s life and beyond It is the primary source
from which it originates develops and thrives within the mind body of an affected human being Mother father and mother
surrogate love is the fuel that drives the development of an infant through the dependency state one is born in into the higher
conscious awareness interdependency state Initially mother or mother surrogate love is used to assist their infant to self
actualize namely to learn he or she is love by being loved by their parents If this most critical step is missed at a most critical
time in the early development of an infant from birth to six years old unfortunately the latter does not evolve emotionally to
the interdependency state in which the child by this time knows one Self as being love and who realizes simultaneously that
it is necessary to give their love to another human being and by doing so one is enabled to learn and experience what it feels
like to be loved When this irreplaceable process is carried out according to Nature the child is embodied with the
fundamental tool to transform Self progressively into a work of art One of the many contributions this book makes to our
understanding of CoDependency Addiction is when a child does not evolve emotionally into the interdependency state he or
she remains in a dependency state beyond appropriate years By six years old a child who has been adequately nurtured with
love from the outset develops in their brain what is called love circuits In the absence of mother or mother surrogate love
during this crucial time these circuits empathy kindness caring altruism friendship compassion etc are replaced with others
such as anger shame denial guilt low self esteem not good enough unworthiness narcissisms ego etc It is in this
developmental space we find the origin of CoDependency Addiction manifested in an affected person s adult life Unable to

make genuine friends and be loved both of which are cornerstones of the interdependency state fear and self preservation emerge as a daily preoccupation and concern This book outlines in detail how CoDependency Addiction is repressed within one s injured and wounded self and because of denial and projection a web of deception is employed to Go Along To Get Along Although the hypnotic rhythm makes healing more formidable as the years pass the solution is determination to shatter denial Marteau X received his Doctor of Philosophy Degree from the University of Colorado Boulder in 1977 He has spent 40 years studying social philosophy and dialectical materialism including alienation and Psychology He lives with his family in Baltimore MD
