Walking Zero Discovering Cosmic Space And Time Along The Prime Meridian:

Walking Zero Chet Raymo, 2006-05-02 A noted science writer and author of *The Path* offers an illuminating study of the interconnections among science faith psychology and the arts in terms of the evolution of the human understanding of space and time as he walks along the Prime Meridian the line of zero longitude and the standard for world maps and clocks from Brighton to the North Sea 20 000 first printing

Walking Zero Chet Raymo, 2009-05-26 In *Walking Zero* Chet Raymo uses the Prime Meridian the line of zero longitude and the standard for all the world's maps and clocks to tell the story of humankind's intellectual journey from a cosmos not much larger than ourselves to the universe of the galaxies and geologic eons As in his highly praised *The Path* and *Climbing* Brandon Raymo connects personally with the story by walking England's Prime Meridian from Brighton through Greenwich to the North Sea The Prime Meridian passes near a surprising number of landmarks that loom large in science Isaac Newton's chambers at Trinity College Cambridge Charles Darwin's home at Down in Kent the site where the first dinosaur fossils were discovered and John Harrison's clocks in a museum room of the Royal Observatory among many others Visiting them in turn Raymo brings to life the human dramas of courageous individuals who bucked reigning orthodoxies to expand our horizons including one brave rebel who paid the ultimate price for surmising the multitude of worlds we now take for granted A splendid short history of astronomy and geology *Walking Zero* illuminates the startling interplay of science psychology faith and the arts in our understanding of space and time

Zero Degrees Charles W. J. Withers, 2017-03-13 Charles Withers explains how the choice of Greenwich to mark 0 longitude solved problems of global measurement that had engaged geographers astronomers and mariners since ancient times This history is a testament to the power of maps the challenges of global measurement and the role of scientific authority in creating the modern world

Apollo's Fire Michael Sims, 2008 A lighthearted tour of the developmental synergies of life throughout the course of a single day touches on a broad variety of cultural and natural topics from the color of the sky and the course of the sun to the iconography of prehistoric Egyptian sculpture and the circadian rhythms of Japanese moon imagery By the author of *Adam's Navel* Reprint

You Do Not Talk About Fight Club Read Mercer Schuchardt, 2015-01-06 Pervasive and multidisciplinary this insightful exploration discusses how and why this seminal work developed and continues to grow such a cult following When *Fight Club* punched its way onto the scene a decade ago it provided an unprecedented glimpse into the American male's psyche and rapidly turned into a euphemism for a variety of things that should be just understood and not otherwise acknowledged Key to its success is the variety of lenses through which the story can be interpreted is it a story of male anxiety in a metrosexual world of ritual religion in a secular age of escape from totalitarian capitalism or the spiritual malaise induced by technologically oriented society Writers conspiracy theorists and philosophers are among those ready to talk about *Fight Club*'s ability to be all these and more

The Readers' Advisory Guide to Nonfiction Neal Wyatt, 2007-05-14 Navigating what she calls the extravagantly rich world of nonfiction renowned readers advisor RA Wyatt builds readers

advisory bridges from fiction to compelling and increasingly popular nonfiction to encompass the library's entire collection. She focuses on eight popular categories: history, true crime, true adventure, science, memoir, food, cooking, travel, and sports. Within each, she explains the scope, popularity, style, major authors and works, and the subject's position in readers' advisory. Interviews Wyatt addresses who is reading nonfiction and why, while providing RAs with the tools and language to incorporate nonfiction into discussions that point readers to what to read next. In easy-to-follow steps, Wyatt explains the hows and whys of offering fiction and nonfiction suggestions together. Illustrates ways to get up to speed fast in nonfiction. Shows how to lead readers to a variety of books using her read-around and reading map strategies. Provides tools to build nonfiction subject guides for the collection. This hands-on guide includes nonfiction bibliography, key authors, benchmark books with annotations, and core collections. It is destined to become the nonfiction bible for readers' advisory and collection development, helping librarians, library workers, and patrons select great reading from the entire library collection.

The Analemma Waltz Paul Vincent, 2020-11-18. When author Paul Vincent moved into his new home in Bristol, Rhode Island, he was struck by how generously its interior gathered sunlight and decided to keep a record of the annual solar itinerary across its walls, floors, and furniture. The result is *The Analemma Waltz*, a celebration of the sun's slow motion dance through his house, facilitated in part by its surfeit of windows but much more so by the analemma, the narrow figure-eight pattern the sun describes in the sky in the course of a year in the Earth's orbital journey. Vincent's habit of noting and minuting the changing positions of sunlight day by day and week by week was the catalyst for meditations on matters of universal concern, as suggested by the times and the seasons of the year, and approached not from the perspective of a scholar or academic but from that of an interested layperson. Such matters addressed in the monthly chapters include the study of history, the virtue of tolerance, the conflict between science and religion, and the morality of war. Despite the varied nature of the essay topics in *The Analemma Waltz*, certain themes appear and reappear throughout the book, namely the author's convictions that existential particularity is the occasion of both joy and sadness, that the world's people, though the beneficiaries of seemingly endless breakthroughs in technology, are and will remain metaphysically

vulnerable and that appreciation prompting gratitude is the highest vocation of the human person Nursing Knowledge and Theory Innovation Pamela G. Reed, Nelma B.
