Chicana/o Remix Karen Mary Davalos,2017-07-25 Rewrites our understanding of the last 50 years of Chicana o cultural

production Chicana o Remix casts new light not only on artists such as Sandra de la Loza Judy Baca and David Botello among others but on the exhibitions that feature their work and the collectors curators critics and advocates who engage it Combining feminist theory critical ethnic studies art historical analysis and extensive archival and field research Karen Mary Davalos argues that narrow notions of identity politics and aesthetics limit our ability to understand the full capacities of Chicana o art She employs fresh vernacular concepts such as the errata exhibit or the staging of exhibits that critically question mainstream art museums and the remix or the act of bringing new narratives and forgotten histories from the background and into the foreground These concepts which emerge out of art practice itself drive her analysis and reinforce the rejection of familiar narratives that evaluate Chicana o art in simplistic traditional terms such as political versus commercial or realist versus conceptual Throughout Chicana o Remix Davalos explores undocumented or previously ignored information about artists their cultural production and the exhibitions and collections that feature their work Each chapter exposes and challenges conventions in art history and Chicana o studies documenting how Chicana artists were the first to critically challenge exhibitions of Chicana o art tracing the origins of the first Chicano arts organizations and highlighting the influence of Europe and Asia on Chicana o artists who traveled abroad As a leading scholar in the study of Chicana o artists art spaces and exhibition practices Davalos presents her most ambitious project to date in this re examination of fifty years of Chicana o art production

Did a microfinance 'plus' programme empower female farmers and pastoralists and improve intrahousehold equality in rural Ethiopia? Evidence from an impact evaluation using a Project-Women's Empowerment in Agricultural Index (pro-WEAI) survey tool Hillesland, Marya, Kaaria, Susan, Mane, Erdgin, Alemu, Mihret, Slavchevska, Vanya, 2021-07-27 Using the project Women s Empowerment in Agricultural Index pro WEAI survey tool developed by GAAP2 this study aims to estimate the impact of a microfinance plus programme on women s economic empowerment in communities in Oromia and Afar Ethiopia The programme incorporates multiple interventions which are implemented through women run rural savings and credit cooperatives RUSACCOs with the intention of improving beneficiary women s decision making over productive assets control over income and leadership in rural institutions A major component of the programme is aimed at rural women s greater access to credit but interventions also include agricultural livestock and technology transfers business training as well as a community gender awareness component A difference in difference estimator with Inverse Probability Weighting IPW is used to evaluate the impact of the programme on women s empowerment in Oromia Because of conflict in the area baseline data collection was delayed and data was collected after some interventions had already begun in Oromia As such nearly all beneficiaries already had access to credit through the RUSACCOs at baseline and both women and men were already empowered in a number of dimensions at baseline Among households with beneficiaries who continued in good standing between baseline and midline the programme positively contributed to both women s and men s empowerment with regards to respect among household members It did not lead to

additional impacts in terms of overall empowerment and gender parity within the household or across the other pro WEAI indicators However it appears that by maintaining good standing in the RUSACCOs female participants were able to maintain high levels of empowerment across the other indicators A second group of beneficiary women who either chose to leave the RUSACCO or did not maintain good standing as a member were also highly empowered across many dimensions at baseline but experienced large average decreases in empowerment across a number of indicators by midline In Afar using the midline data only a single difference estimator with Inverse Probability Weighting is used to evaluate the impact of the programme In Afar the programme had a significant impact on women s overall empowerment As we expected given the nature of the programme there were significant positive results in terms of access to and decisions on financial services group membership and membership in influential groups There were also positive impacts on control over the use of income suggesting that the programme contributed to greater control over the use of the output from agricultural activities and control over income from agricultural and non agricultural activities On the other hand the programme also appears to have resulted in reduced empowerment on average with regards to autonomy in income **Divided by the Wall** Emine Fidan Elcioglu,2020-08-04

The construction of a wall on the U S Mexico border whether to build it or not has become a hot button issue in contemporary America A recent impasse over funding a wall caused the longest government shutdown in U S history sharpening partisan divisions across the nation In the Arizona borderlands groups of predominantly white American citizens have been mobilizing for decades some help undocumented immigrants bypass governmental detection while others help law enforcement agents to apprehend immigrants Activists on both the left and the right mobilize without an immediate personal connection to the issue at hand many doubting that their actions can bring about the long term change they desire Why then do they engage in immigration and border politics so passionately **Divided by the Wall** offers a one of a kind comparative study of progressive pro immigrant activists and their conservative immigration restrictionist opponents Using twenty months of ethnographic research with five grassroots organizations Emine Fidan Elcioglu shows how immigration politics has become a substitute for struggles around class inequality among white Americans She demonstrates how activists mobilized not only to change the rules of immigration but also to experience a change in themselves Elcioglu finds that the variation in social class and intersectional identity across the two sides mapped onto disparate concerns about state power As activists strategized ways to transform the scope of the state s power they also tried to carve out self transformative roles for themselves Provocative and even handed **Divided by the Wall** challenges our understanding of immigration politics in times of growing inequality and insecurity Primary Health Care in Urban Communities Beverly Jane McElmurry,Cynthia Tyska,Randy Spreen Parker,1999 Explores the efficacy of primary care concepts in real world situations Written collaboratively by academics and community leaders it details partnerships forged between health professionals institutions local governments and organizations to provide accessible acceptable and affordable health services to underserved
