

Walmart Statement of Ethics

I'm a Vision Center regional manager. I've recently invested \$10,000 in an investment fund that may invest some of the money in the optical industry. Would this be a violation? Since you don't have direct control over the investment strategy, it's not a violation.

Someone told me I could not own stock in a vendor. Is this correct?

No. The restriction is you may not have any direct financial interest in a vendor whose business you have direct or indirect influence over within your position at Walmart. There are no restrictions to financial interests in vendors you do not have business influence over.

My wife recently joined Walmart and we own more than \$20,000 of stock in a key competitor. Must she sell this stock?

You should disclose the information to your manager and the Global Ethics Office. The Global Ethics Office will issue you an opinion with any instructions regarding any potential conflicts of interest.

On the Job Heather Akou, 2024-02-22 Through a variety of archival documents, artefacts, illustrations and references to primary and secondary literature, *On the Job* explores the changing styles, business practices and lived experiences of the people who make, sell and wear service industry uniforms in the United States. It highlights how the uniform business is distinct from the fashion business, including how manufacturing developed outside of the typical fashion hubs such as New York City and gives attention to the ways that various types of employers, small business, corporate, government and others differ in their ambitions and regulations surrounding uniforms. *On the Job* sheds new light on an understudied yet important field of dress and clothing within everyday life and is an essential addition to any fashion historian's library, appealing to all those interested in material culture, the service industry heritage and history.
