Walt And The Promise Of Progress City By Sam Gennawey:

Walt Disney and the Promise of Progress City Sam Gennawey, Bob McLain, Werner Weiss, 2014-12-14 The Story of Walt's EPCOT Disney historian and urban planner Sam Gennawey traces the evolution of the EPCOT we didn't get and the Epcot we did in a tour de force analysis of Walt's vision for city building and how his City of Tomorrow might have turned out had he lived

Walt and the Promise of Progress City Sam Gennawey, 2011 Walt Disney's vision for a city of tomorrow EPCOT would be a way for American corporations to show how technology creative thinking and hard work could change the world He saw this project as a way to influence the public's expectations about city life in the same way his earlier work had redefined what it meant to watch an animated film or visit an amusement park Walt and the Promise of Progress City is a personal journey that explores the process through which meaningful and functional spaces have been created by Walt Disney and his artists as well as how guests understand and experience those spaces

Movie Towns and Sitcom Suburbs Stephen Rowley, 2015-10-21 Media depictions of community are enormously influential on wider popular opinion about how people would like to live In this study Rowley examines depictions of ideal communities in Hollywood films and television and explores the implications of attempts to build real world counterparts to such imagined places

Power and Paradise in Walt Disney's World Cher Krause Knight, 2019-08-19 Peels back the actual and contextual layers of Walt Disney's inspiration and vision for Disney World in central Florida exploring the reasons why the resort has emerged as such a prominent sociocultural force

Disney and the Dialectic of Desire Joseph Zornado, 2017-10-18 This book analyzes Walt Disney's impact on entertainment new media and consumer culture in terms of a materialist psychoanalytic approach to fantasy The study opens with a taxonomy of narrative fantasy along with a discussion of fantasy as a key concept within psychoanalytic discourse Zornado reads Disney's full length animated features of the golden era as symbolic responses to cultural and personal catastrophe and presents Disneyland as a monument to Disney fantasy and one man's singular perverse desire What follows after is a discussion of the second golden age of Disney and the rise of Pixar Animation as neoliberal nostalgia in crisis The study ends with a reading of George Lucas as latter day Disney and Star Wars as Disney fantasy This study should appeal to film and media studies college undergraduates graduates students and scholars interested in Disney

Architecture and Leadership Mark Roberson, Alicia Crumpton, 2022-12-12 From cathedrals to cubicles people go to great lengths and expense to design their living and working environments They want their spaces to be places where they enjoy being reflecting who they are and what they care about The resultant environments in turn become loud albeit unvoiced leaders for people occupying those corresponding spaces The design and use of work and living spaces typifies and thematizes expectations for the group Essentially the architecture of rooms buildings and cities creates cultures by conveying explicit and implicit messages This is evident when people approach and walk into St Basil's Cathedral in Moscow the Forbidden City in Beijing the Sydney Opera House in Sydney Australia the Jewish Museum in Berlin or the Rothko Chapel in

Houston to name some examples While leaders oftentimes lack the resources to have their spaces mirror the greatest architectural achievements of the world they are in a position to use the art and science of architecture at whatever scale is available to their advantage The creative and intentional use of space and place advances and promotes cherished values and enhances organizational effectiveness This book explores the essence of good architecture and establishes relevant connections for leaders and managers to strategically design and use the organizational workplace and space to support their mission and purpose and create aesthetically meaningful work environments It equips leaders to be culturally astute on what defines good architecture and to incorporate principles of beauty in their leadership practices accordingly and will be of interest to researchers academics professionals and students in the fields of leadership organizational studies and architecture theory and practice

Autonorama Peter Norton, 2021-10-21 In *Autonorama* The Illusory Promise of High Tech Driving historian Peter Norton argues that driverless cars cannot be the safe sustainable and inclusive mobility solutions that tech companies and automakers are promising us The salesmanship behind the driverless future is distracting us from better ways to get around that we can implement now Unlike autonomous vehicles these alternatives are inexpensive safe sustainable and inclusive Norton takes the reader on an engaging ride from the GM Futurama exhibit to smart highways and vehicles to show how we are once again being sold car dependency in the guise of mobility *Autonorama* is hopeful advocating for wise proven humane mobility that we can invest in now without waiting for technology that is forever just out of reach

Utopias in Nonfiction Film Simon Spiegel, 2022-01-11 Comprehensive and thorough *Utopias in Nonfiction Film* takes a new direction in its surprise application to documentary that has the potential to shake up the field Jane Gaines Columbia University USA Spiegel has introduced a new sub genre to utopian studies the documentary film The book covers an impressive range of films making the book one of the few truly international and comparative works in utopian studies Lyman Tower Sargent University of Missouri St Louis USA Simon Spiegel's magisterial overview of utopian documentaries and nonfiction films is a treasure trove of information and unearths many forgotten and half forgotten films providing perceptive discussions of sidelined movies that deserve his and our critical scrutiny Eckart Voigts University of Braunschweig Institute of Technology Germany

This book is the first major study on utopias in nonfiction film. Since the publication of Thomas More's *Utopia* more than 500 years ago, countless books have been written which describe a better world. But in film, positive utopias seem to be nonexistent. So far, research has focused almost exclusively on dystopias, since positive outlooks seem to run contrary to the media's requirement. *Utopias in Nonfiction Film* takes a new approach, starting from the insight that literary utopias are first and foremost meant as a reaction to the ills of the present and not as entertaining stories. It looks at documentary and propaganda films, an area which so far has been completely ignored by research. Combining insights from documentary research and utopian studies, a vast and very diverse corpus of films is analysed. Among them are Zionist propaganda films, cinematic city utopias, socialist films of the future, as well as web videos produced by the Islamist terrorist group ISIS.

American Arcadia Peter James Holliday, 2016. *American Arcadia* explores the innumerable ways Californians shaped their visual and social culture using models and ideals from the classical tradition.
