Walter Legge Words And Music:

Walter Legge Walter Legge, 1998 Walter Legge was one of the greatest ever record producers His many other activities included founding a great orchestra the Philharmonia which he ran for eighteen years as a benevolent dictator Music formed the central core of his life but the printed word was also a vital source of inspiration and education In his writings Walter Legge reveals clearly the many facets of his own remarkable personality and from his correspondence with the great names of his day we gain rich insight into the musical world in which he played so great a part *While Spring and Summer Sang: Thomas Beecham and the Music of Frederick Delius* Lyndon Jenkins, 2017-07-05 Sir Thomas Beecham is often described as having championed the music of Frederick Delius and this is no exaggeration From the moment he heard Delius's music as a young man Beecham was captivated by its strange romantic beauty and its hold on him remained firm During the next 50 years he promoted Delius's music through a series of unrivalled performances unearthing early pieces arranging others and recording most of them sometimes more than once Lyndon Jenkins provides the first in depth study of this extraordinary creative relationship Starting with the first meeting of the composer and conductor in 1907 Jenkins charts Beecham's gradual introduction of Delius's compositions to British and foreign audiences the operatic premieres and revivals the Delius festivals that he organized in 1929 and 1946 and the formation of the Delius Trust upon the composer's death in 1934 Also described is Beecham's continuing crusade for Delius's music up to his own death in 1961 which included a model edition of the scores a biography and an internationally celebrated recorded legacy The book includes a critical discography Lyndon Jenkins provides a vivid account of an achievement that remains without parallel in the history of British music **The Cambridge Companion to Recorded Music** Nicholas Cook, 2009-11-26 Featuring fascinating accounts from practitioners this Companion examines how developments in recording have transformed musical culture **The Art of Record Production** Simon Zagorski-Thomas, Katia Isakoff, Serge Lacasse, Sophie Stévanec, 2016-04-01 The playback of recordings is the primary means of experiencing music in contemporary society and in recent years classical musicologists and popular music theorists have begun to examine the ways in which the production of recordings affects not just the sound of the final product but also musical aesthetics more generally Record production can indeed be treated as part of the creative process of composition At the same time training in the use of these forms of technology has moved from an apprentice based system into university education Musical education and music research are thus intersecting to produce a new academic field the history and analysis of the production of recorded music This book is designed as a general introductory reader a text book for undergraduate degree courses studying the creative processes involved in the production of recorded music The aim is to introduce students to the variety of approaches and methodologies that are currently being employed by scholars in this field The book is divided into three sections covering historical approaches theoretical approaches and case studies and practice There are also three interludes of commentary on the academic contributions from leading record producers and other

industry professionals This collection gives students and scholars a broad overview of the way in which academics from the analytical and practice based areas of the university system can be brought together with industry professionals to explore the ways in which this new academic field should progress **Singing in the Age of Anxiety** Laura Tunbridge,2018-07-11 In New York and London during World War I the performance of lieder German art songs was roundly prohibited representing as they did the music and language of the enemy But as German musicians returned to the transatlantic circuit in the 1920s so too did the songs of Franz Schubert Hugo Wolf and Richard Strauss Lieder were encountered in a variety of venues and media at luxury hotels and on ocean liners in vaudeville productions and at Carnegie Hall and on gramophone recordings radio broadcasts and films Laura Tunbridge explores the renewed vitality of this refugee musical form between the world wars offering a fresh perspective on a period that was pervaded by anxieties of displacement Through richly varied case studies Singing in the Age of Anxiety traces how lieder were circulated presented and consumed in metropolitan contexts shedding new light on how music facilitated unlikely crossings of nationalist and internationalist ideologies during the interwar period **Singing the Classical, Voicing the Modern** Amanda J.
