complex and interconnected Antiquity was also a period where the senses were experienced vividly cities stank statues were brightly painted and literature made full use of sensory imagery to create its effects In a steeply hierarchical world with vast differences between the landed wealthy the poor and the slaves the senses played a key role in establishing and maintaining boundaries between social groups but the use of the senses in the ancient world was not static New religions such as Christianity developed their own way of using the senses acquiring unique forms of sensory related symbolism in processes which were slow and often contested The aim of this volume is to provide an overview of these structures and developments and to show how their study can yield a more nuanced understanding of the ancient world A Cultural History of the Senses in Antiquity presents essays on the following topics the social life of the senses urban sensations the senses in the marketplace the senses in religion the senses in philosophy and science medicine and the senses the senses in literature art and the senses and sensory media
