Thinking Through Rituals Kevin Schilbrack, 2004-08-02 Many philosophical approaches today seek to overcome the division between mind and body. If such projects succeed, then thinking is not restricted to the disembodied mind but is in some sense done through the body. From a post-Cartesian perspective, then, ritual activities that discipline the body are not just thoughtless motions but crucial parts of the way people think. Thinking Through Rituals explores religious ritual acts and their connection to meaning and truth, belief, memory, inquiry, worldview, and ethics. Drawing on philosophers such as Foucault, Merleau-Ponty, and Wittgenstein, and sources from cognitive science, pragmatism, and feminist theory, it provides philosophical resources for understanding religious ritual practices like the Christian Eucharistic ceremony, Hatha Yoga, sacred meditation, or liturgical speech. Its essays consider a wide variety of rituals in Christianity, Judaism, Hinduism, and Buddhism, including political protest rituals and gay commitment ceremonies, traditional Vedic and Yogic rites, Christian and Buddhist meditation, and the Jewish Shabbat. They challenge the traditional disjunction between thought and action, showing how philosophy can help to illuminate the relationship between doing and meaning, which ritual practices imply. Thinking Through Myths Kevin Schilbrack, 2002 Embracing a radical balance between myths' illusory and functional status, these eight outstanding essays from leading academics deconstruct problems of rationality, imagination, and narrative to trace the influence of myth in our own beliefs. Mythmaking across Boundaries Züleyha Çetiner-Öktem, 2016-04-26 This volume explores the dynamics of myths throughout time and space, along with the mythmaking processes in various cultures, literatures, and languages in a wide range of fields, ranging from cultural studies to the history of art. The papers brought together here are motivated by two basic questions: How are myths made in diverse cultures and literatures? And do all different cultures have different myths to be told in their artistic pursuits? To examine these questions, the book offers a wide array of articles by contributors from various cultures, which focus on theory, history, space, place, philosophy, literature, language, gender, and storytelling. Mythmaking across Boundaries not only brings together classical myths but also contemporary constructions and reconstructions through different cultural perspectives, by transcending boundaries. Using a wide spectrum of perspectives, this volume, instead of emphasising the different modes of the mythmaking process, connects numerous perceptions of mythmaking and investigates diversities among cultures, languages, and literatures, viewing them as a unified whole. As the essays reflect on both academic and popular texts, the book will be useful to scholars and students as well as the general reader. *The Next Quest for the Historical Jesus* James Crossley, Chris Keith, 2024-11-05 A diverse group of scholars charts new paths in the quest for the historical Jesus. After a decade of stagnation in the study of the historical Jesus, James Crossley and Chris Keith have assembled an international team of scholars to envision the quest anew. The contributors offer new perspectives and fresh methods for reengaging the question of the historical Jesus. Important, timely, and fascinating, *The Next Quest for the Historical Jesus* is a must-read for anyone seeking to understand Jesus of Nazareth. Contributors: Michael P.

**Beauvoir and Politics** Liesbeth Schoonheim, Karen Vintges, 2023-10-30 Approaching Simone de Beauvoir's feminism and social commentary as a resource to understand our current crises Beauvoir and Politics A Toolkit brings together established and emerging scholars to apply her insights to gender studies political philosophy decolonisation intellectual history age theory and critical phenomenology The essays in this collection start from key concepts in Beauvoir's oeuvre and relate them to contemporary debates asking how her notion of ambiguity speaks to lived experiences that have been highly politicized in recent years such as pregnancy old age sexual violence and the exposure of black and brown bodies to police violence how myths inform our notions of collective national identities as well as notions of masculinity and femininity and how she provides conceptual tools that help to theorize the various political strategies that are used to challenge gendered and racialized systems of oppression These and other issues are central to this critical appraisal of Beauvoir's legacy demonstrating the contemporary relevance of her thought as it diagnoses the present and looks toward change for a better future This book will be of great interest to

undergraduate and postgraduate students looking to engage with the political content of Simone de Beauvoir's work and the timely application of her ideas      *Religious Ideology and the Roots of the Global Jihad* J. Turner, 2014-08-26 The events of 9 11 prompted questions as to the origins nature and purpose of international jihadist organisations In particular why had they chosen to target the US and the West in general Turner's book provides a unique holistic insight into these debates taking into account historical perceptions and ideology as key factors      **The Shek Kip Mei Myth** Alan Smart, 2006-06-01 Alan Smart raises serious questions about the standard view that Hong Kong's mass public housing programme was a direct and humane response by the Government to the Shek Kip Mei fire Rather he argues that the Government's response to that fire was grudging and incremental rather than a sharp and radical turning point and that the security and stability of Hong Kong weighed as heavily possibly more so in the decisions than the predicament of the fire victims His research shows that a whole sequence of major fires after Shek Kip Mei and the political costs of the Mainland sending comfort missions to fire victims both before and after were needed to bring about the final commitment to provide mass public housing In his critical examination of the conventional position Professor Smart bases his case on a thorough reading of government records and provides a careful investigation into the origins of the public housing policy in Hong Kong This volume makes an important contribution to the postwar history of Hong Kong and is a significant addition to the study of its modern development

**The 'Way of the LORD' in the Book of Isaiah** Bo H. Lim, 2010-05-13 What is the way of the LORD in the book of Isaiah Many scholars have adopted Walter Zimmerli's proposal that the way in Second Isaiah is a literal and physical highway extending from Babylon to Jerusalem only to be reinterpreted as a spiritual metaphorical and pious way of living in Third Isaiah This book will properly define each mention of the way in Isaiah as well as provide a coherent interpretation of this theme's theological significance within the book The way of the LORD is initially conceived of in the 1st half of the book as a highway leading to Zion common to both the dispersed Israelites as well as the nations In Isaiah Chs 34 35 provide a paradigm of what this way will entail and its theological significance      *Naturalism in the Christian Imagination* Peter N. Jordan, 2022-07-14 Science today is often seen as providing the definitive frame of reference for understanding what goes on in nature Furthermore the history of science has frequently been portrayed as the story of steady progress in overturning religious explanation in favour of scientific truth This narrative has been challenged by those who like the author of this book recognise that a naturalistic way of looking at the world which lies at the heart of modern science has a far richer relationship to religion than many have allowed Peter Jordan now takes this recognition in fresh and exciting directions Focusing on key thinkers in early modern England who located causality within a divine and providential view of the cosmos he shows how they were able to integrate ideas which today might be dichotomised as scientific and religious His book makes a compelling contribution to current science and religion debates and their history      **The New Human Rights Movement** Peter Joseph, 2017-03-21 Society is broken We can design our way to a better one In our interconnected world

self interest and social interest are rapidly becoming indistinguishable If current negative trajectories remain including growing climate destabilization biodiversity loss and economic inequality an impending future of ecological collapse and societal destabilization will make personal success virtually meaningless Yet our broken social system incentivizes behavior that will only make our problems worse If true human rights progress is to be achieved today it is time we dig deeper rethinking the very foundation of our social system In this engaging important work Peter Joseph founder of the world s largest grassroots social movement The Zeitgeist Movement draws from economics history philosophy and modern public health research to present a bold case for rethinking activism in the 21st century Arguing against the long standing narrative of universal scarcity and other pervasive myths that defend the current state of affairs The New Human Rights Movement illuminates the structural causes of poverty social oppression and the ongoing degradation of public health and ultimately presents the case for an updated economic approach Joseph explores the potential of this grand shift and how we can design our way to a world where the human family has become truly sustainable The New Human Rights Movement reveals the critical importance of a unified activism working to overcome the inherent injustice of our system This book warns against what is in store if we continue to ignore the flaws of our socioeconomic approach while also revealing the bright and expansive future possible if we succeed Will you join the movement
