Three Turk Plays from Early Modern England Daniel J. Vitkus, 2000-01 Of particular interest in understanding the West's long tradition of demonising Islam this volume makes available for the first time carefully edited annotated modern spelling editions of three important early modern Turk plays

Turks, Repertories, and the Early Modern English Stage Mark Hutchings, 2018-02-01 This book considers the relationship between the vogue for putting the Ottoman Empire on the English stage and the repertory system that underpinned London playmaking The sheer visibility of the Turk in plays staged between 1567 and 1642 has tended to be interpreted as registering English attitudes to Islam as articulating popular perceptions of Anglo Ottoman relations and as part of a broader interest in the wider world brought home by travellers writers adventurers merchants and diplomats Such reports furnished playwrights with raw material which fashioned into drama established the Turk as a fixture in the playhouse But it was the demand for plays to replenish company repertories to attract London audiences that underpinned playmaking in this period Thus this remarkable fascination for the Ottoman Empire is best understood as a product of theatre economics and the repertory system rather than taken directly as a measure of cultural and historical engagement

Early Modern Catholics, Royalists, and Cosmopolitans Brian C. Lockey, 2016-03-09 Early Modern Catholics Royalists and Cosmopolitans considers how the marginalized perspective of 16th century English Catholic exiles and 17th century English royalist exiles helped to generate a form of cosmopolitanism that was rooted in contemporary religious and national identities but also transcended those identities Author Brian C Lockey argues that English discourses of nationhood were in conversation with two opposing cosmopolitan perspectives one that sought to cultivate and sustain the emerging English nationalism and imperialism and another that challenged English nationhood from the perspective of those Englishmen who viewed the kingdom as one province within the larger transnational Christian commonwealth Lockey illustrates how the latter cosmopolitan perspective produced within two communities of exiled English subjects separated in time by half a century influenced fiction writers such as Sir Philip Sidney Edmund Spenser Anthony Munday Sir John Harington John Milton and Aphra Behn Ultimately he shows that early modern cosmopolitans critiqued the emerging discourse of English nationhood from a traditional religious and political perspective even as their writings eventually gave rise to later secular Enlightenment forms of cosmopolitanism

Local Shakespeares Martin Orkin, 2007-05-07 This book shows how local non metropolitan knowledges and experiences might extend our understanding of various aspects of Shakespeare's plays using as a particular example the presentation of masculinity in the late plays

'Public' and 'Private' Playhouses in Renaissance England: The Politics of

Publication Eoin Price, 2015-10-15 At the start of the seventeenth century a distinction emerged between public outdoor amphitheatre playhouses and private indoor hall venues This book is the first sustained attempt to ask why Theatre

historians have long acknowledged these terms but have failed to attest to their variety and complexity Assessing a range of evidence from the start of the Elizabethan period to the beginning of the Restoration the book overturns received scholarly wisdom to reach new insights into the politics of theatre culture and playbook publication Standard accounts of the public and private theatres have either ignored the terms or offered insubstantial explanations for their use This book opens up the rich range of meanings made available by these vitally important terms and offers a fresh perspective on the way dramatists theatre owners booksellers and legislators conceived the playhouses of Renaissance London *The Religions of the Book* M. Dimmock, A. Hadfield, 2008-04-03 This is the first study to explore the relationship between Christianity Judaism and Islam in the Early Modern period Contributors debate the complicated terms in which these Religions of the Book interacted The collection illuminates this area of European culture from the late Middle Ages to the end of the Seventeenth century

Shakespeare's Culture in Modern Performance M. Jones, 2003-10-23 Shakespeare's Culture in Modern Performance is an original study at the interface of a historicizing literary criticism and the study of modern performance In a critical climate that views the cultural object of performance as authentic in itself is there any point in exploring a script's original history The writer argues for a dialogic understanding of Shakespeare's plays in performance relative to unresolved issues of modernity in a study of modern productions on stage and screen

The Hand on the Shakespearean Stage Farah Karim Cooper, 2016-04-21 This ground breaking new book uncovers the way Shakespeare draws upon the available literature and visual representations of the hand to inform his drama Providing an analysis of gesture touch skill and dismemberment in a range of Shakespeare's works it shows how the hand was perceived in Shakespeare's time as an indicator of human agency emotion social and personal identity It demonstrates how the hand and its activities are described and embedded in Shakespeare's texts and about its role on the Shakespearean stage as part of the actor's body in the language as metaphor and as a morbid stage prop Understanding the cultural signifiers that lie behind the early modern understanding of the hand and gesture opens up new and sometimes disturbing ways of reading and seeing Shakespeare's plays

Voyage Drama and Gender Politics, 1589-1642 Claire Jowitt, 2003 The interest in aesthetics in Philosophy Literary and Cultural Studies is growing rapidly The new aestheticism contains exemplary essays by key practitioners in these fields which demonstrate the importance of this area of enquiry
