Handbook of Education for Spirituality, Care and Wellbeing Marian de Souza, LESLIE J. FRANCIS, James O'Higgins-Norman, Daniel G. Scott, 2009-10-13 Acknowledging and understanding spiritual formation is vital in contemporary education This book explores the dynamic relationship between education and wellbeing It examines the theory underpinning the practice of education in different societies where spirituality and care are believed to be at the heart of all educational experiences The book recognizes that regardless of the context or type of educational experience education is a caring activity in which the development of the whole person body mind and spirit is a central aim for teachers and educators in both formal and informal learning The chapters in this handbook present and discuss topics that focus on spirituality as an integral part of human experience and consequently essential to educational programs which aim to address personal and communal identity foster resilience empathy and compassion and promote meaning and connectedness *Pursuing Eudaimonia* John Matthews, 2013-02-21 This book offers an original account of an ancient alternative form of negative reason which stands in antithesis to its modern instrumental form which has dominated thinking about the pursuit of human development since the Enlightenment It advances arguments for the recovery of such reason as a spiritual and therapeutic way of life and demonstrates that it is impossible to fully appreciate the Christian apophatic tradition without investigating the intricacies of its philosophical heritage The aim of this discussion is the retrieval and rediscovery of invaluable insights from ancient philosophy in the universal pursuit of happiness The book s re appropriation of the negative philosophical and theological articulation of the pursuit of eudaimonia offers to redirect those living in the twenty first century towards the

significance of the Christian apophatic ascent and in so doing to assist them in uncapping the wellsprings of human passion desire and happiness **Supporting Children and Youth Through Spiritual Education** Kirmani, Mubina

Linguistic Diversity and Discrimination Sender Dovchin, Qian Gong, Toni Dobinson, Maggie McAlinden, 2023-12-11

This collection explores the ways in which women in academia from culturally and linguistically diverse backgrounds mediate the negotiation of linguistic discrimination and linguistic diversity in higher education using autoethnography to make visible their lived experiences. The volume shows how women in academia from CaLD backgrounds particularly those living or working in the Global South draw on their multivalent complex linguistic backgrounds and cultural repertoires to cope with and manage linguistic and systemic gender discrimination. In adopting autoethnography as its key methodology, the book encourages these academics to write themselves beyond the conventions from which women in academia have traditionally been forced to speak and write. The collection features perspectives from women across geographic contexts, sub-fields and levels of experience whose stories are not often told, putting at the fore their narratives, lived experiences and career trajectories in mediating issues around power, ideology, language policy, social justice, teaching and learning and identity construction. In so doing, the book challenges the wider field to expand the borders of discussions on linguistic discrimination and higher education institutions to critically engage with these issues. This book will be of interest to scholars in applied linguistics, sociolinguistics and cultural studies.

Deep in Thought Jason Baehr, 2022-10-18

Deep in Thought provides an introduction to intellectual virtues, the personal qualities and character strengths of good thinkers and learners, and outlines a pragmatic approach for teachers to reinforce them in the classroom. With a combination of theoretical expertise and practical experience, philosopher Jason Baehr endorses intellectual virtues as a rich, meaningful way to think about and understand the purpose of education. He makes a persuasive case for prioritizing intellectual virtues in the classroom to facilitate deeper learning, encourage lifelong learning and enrich teacher practice. Baehr profiles nine key virtues that enable learners to initiate the process of learning, maintain forward momentum and overcome common obstacles. With engaging anecdotes and concrete examples, he presents a wealth of principles, postures and practices that educators can employ in promoting essential habits of mind such as curiosity, open-mindedness and intellectual courage. Baehr illustrates how opportunities to practice these intellectual habits can be integrated into the classroom in ways that align with current teaching practices. In addition, he shows how educators can adapt these practices to accommodate students' identities, developmental abilities and interests. This thought-provoking book supports all educators, especially middle and high school teachers, in teaching for intellectual virtues. *Deep in Thought* is a philosophical and yet practical guide to one of the most important aims of education: helping students become skilled thinkers and learners.
